The most diverse and wide-ranging collection of counters yet! Includes many classics of fantasy roleplaying (Dragons, demons, devils, elves, dwarves, *etc*) and a few new surprises (check out the various Ogdoads and the Illujan Lord!). Now you can impress your players when you throw a gargantuan nightcrawler against the adventurers, or make them *grin* at the sight of a well-armed kobold.

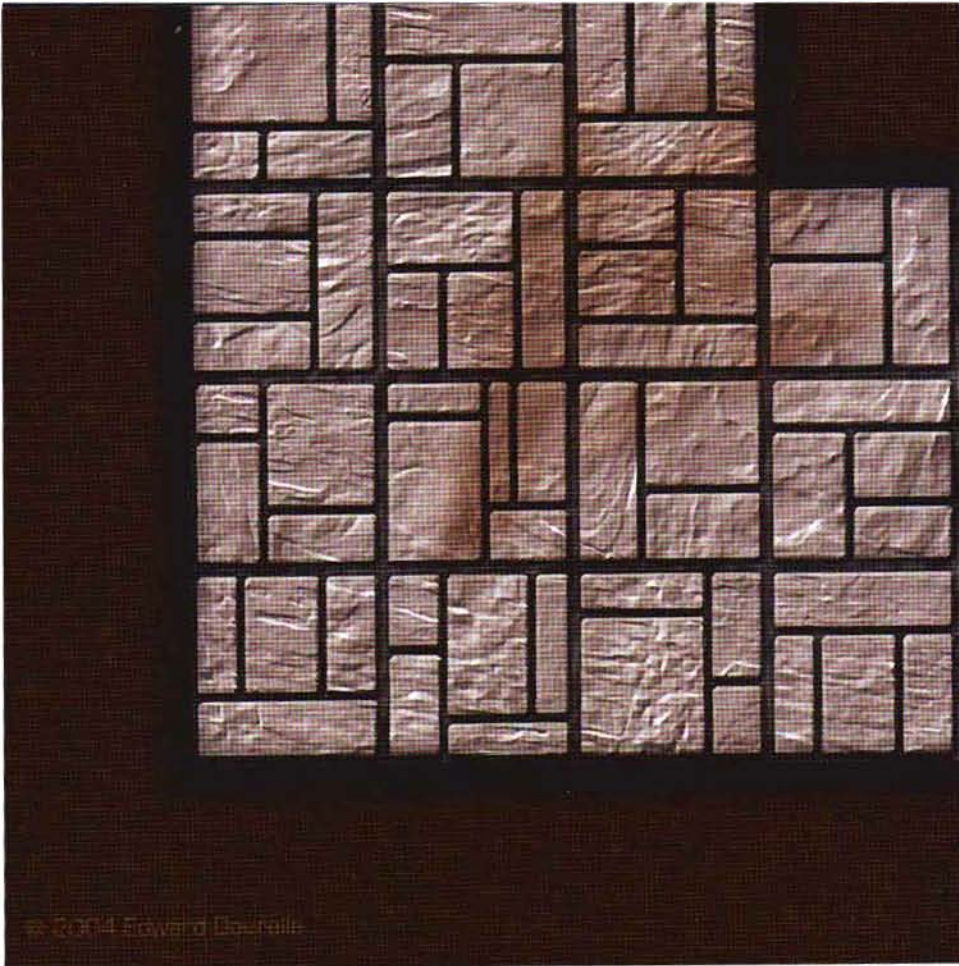

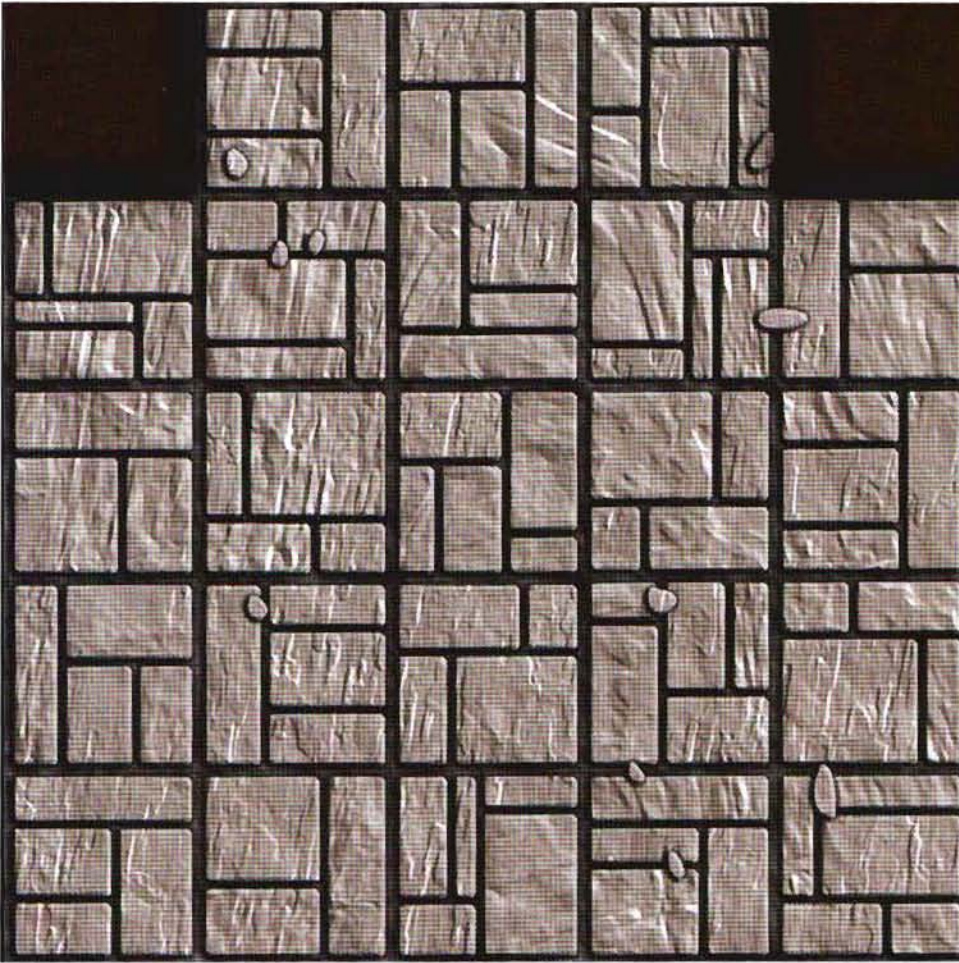

For a complete write-up on the Ogdoads and Illujan creatures, visit www.fierydragon.com.

