CODEX SPACE MARINES CHAPTER RELIC (+35 POINTS)

The Panoply of the Crusader

Several Space Marine Chapters are fortunate enough to have in their armouries artificer armour of a type that dates to the earliest days of the Great Crusade, adorned with the heraldry of that lost age. Such relics are more than simply peerless examples of the armourer's craft to the Chapters that hold them, they are a tangible link to glories and tragedies that to others are merely myths to be told, and a mantle of sacred duty made manifest.

The Panoply of the Crusader confers a 2+ Armour save and, in addition, the model and any unit they have joined gains the Stubborn and Preferred Enemy (Chaos Space Marines) special rules. The Panoply of the Crusader may not be selected by models equipped with Terminator armour.
