## Monte Cook - Cypher System Creator

Jeff Montgomery - February 20, 2017 16:35

---

### Rules

You can make content that is compatible with the Cypher System Rulebook by Monte Cook Games. You may use the game terms and power names from that book.

Create; don't copy. You are not allowed to copy large sections of the Cypher System Rulebook. Including small rules references and stats is permissible, for anything larger, refer the reader to the rulebook.

### Settings

You may not use the Numenera, The Strange, or No Thank You, Evil! settings.

You may create content for use with the Gods of the Fall setting. You may refer to and describe locations, creatures, events, NPCs, and similar setting content from Gods of the Fall (although you may not duplicate content from that book). If you do so, you must include the words "Compatible with the Gods of the Fall campaign setting" on your product cover, and "Requires the use of the Gods of the Fall campaign setting from Monte Cook Games" in the product description on DriveThruRPG.

We may allow use of other settings published by Monte Cook Games in the future, but at this time no other settings are available for use.

### Media

Roleplaying game materials only.

No fiction except short vignettes in an RPG work.

No software or comics.

### Art

No art can be used from Monte Cook Games publications. You may use artwork included in art packs available

from Monte Cook Games through the Cypher System Creator program. When using this artwork, you must credit the artist.

For example, the first art kit can be found [here](#).

## Logos and Trade Dress

The Cypher System Creator logo must appear on the cover of your work.

It must be discernible and legible at normal full-screen viewing size, but does not need to be large and should not be the primary logo or title on the cover.

You may not use the trade dress affiliated with the Cypher System Rulebook, other Monte Cook Games titles, or the Monte Cook Games logo or the Cypher System logo.

## Creator Templates

You are encouraged (but not required) to use the template(s) found [here] when creating your work.

Templates can be found for [InDesign](#) and [Word](#).
