

THE SCHOLAR

TACTICIAN

Designed by Kyle Grant

CLASS FEATURES

As a scholar you gain the following class features.

HIT POINTS

Hit Dice. 1d8 per scholar level

Hit Points at 1st Level: 8 + your Constitution modifier

Hit Points at Higher Levels: 1d8 (or 5) + your Constitution modifier per scholar level after 1st

PROFICIENCIES

Armor: Light armor

Weapons: Simple weapons, hand crossbows, heavy crossbows, shortswords

Tools: Any two

Saving Throws: Intelligence

Skills: Choose four from Animal Handling, History, Insight, Investigation, Medicine, Nature, Perception, Performance, Persuasion, Religion, and Survival

EQUIPMENT

You start with the following equipment, in addition to the equipment granted by your background.

- (a) a shortsword, (b) any simple weapon, or (c) any martial weapon (if proficient)
- (a) leather armor or (b) scale armor (if proficient)
- (a) a light crossbow and 20 bolts or (b) any simple weapon
- (a) a scholar's pack or (b) an explorer's pack

Alternatively, you can purchase starting equipment with a starting wealth of 4d4 x 10 gp.

18	+6		Pursuit Feature	9
19	+6		Ability Score Improvement	9
20	+6		True Genius	9

KEEN INTELLECT

At first level, you gain the ability to use your quick wits to your advantage both in and out of combat. You learn gambits that are fueled by special dice called intellect dice. Gambits allow you to bring your mind to bear in order to solve problems, and to create and exploit opportunities that others cannot see.

Gambits. You know all the gambits listed under "Gambits" below, and may learn another at a later level, unique to your Pursuit. Many gambits enhance an attack in some way. You can use only one gambit per attack.

Intellect Dice. You have a number of intellect dice equal to your Intelligence modifier (a minimum of one), which are d8s. An intellect die is expended when you use a gambit, and you regain all expended intellect dice when you finish a long rest.

Saving Throws. Some gambits require your target to make a saving throw to resist its effects. The saving throw DC is calculated as follows:

$$\text{Gambit save DC} = 8 + \text{your proficiency bonus} + \text{your Intelligence modifier}$$

GAMBITS

The gambits are presented in alphabetical order.

Agitating Attack. When you hit a creature with a weapon attack, you can expend one intellect die to attempt to force the creature to lose focus. You add the intellect die to the damage roll and the target must make a Wisdom saving throw. On a failed save, the target has disadvantage on the next Intelligence, Wisdom, or Charisma saving throw it makes before the end of your next turn.

Defensive Posture. You can expend one intellect die and take the Dodge action as a bonus action on your turn. If a creature misses you with an attack before the start of your next turn, you can use your reaction to make a weapon attack against the creature if it is within range, adding the intellect die to the attack roll.

Foiling Strike. When a creature you can see is forced to make a Strength, Dexterity, or Constitution saving throw, you can expend an intellect die and use your reaction to make a weapon attack against the creature if it is within range. If the attack hits, you add the intellect die to the damage roll of the attack, and the target has disadvantage on the saving throw.

Sage Advice. When you or another creature is preparing to take an action that requires an ability check, you can expend an intellect die and use an action to analyze the situation and give advice based on your observations and deductions. Add the number rolled on the intellect die to any creature who can hear and understand you who attempts that action within the next minute, including yourself.

Unsticky the Situation. When you fail a saving throw, you can expend an intellect die and add it to the roll, potentially turning it into a success.

BONUS PROFICIENCIES

When you choose the Tactician pursuit you gain bonus proficiencies. You are proficient in Dexterity saving throws if scholar is your first class.

Additionally, at 1st level you gain proficiency with medium armor, shields, and martial weapons.

PRACTICA

Your studies have exposed you to research and theory on any number of subjects, but applying that knowledge to the real world requires an extra level of dedication.

Beginning at 2nd level, you master three practica of your choice. Your practica options are detailed at the end of the class description. When you gain certain scholar levels, you master new practica of your choice, as shown in the Practica column of the Scholar table.

