To assemble the ammo bin, glue the back of the two sides with triangular tabs.

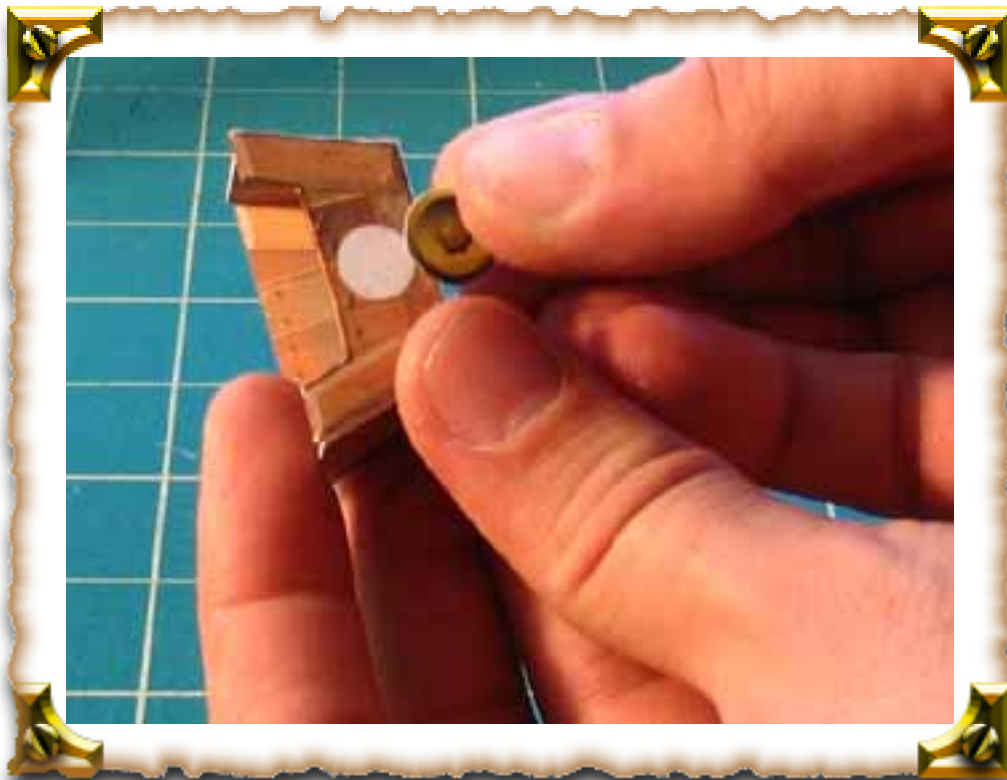

Fold them flat and trim away the white card.

Then
glue
the

other two sides and fold with the triangular tabs inside.

The white spot is for mounting the symbols. Metal, Stone and Flaming ammo are represented if you need to use different kinds of paper balls for the Trebuchet.

The Catapult ammo is the three kinds of cubes, each one weighs 0.3 grams on 110 lb. paper.

Happy Flinging!
