Introduction

Forest of Fairies is a fantasy adventure designed to be played in a few sessions with four or more players of any level. This story will take adventurers on a fight against a huge tentacled monster in the middle of the sea, to find a mysterious unknown island, save a couple of fairy villages and return them to their magical forest so they can live again in peace, defeating a demon that has settled in the forest.

The story of this adventure is inspired by several fantasy movies that I have seen. I wanted to give it an epic touch in the style of Ghibli movies. I like how this kind of movies start out as a normal story and quickly escalate into adventures of epic proportions.

So far, this is the longest and most complicated adventure I have ever published. It contains many Non-player characters and many monsters. Also, I decided to make the adventure suitable for player

characters of all levels, that's why there are more pages of monster statistics than the adventure itself.

That's something I want to fix for my next adventures, making the adventure for all game levels without taking up as much space in just combat stats. But of course without sacrificing combat, which for me is still the most fun and important part of this game.

The names of the NPCs suggest part of their backstory, as I was writing them I came up with even more ideas to add to the adventure, but if it continued like this it would never end, so I wrote them down for later adventures. So I might use these characters, or at least their personality in future works.

It took me a lot longer to finish this adventure than I originally planned, but it was a lot of fun, and I hope you have as much fun playing it.

How to use this Adventure

his adventure uses terms and game mechanics created for the *Witchcraft: Magic of Hereva* supplement. In that supplement you can find rules to create characters from the class Witch of Hereva, inspired by the

Pepper&Carrot comic web by David Revoy. To use this adventure you will need that supplement.

Also, it would be a good idea to read the comics get acquainted with the world. The comics are freely available on its official website:

peppercarrot.com.

In addition to this supplement you will also need a copy of the *Systems Reference Document* (SRD) for 5th Edition. Optionally, you can use the basic *Dungeons & Dragons* books (property of Wizards of the Coast), or any other rulebook that is compatible with the 5th edition SRD.

Scalable adventures

This adventure is scalable, that means that you can play it as part of your campaign, no matter what level your players are. What this system tries to achieve here is make the adventure change a little in different tiers, so the adventure doesn't feel weird when you play it in a level different to what it was written for.

The Goal

The main goal of scalable adventures is that they can be played by characters of any level, without the need for the Game Master to spend a lot of time modifying them.

What's special about it?

Scalable adventures not only change the CR of each monster or each encounter, but encounters can be different to adapt to the level of epic of a campaign of a certain level. The result of the players actions also could change depending on the level in which the adventure is played, there are even parts of the adventure that only work at some levels.

How does it work?

First of all, for this system the adventure tiers are divided into 6, each tier represents a range of levels:

- Tier 1: levels 1-3
- Tier 2: levels 4-6
- Tier 3: levels 7-10
- Tier 4: levels 11-14
- Tier 5: levels 15-18
- Tier 6: levels 19+

Points to consider

- Characters level at the beginning of the adventure indicates the tier in which this is going to be played.
- If during the adventure, the adventurers level up and that makes them change tier, the adventure does not change tier, it continues at the level where they started.
- Level tiers are just guidelines and you as a GM could decide better what tier your players are better fit for.

Some sections of the adventure may have a minimum level tier restriction. However, if a section appears with the same name more than once with different tiers, take only the first one in the order in which they appear in the book, and only those that are relevant to your campaign level.

For example: Imagine these four sections in a chapter:

- Call to adventure (Tier 5)
- Call to adventure
- Hero's refusal (Tier 6)
- Point of no return

Now imagine you are playing a level 7 (Tier 3) campaign: Here you will skip **Call to adventure (Tier 5)**, because it's a higher level than your adventure. Then you play **Call to adventure**, since it doesn't have level requirement, then you skip **Hero's refusal (Tier 6)** and you play **Point of no return**.

But if you were playing a level 19 (Tier 6) campaign: You will play **Call to adventure (Tier 5)**, then you will skip **Call to adventure** because you

already played a section with the same name, you'll play **Hero's refusal (Tier 6)**, and **Point of no return**.

Encounters by tier

When you see a table like this:

Tier	Encounter
1	Monster/NPC names
2	Monster/NPC names
3	Monster/NPC names
4	Monster/NPC names
5	Monster/NPC names
6	Monster/NPC names

That's the list of monsters or NPCs that are encountered during the adventure, mostly during battles. The monsters or NPC mentioned on those tables are either at the end of this document, in the Appendix I, or in the 5th edition SRD.

Some times, NPCs have only one encounter for any level, but Monsters almost always will have one variant for each tier.