Additionally, when you gain a level in this class, you can choose one of the practica you know and replace it with another for which you meet the requirements. You cannot replace practica that allow you to learn a language.

FIGHTING STYLE

At 3rd level, you adopt a particular fighting style as your specialty. Choose one of the following options. You can't take a Fighting Style option more than once, even if you later get to choose again.

Archery. You gain a +2 bonus to attack rolls you make with ranged weapons.

Defense. While you are wearing armor, you gain a +1 bonus to AC.

Dueling. When you are wielding a melee weapon in one hand and no other weapons, you gain a +2 bonus to damage rolls with that weapon.

Great Weapon Fighting. When you roll a 1 or 2 on a damage die for an attack you make with a melee weapon that you are wielding with two hands, you can reroll the die and must use the new roll, even if the new roll is a 1 or a 2. The weapon must have the two-handed or versatile property for you to gain this benefit.

Protection. When a creature you can see attacks a target other than you that is within 5 feet of you, you can use your

reaction to impose disadvantage on the attack roll. You must be wielding a shield.

Two-Weapon Fighting. When you engage in two-weapon fighting, you can add your ability modifier to the damage of the second attack.

ABILITY SCORE IMPROVEMENT

When you reach 4th level and again at 8th, 10th, 12th, 16th, and 19th level, you can increase one ability score of your choice by 2, or you can increase two ability scores of your choice by 1. As normal, you can't increase an ability score above 20 using this feature.

BOUNDLESS INTELLECT

Beginning when you reach 5th level, you regain all of your expended intellect dice when you finish a short or long rest.

STUDY FOE

At 6th level, you learn the study foe gambit. You can expend an intellect die as a bonus action to begin studying a creature you can see. You analyze its movements and fighting style in order to avoid its attacks.

For 1 hour, the studied creature has disadvantage on attack rolls that target only you. When the creature attempts to take an action, you can use your reaction to make a weapon attack against it, adding your intellect die to the attack roll. If the attack hits, the creature loses its action for the turn, including any resources it spent as part of the interrupted action, such as a spell slot. Whether you hit or miss, your study foe effect ends immediately.

The study foe effect also ends early if you are incapacitated or if you use this gambit on a different creature.

FIELD RESEARCH

Starting at 7th level, if you spend at least 1 minute observing or interacting with another creature outside of combat, you can learn information about its capabilities. Choose a reference creature of the same type that you have seen, and the DM tells you if the creature you are researching is equal, superior, or inferior to the reference creature in regard to two of the following characteristics of your choice:

- Strength score
- Dexterity score
- Constitution score
- Intelligence score
- Armor Class
- Maximum hit points
- Total class levels (if any)

MOMENT OF GENIUS

Beginning at 9th level, when you use a gambit you can choose to take the highest value on your intellect die instead of rolling. The intellect die is still expended as normal.

Once you use this feature, you cannot do so again until you finish a long rest.

IMPROVED KEEN INTELLECT

At 11th level, your intellect dice turn into d10s. At 17th level, they turn into d12s.

FORCE MULTIPLIER

Beginning at 13th level, you can use an action to enter an observant state that allows you to analyze the battlefield. For the duration, whenever you or an ally that can see and hear you takes the attack action, you can point out an opening, allowing the target to take one additional attack as part of that action. Additionally, on your turn you can use a bonus action to command an ally that can see and hear you to use its reaction to attack a creature within range. Attacks granted by this feature are made with advantage.

The observant state ends after 1 minute, or after you've granted a number of attacks equal to your Intelligence modifier (minimum of 1). Once you use this feature, you can't use it again until you finish a long rest.

CLEAR MIND

Beginning at 14th level, you can use your action to end one effect on yourself that is causing you to be charmed or frightened.

ANALYTICAL MIND

At 15th level, you can apply your Intelligence modifier instead of your Wisdom modifier to Wisdom ability checks and Wisdom saving throws.

TENACIOUS INTELLECT

Starting at 18th level, when you roll initiative and have no intellect dice remaining, you regain one intellect die.

TRUE GENIUS

At 20th level, your dedication to developing your mind has honed you into a true genius. The sum total of your experiences lends you an incisiveness that is unmatched. Your Intelligence score increases by 4 and your maximum Intelligence increases to 24.

