

Additional 'Fame' Rules

If a player rolls a “Y” on the *Fame Chart* (As explained in Chapter ‘8’ of the *Basic Game* book) when attempting to recognize a villain, you can then have the Player roll an Ease Factor ‘5’ Intelligence roll on the “*Points of Information Chart*” below to determine what specific information the Player knows about the villain.

Points of Information Chart:

Quality Rating	Points of Information
F	Name and Occupation
4	Name, Occupation, Organization and one Field of Experience.
3	Name, Occupation, Organization and two Fields of Experience.
2	Name, Occupation, Organization, three Fields of Experience and Skill with highest ‘Skill Level’.
1	Name, Occupation, Organization, three Fields of Experience, top two highest “Skill Level” Skills and one ‘Weakness’.

Note:

- If a Player rolls a Quality Rating '1' on the Intelligence check, the GM can grant bonus Experience Points as well.
- You can also use the *Points of Information Chart* for villains who make successful *Fame Chart* rolls against the Players.
- If a "?" is rolled on the *Fame Chart*, there would be no rolling on the *Points of Information Chart*. All the player will know about a villain on a "?" result is the villains name and occupation.

Enjoy!