Before you start

Please, before you start preparing your game, read this background and synopsis, these are meant to be read fast, so you can get a good idea of what this adventure is all about.

This will make way easier to understand the rest of the document and will help you make decisions on how to prepare your game.

Background

The Forest of Fairies is a magical forest in the world of Hereva. Two fairy populations live in this forest, one of them is Lilyheart, the village of the Sprites, where Princess Drally rules. The other is Storm Lagoon, a village built under the water of the lagoon of the same name, it's ruled by General Leuconohre.

In the forest there is the magical Crystalthorns Tree that grants magic powers to fairies, in addition to making them everliving. It was planted by an ancient civilization near one of its temples which was built several thousand years ago.

Fairies have lived in this forest for hundreds of years, but what they don't know is that long before them a giant dinosaur-like creature (like a brontosaurus) named Pamud, came to sleep in this forest. The creature is so large that the temple was covered by its body and the forest grew on it, and there is where Lilyheart and Storm Lagoon were built.

One day, Pamud, got up and separated from the rest of the forest, now it finds itself swimming in the middle of the sea. The two fairy villages got

trapped on this living island, and away from their Crystalthorns Tree.

Synopsis

The adventure begins in a merchant port where it is said that some ships that sailed from there have disappeared. A rich sailor approaches the adventurers to ask them to accompany him on a journey to protect his cargo in the event of pirates or monsters.

On the journey, a tentacled monster attacks them and destroys the ship, but luckily they find an island they didn't know was there. On the island they find the two fairy towns who are at odds because each one is seeking to save their people in their own way, regardless of what happens to the other.

After surviving some monster attacks, they will discover that a much larger monster has been chasing Pamud, the floating island, and wants to kill him. Adventurers will have to awaken the unconscious swimming creature for it to defend itself.

The adventurers will learn that the Forest of Fairies has been haunted by a demon known as the Ancient Terror, which made Pamud flee. With the help of a couple of Witches, the adventurers will have the mission to return to the forest and overcome various difficulties to defeat the demon and return everything to normal.

Chapter 1:

The Travel

Concerns at the Port

Players begin their adventure in a port where they embark on a travel to another city. Any port that is a center of commerce in the world where you are playing your campaign will work.

In the last weeks, some of the ships that leave this port don't reach their destination, and many sailors are worried about their own safety. A rich merchant sailor, Captain Oakenwell, approaches the players, he wants to hire them to protect his ship and its cargo in case pirates are attacking the ships, but also in case it is something worse like a sea monster.

Captain Oakenwell

- Captain of *The Irresistible*, the ship in which they will start the adventure.
- He is concerned about possible attacks on ships, but eager to set sail as soon as possible, because he is very worry about his business.

- The captain has a lot of money in business and his cargo is very important to him, so he offers a monetary reward set by you (the GM) depending on your world's currency and the level of the adventurers.
- Captain Oakenwell will arrange the deal with a written contract. He will have all player characters and himself sign the contract.
- With the contract signed, the captain will order his crew to load the cargo. The one in charge of the loading is Tallis Nebula, AKA the 'Ruthless', the second in command on *The Irresistible*.

The ship will set sail as soon as the players are ready, it can be at that same moment or the next day (in case the players need to take a long break after their previous adventure).

Stats for both characters are [Captain Oakenwell](#) and [Tallis Nebula](#), at any adventure tier.

Danger in the sea

In general the trip and the sea are very calm, the first day of travel passes without a hitch. But still, the captain looks very nervous and don't want to be caught off guard.

Captain Oakenwell: Everything looks very calm, but we cannot let our guard down. We still don't know what attacked the other ships, it's better to be alert and not be caught by surprise.

On the morning of the second day is when the tentacle monster attacks. If the adventurers slept in their cabins, then they will be awakened by the violent movement and noises of the ship.

They can hear the noise of the wood breaking, two of the tentacles surround the entire ship, four of them are attacking the crew. The captain and crew ask the adventurers to go out and fight the monster.

The encounter

The encounter is against four tentacles, each one count as a separate monster in the game. But the tentacles are part of a much bigger and stronger monster that adventurers will find later in this adventure.

Adventurers don't need to win this encounter, but even if they do, the ship will end up being ripped apart by the monster. You can modify the number of tentacles depending on the level of the player characters. Still, the tentacles are presented in the 6 different adventure tiers in the Monsters appendix at the end of this document.

At one point during the fight, one of the sailors climbs to the top of the main mast to look for something that can help them and he finds an island. That island is not supposed to be there, so many sailors do not want to sail there, but the navigator is heading towards it anyways.

Before arriving, the monster will have destroyed the ship, but most sailors will be able to easily swim to the beach if the adventurers defeat the monster.

