Cut out the tiny squares from the edge of the tent top.

Glue the two tabs and fold into a roof shape.

For the lower part of the tent you have two options, fabric sides or wooden legs, creating an open pavilion.
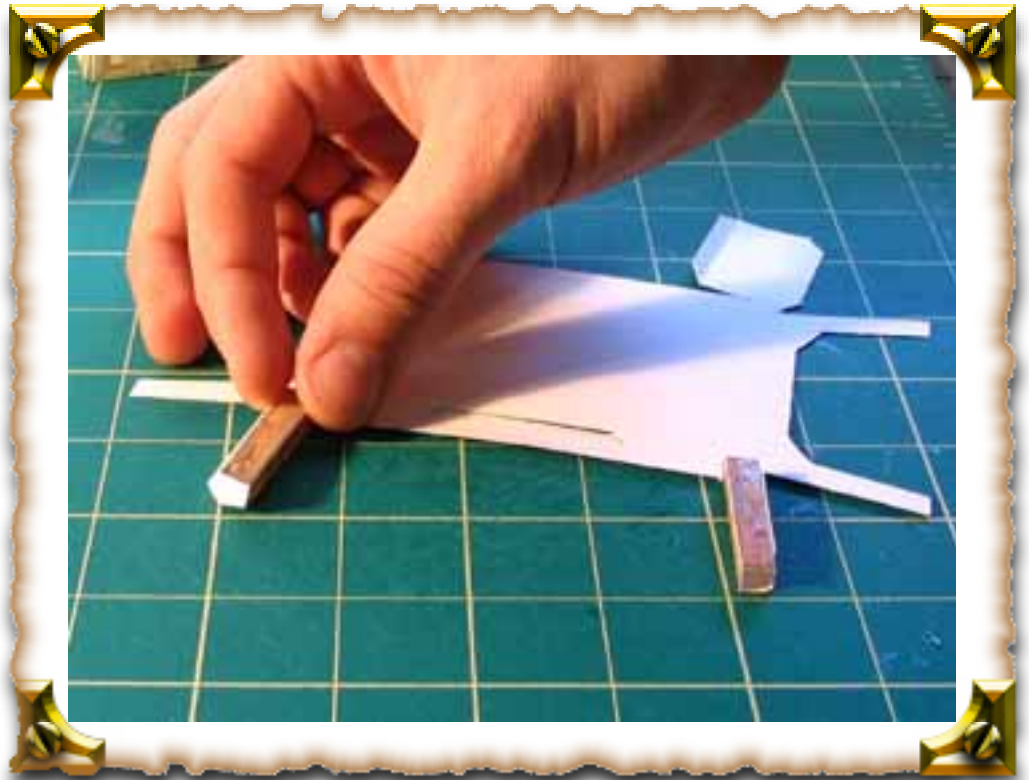

2

**Glue the four flaps on the fabric base and form into a box. Be sure to cut out the two top flaps as shown.**

Place roof onto base. Reach underneath and press the tabs onto the roof.

3

**For the wooden base, lay it down and fold up each leg piece into a box.**

Then fold up the sides and ends.

Glue the white area of the leg and press the side onto it.

Glue the two tabs and set roof on as shown.
