ENDLESS DUNGEONS

Basic Set

ADD-ON 2: FORGE OF A THOUSAND SOULS

Thank you for downloading *The Forge of a Thousand Souls*, the second add-on for *Endless Dungeon Basic Set*! This tiles set will make you able to build a great variety of ancient Dungeons to explore during your role playing or boardgame sessions.

Squares are 1 inch large (approx. 25 mm), making these tiles suitable for playing with 25mm/28mm/30mm figures.

PRINTING

You can print this document on Letter or A4 paper size, just make sure you print without resizing. Print more copies of the same page if you need more elements of the same type.

You can print on the hardest cardstock your printer can support, but we recommend to use adhesive paper so you can glue it to cardboard (or forex) and gain in durability.

A spray adhesive will work the same, but it could be more difficult to handle for beginners.

CUTTING

Using a cutter and a metal ruler, cut along the lines and use the reference on the next page if you have any doubt. All tiles are organized so you can quickly cut and avoid wasting too much paper.

When you are done cutting, we recommend to use a black marker to (very) lightly colour the edges of the tiles. By eliminating those "white lines" on the side of the tiles, you will correct any imperfection from cutting and improve the overall look of your Dungeon.

CONTENTS OF THIS DOCUMENT

Page 4: Forge of a Thousand Souls.