Tier	Encounter
1	4x Titan's Bane Tentacle
2	4x Titan's Bane Great Tentacle
3	4x Titan's Bane Crushing Tentacle
4	4x Titan's Bane Toxic Tentacle
5	4x Titan's Bane Pernicious Tentacle
6	4x Titan's Bane Annihilator Tentacle

A Mysterious Island

he ship ends up sinking and the adventurers arrive at an island that is inhabited by two types of fairies, the sprites and the nixies. Both clans fight to take the island to where each clan needs it.

The first sailors to arrive on the beach before the players, and they are attacked by nixies. The nixies at this point are hidden in the jungle and cannot be seen. When sailors are attacked, they quickly flee into the sea. From the water they see an entrance to a cave and decide to go there to take shelter.

The cave extends for several meters until reaching a fork, at which point there is an altar with various objects, which are stained with blood. On the wall there are some patterned blankets and a text in the undercommon language that says "Come to us big fish."

From that point it is clear that the path to the east leads to the jungle from where they were attacked when they arrived. The other path leads to a forest in the west part of the island.

From here the adventure is very open. Players might want to head to the place where they were attacked to try to speak to the locals, or to attack them.

Any attempt to speak to any of the clans of fairies will be accepted and will lead the players to have a conversation with them about the situation they live in. The fairies will expose the situation from their point of view, trying to get the adventurers to be on their side of the fight, and they will be offended if they don't.

Depending on the players decisions the adventure continues in one of the following

chapters. It is advisable to read all the following chapters before running this adventure for the first time, albeit quickly to find out what awaits for the adventurers.

If the adventurers decide to go to investigate the jungle in the part where they arrived, go to the chapter "Nixies' Refuge". If they decide to explore the cave, or go around the island, go to the chapter "The village of the Pixies".

