

Dungeoneering Presents

Starbase Omicron: 3D Bunker

A simple 2x4 bunker for your little men to hide in. Also works as the entrance to an underground base or lab.

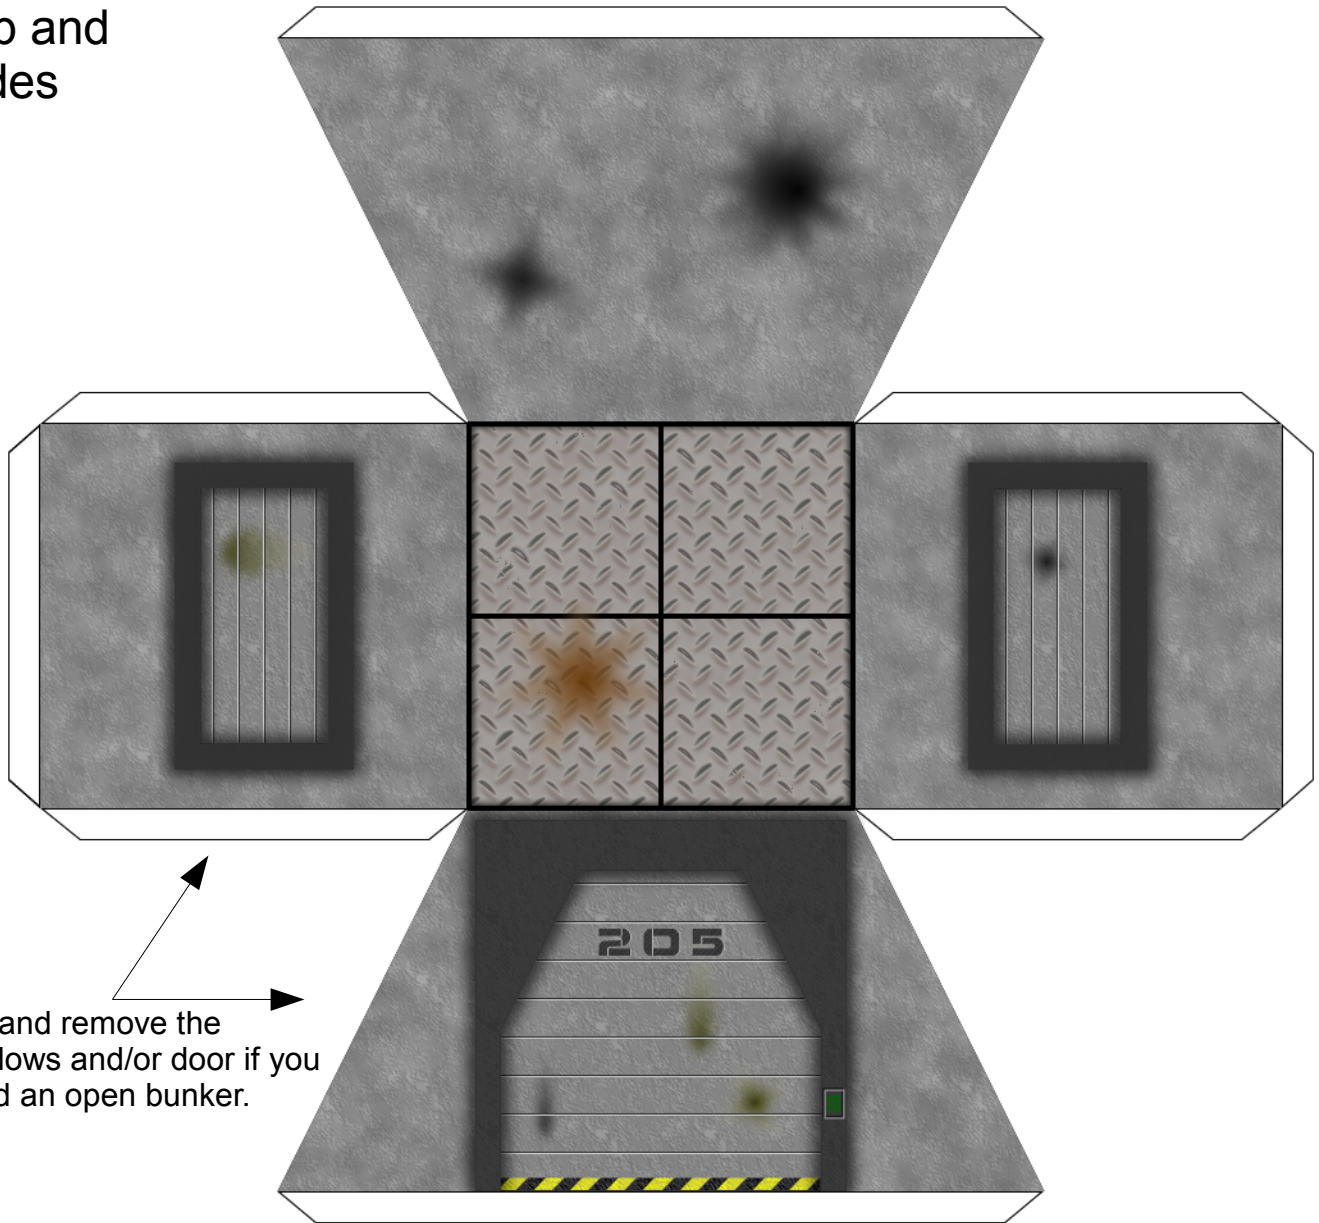

Using Pieces

Cut out top and base. Fold the top into a three-dimensional trapezoid, then mount to the base.

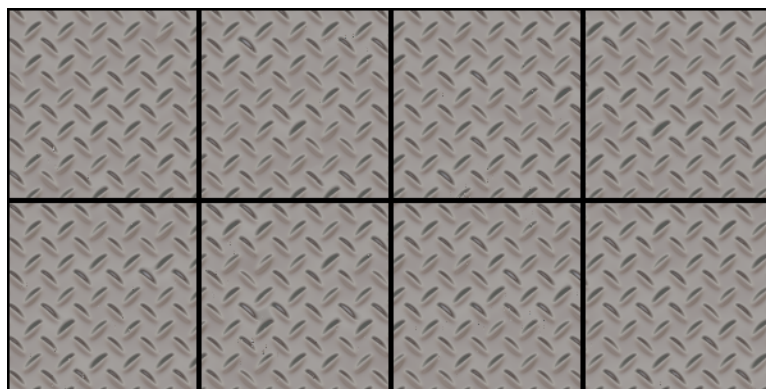

Be Creative!

Cut the windows and/or door to create an open bunker that you can set miniatures inside of for cover.

Top and
Sides

Cut and remove the
windows and/or door if you
need an open bunker.

Base