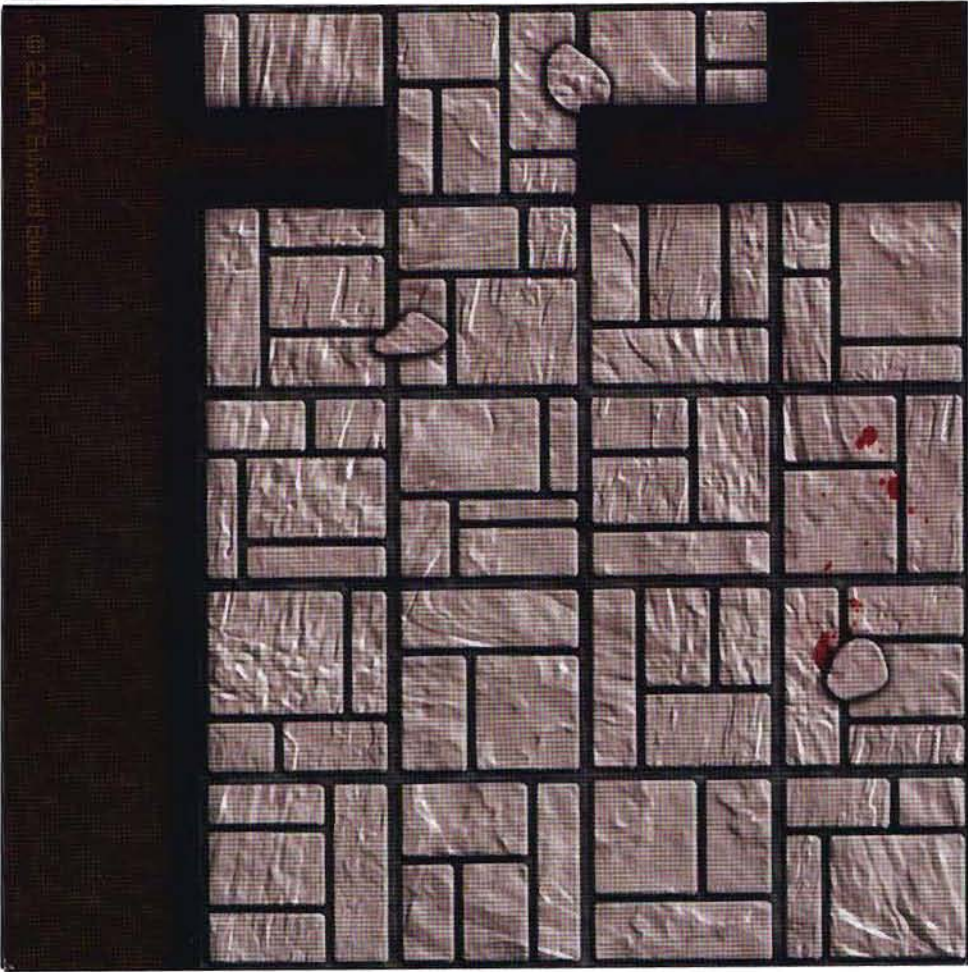

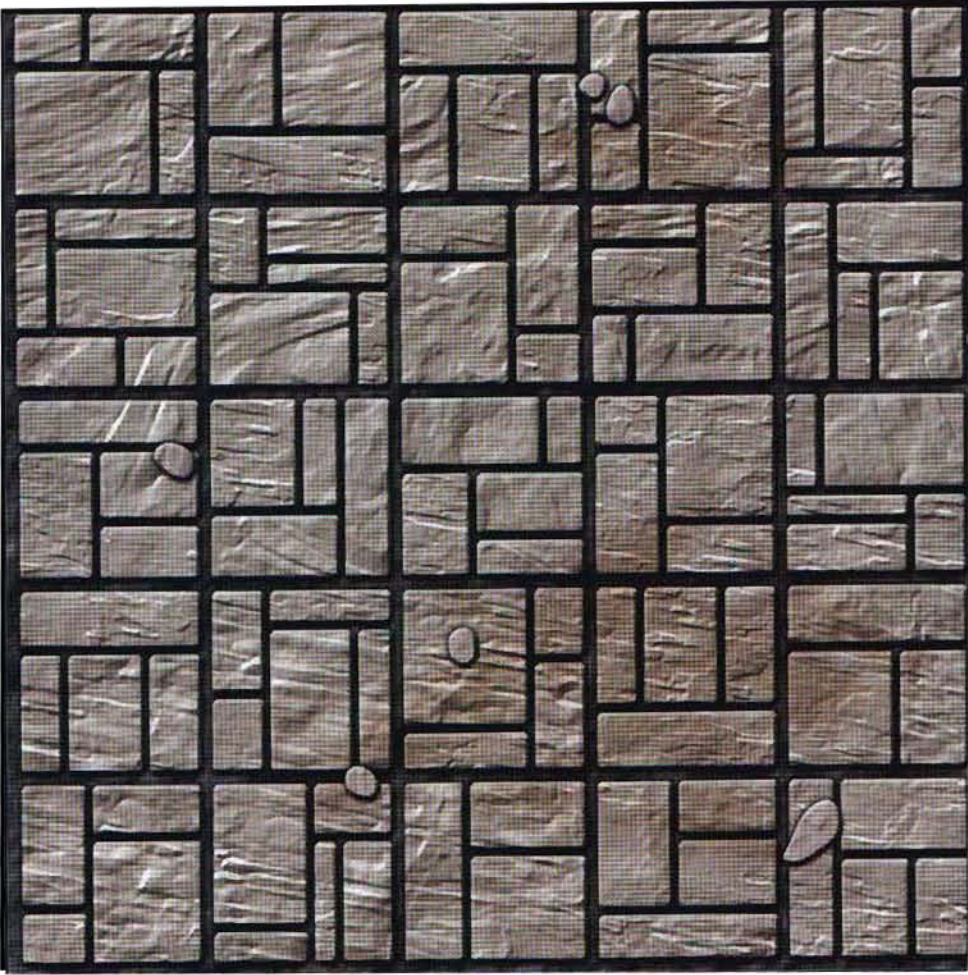

For more creatures, including almost all found on the Summon Monster and Summon Nature's Ally spell lists, look for Counter Collection 5: Summoned Creatures at *your* favorite game store.
