After cutting and scoring, flip it onto it's back and glue the small tab.

Form  
the

triangular steps, fold over the one at the bottom.

Glue the long tabs on the sides and fold into a box. You may want to butt glue the steps onto the two vertical shafts with a dot of glue on each side.

To make the spikes, glue the triangular tabs and fold inwards.

**Fold the spikes inward and glue the square flap on the end to the front of the ladder.**