PRACTICA

If a practicum has prerequisites, you must meet them to learn it. You can learn the practicum at the same time that you meet its prerequisites. A level prerequisite for a practicum refers to scholar level, not character level.

AGILE EYE

Prerequisite: 7th level, Tactician pursuit

If you are currently studying a creature with the study foe gambit, or if your studied foe drops to 0 hit points, you can use a bonus action to begin studying a different foe without expending an additional intellect die. This does not refresh the 1 hour duration of Study Foe.

ARTIST

You gain proficiency with three tools of your choice. If you are already proficient with one of these tools, you instead add

double your proficiency bonus to ability checks you make to use that tool.

COMBAT ASSESSMENT

Prerequisite: 14th level

You can use a limited form of field research while in combat. As a bonus action on your turn, you can learn one piece of information about an enemy that you can see as per the field research feature. If you can see the reference creature, you can choose current hit points as the characteristic.

CRUEL INTELLECT

Prerequisite: Tactician pursuit

When you roll an intellect die to add to an attack or damage roll, you can reroll the intellect die once, but you must use the second result.

CUNNING AIM

You can use Intelligence instead of Strength for the attack and damage rolls of weapons made with a light weapon, quarterstaff, or unarmed strike. If you are an Inventor, you can also apply this benefit to any ranged weapon invention that you invent.

CRIPPLING BLOW

Prerequisite: 17th level

You know how to turn a perfect strike into a devastating attack. When you roll maximum damage on a weapon's damage dice, double the damage of your attack against the creature.

DEFT IMPROVISER

You gain proficiency with improvised weapons, and half-cover functions as well for you as three-quarters cover.

DELIBERATE STEP

Prerequisite: 5th level

Your movement speed increases by 10 feet, and nonmagical difficult terrain no longer slows your movement.

DOGGED

When exhausted, you suffer the effects as if your level of exhaustion is one lower. You suffer no negative effects from a single level of exhaustion. Additionally, you cannot be stunned.

EXTRA ATTACK

Prerequisite: 5th level

You can attack twice, instead of once, when you take the attack action.

HARDY

Prerequisite: 11th level

You can ignore the effects of poison and disease. If you become poisoned or diseased and this practicum is replaced before the condition is removed, you immediately begin to suffer its effects.

COMPREHENSIVE CARE

You gain proficiency with the Insight and Medicine skills. If you are already proficient with either of these skills, you

instead add double your proficiency bonus to ability checks you make that use that skill.

Additionally, when you make an ability check to determine the physical or psychological state of a creature, if your roll exceeds 20 you have advantage on the next Charisma ability check you make to interact with that creature in the next ten minutes. You gain this benefit whether or not the triggering ability check was considered a success or a failure.

INCISIVE STRIKES

Prerequisite: 11th level

When you hit a creature with a weapon attack, the creature takes extra damage equal to your Intelligence modifier (minimum of 1).

INFALLIBLE EXPERTISE

Prerequisite: 11th level

When you make an ability check that lets you add half your proficiency bonus or your full proficiency bonus, you can treat a d20 roll of 4 or lower as a 5. When you make an ability check that lets you add double your proficiency bonus, you can treat a d20 roll of 9 or lower as a 10.

KINAESTHETICS

You gain proficiency with the Acrobatics and Athletics skills. If you are already proficient with either of these skills, you instead add double your proficiency bonus to ability checks you make that use that skill.

Additionally, when you learn this practicum choose either climbing or swimming. That form of movement no longer costs you extra movement.

LINGUIST

You learn to speak, read, and write three languages of your choice. You may learn this practicum multiple times, selecting different languages each time. This practicum cannot be selected with the Explorer's adaptable feature.

MACHIAVELLIAN

You gain proficiency with the Deception and Intimidation skills. If you are already proficient with either of these skills, you instead add double your proficiency bonus to ability checks you make that use that skill.

Additionally, you have advantage on saving throws made to resist being charmed.

