

Selfie Objective

A Convention LARP

By @JoeSondow

Special thanks @BiancaZelda for the help

You are a visitor from planet Gleepzop, researching Earth. You only get credit for each objective if you both take the photo and are in the photo with a human subject. Humans call these “selfies”. Each selfie objective completed increases your final grade in Earth Studies by one point.

Rules

1. Ask and receive permission before taking photos, and also before tweeting photos. Rulebreakers are disqualified.
2. A human subject can only satisfy one objective. Write their name next to the objective to keep track.

Bonus points

For any selfie that scored a point, receive an extra point if you tweet that selfie with the hashtag #SelfieObjective

Objective list
