Layout: Joe Wetzel

The art for this coloring book is from two monster art projects on Kickstarter by Inkwell Ideas. We've picked 32 monsters which are aberrations, magical beasts, constructs or outsiders. We made our final choices based on art that was good for coloring. (Some of the line art was not appropriate for coloring for one reason or another: too much shading, too much detail, etc.)

Permission is granted to print copies of the art for personal use only.