MEASURED ASSAULT

Prerequisite: 14th level, Tactician pursuit

Your force multiplier feature now recharges when you finish a short or long rest, but only allows you to grant a number of extra attacks equal to half your Intelligence modifier (rounded up).

NATURALIST

You gain proficiency with the Animal Handling and Survival skills. If you are already proficient with either of these skills, you instead add double your proficiency bonus to ability checks you make that use that skill. Additionally, you can read the basic mood and intent of beasts. You learn its emotional state, whether it is affected by magic of any sort, its short-term needs (such as food or safety), and actions you can take (if any) to persuade it not to attack. You cannot use

this ability against a creature that you have attacked within the past 10 minutes.

ONE MOVE AHEAD

Prerequisite: 17th level, Incisive Strikes practicum

Once per turn, you can use incisive strikes to add your Intelligence modifier to the attack roll instead of the damage roll when you make a weapon attack. You must choose to use this practicum before making your attack roll.

PSYCHOLOGICAL PROFILE

Prerequisite: 11th level

If you spend at least one minute conversing with a creature or observing it in a social situation, you can analyze its speech and body language to determine how best to interact with it. The DM tells you whether Deception, Intimidation, Performance, or Persuasion is most likely to have a favorable impact on the creature's disposition toward you. For the next hour, you have advantage on checks in that skill directed at the creature. Once you use this feature, you can't use it again until you finish a short or long rest.

RENAISSANCE MAN

You gain proficiency with one type of artisan's tools and one instrument or gaming set of your choice. You learn to speak, read, and write one language of your choice. You may learn this practicum multiple times, selecting different options each time. This practicum cannot be selected with the Explorer's adaptable feature.

RHETORIC

You gain proficiency with the Performance and Persuasion skills. If you are already proficient with either of these skills, you instead add double your proficiency bonus to ability checks you make that use that skill.

Additionally, if spend at least ten minutes speaking or performing, allies of your choice (up to twice your Intelligence modifier) gain a d6 which they can add to the next ability check, attack roll, or saving throw they make. A creature can only benefit from this ability once per short rest.

SCHOLASTICS

You gain proficiency with two of the following skills of your choice: Arcana, History, Nature, and Religion. If you are already proficient with either of these skills, you instead add double your proficiency bonus to ability checks you make that use that skill.

Additionally, if you fail an ability check that uses one of your chosen skills, you can make the check once more during your next short or long rest.

You can learn this practicum twice, selecting different skills each time.

SPATIAL AWARENESS

You gain proficiency with the Perception and Investigation skills. If you are already proficient with either of these skills, you instead add double your proficiency bonus to ability checks you make that use that skill.

Additionally, you can perfectly recall any path you have traveled since learning this practicum.

TACTICAL RETREAT

Prerequisite: 5th level, Tactician pursuit

You can take the Disengage action as a bonus action on your turn. When you do so, any creature you target with a weapon attack on the same turn is unable to make opportunity attacks until the start of its next turn, and allies within reach of a creature affected in this way can immediately use their reaction to move up to half their speed.

TRADECRAFT

You gain proficiency with the Sleight of Hand and Stealth skills. If you are already proficient with either of these skills, you instead add double your proficiency bonus to ability checks you make that use that skill.

Additionally, you gain proficiency with thieves' tools.

TRAIL MEDICINE

As an action, you can expend one charge of healer's kit or one treatment point from your medicine kit to grant a willing creature temporary hit points equal to your scholar level. Once a creature has gained temporary hit points from this feature, it cannot do so again until it finishes a long rest.

UNIVERSAL LINGUISTICS

Prerequisite: 14th level

You can communicate and understand simple ideas and concepts when speaking to creatures that have an Intelligence score of 7 or higher, even if you do not share a language. You can also glean basic information from written samples of languages that you do not know. The DM may have you roll an Intelligence check if you attempt to read, communicate, or understand more complex ideas in an unknown language. At the DM's discretion, failure may result in misinterpretation.

VIGILANT

Prerequisite: 7th level

You add your Intelligence modifier to your initiative rolls, and your passive Perception score gains a bonus equal to your Intelligence modifier for the purposes of determining whether or not you are surprised.