Nixie Scouting Band

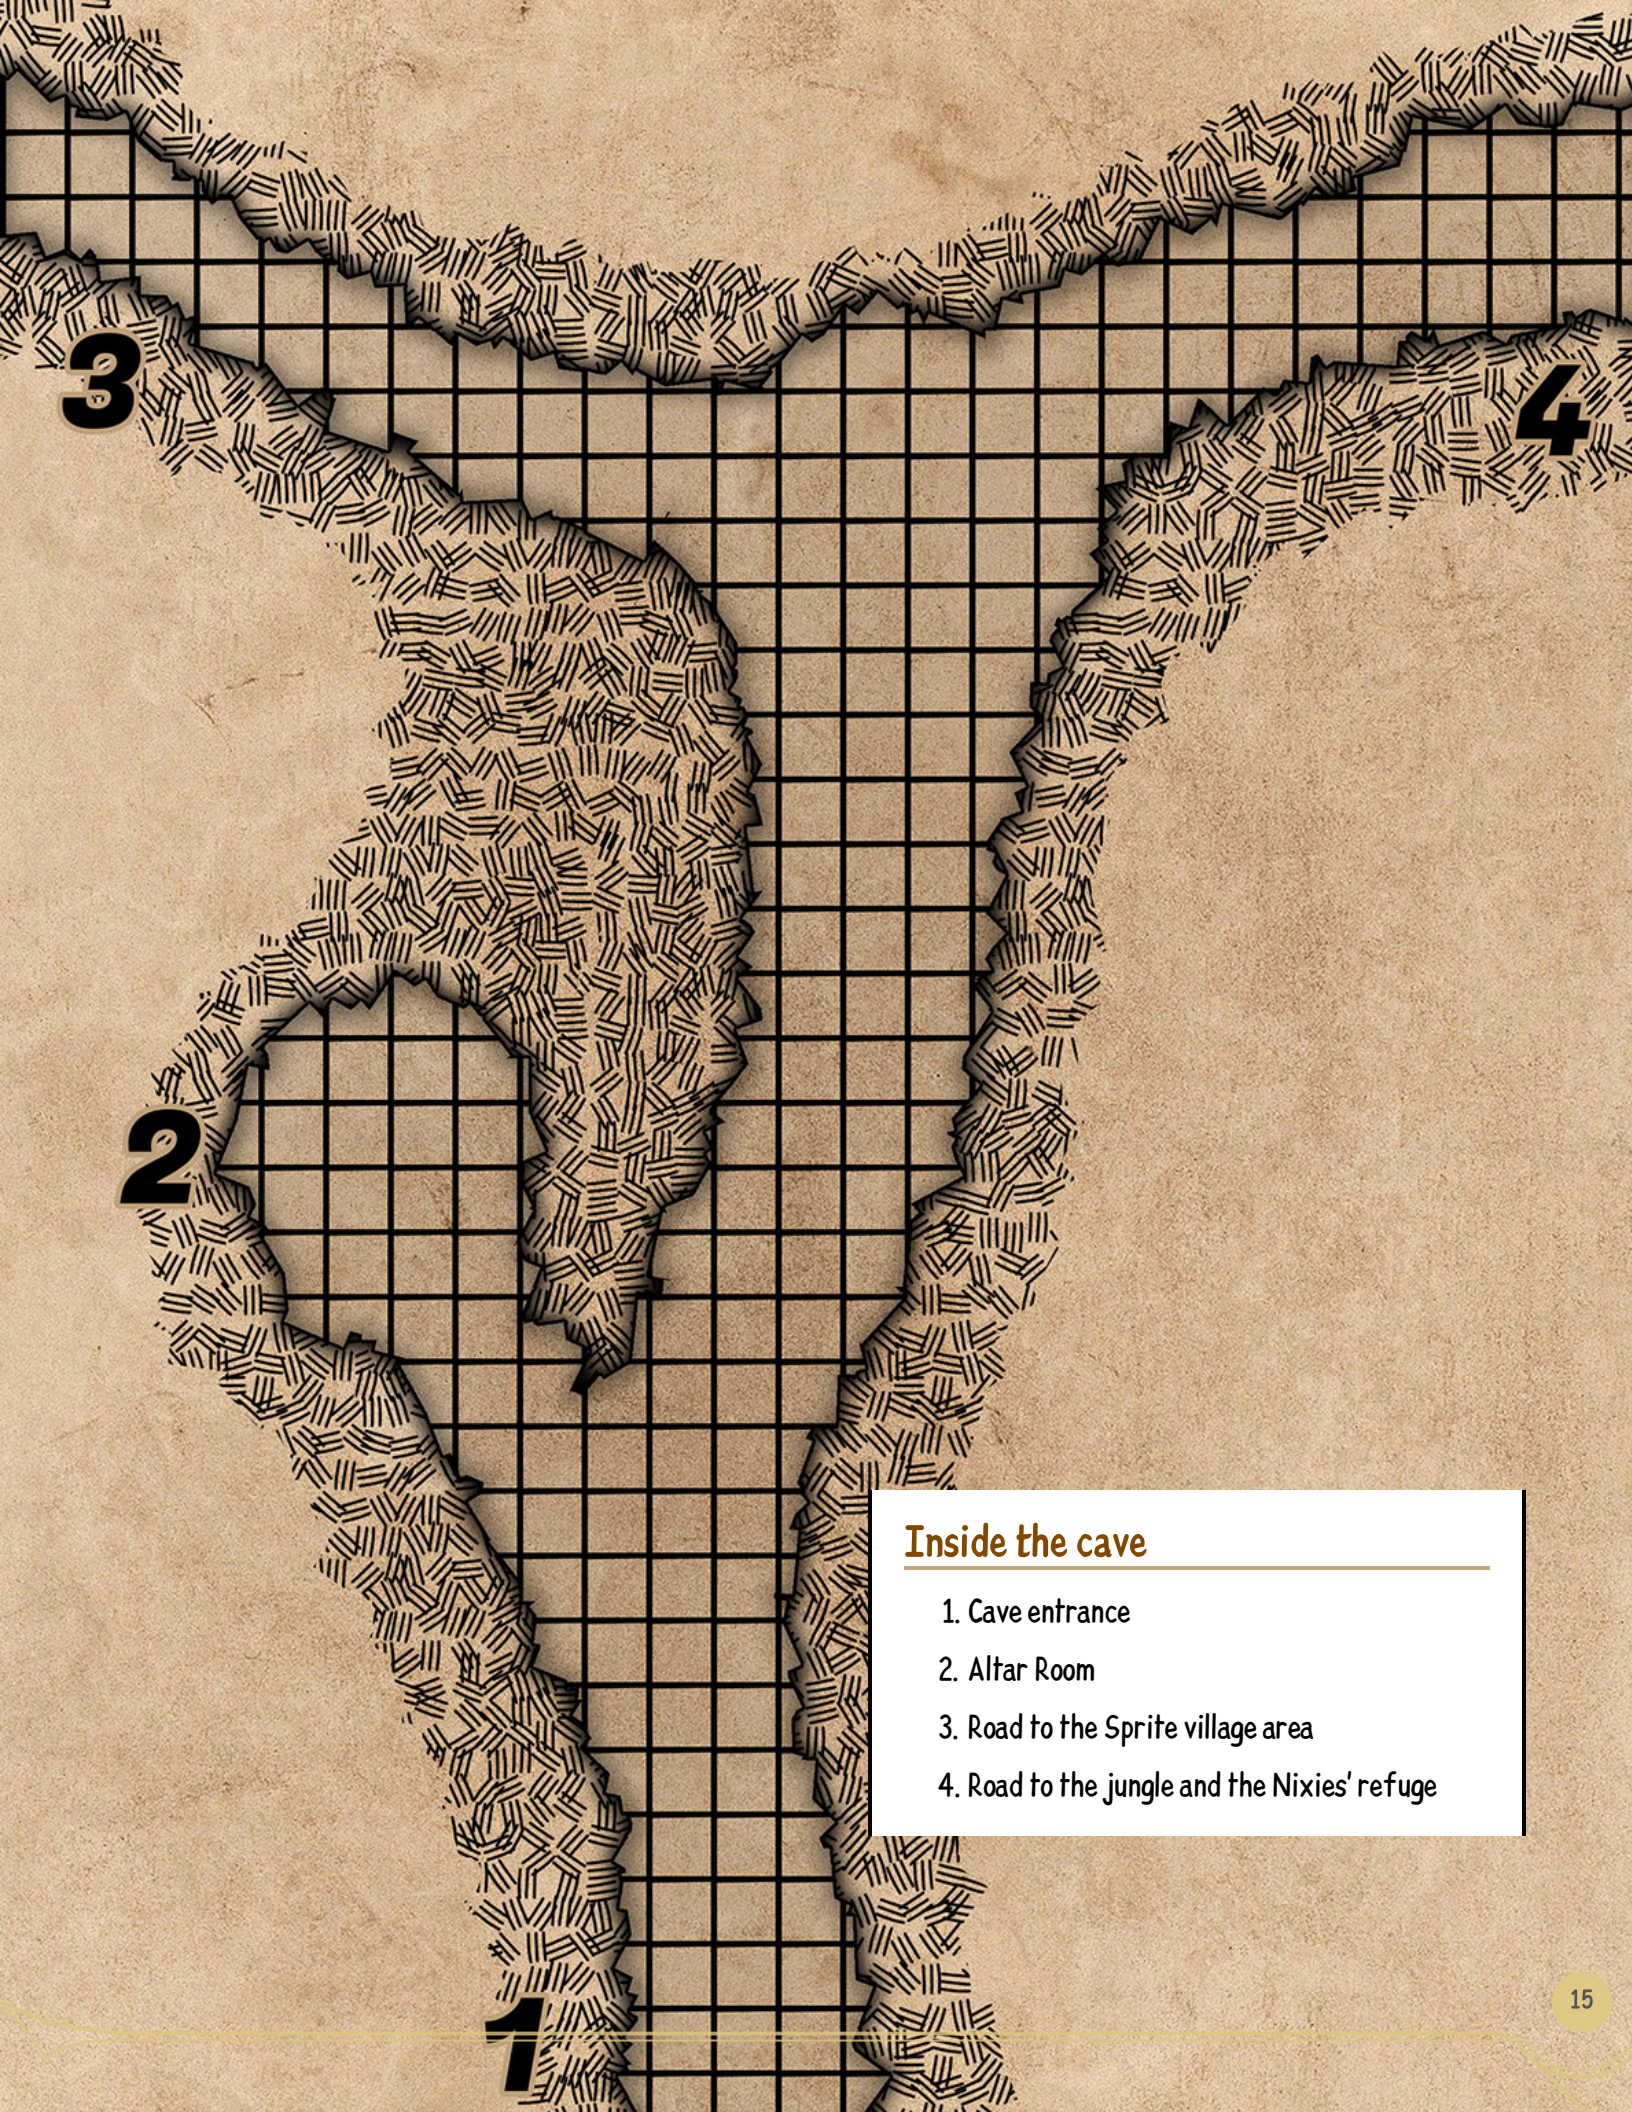

These are the stats for the nixies hidden in the jungle when the players and the sailors arrive to the coast.

Tier	Encounter
1	6x Nixie
2	8x Nixie, 1x Nixie Shaman
3	10x Nixie, 3x Nixie Shaman
4	8x Nixie Scout, 3x Nixie Shaman, 1x Nixie Warlock
5	8x Nixie Scout, 3x Nixie Shaman, 1x Nixie Warlock
6	15x Nixie Scout, 5x Nixie Shaman, 2x Nixie Warlock

Pamud, the Living Island

1. Cave entrance
2. Entrance to the heart of the island
3. Sprite village area
4. Nixies' refuge

Inside the cave

1. Cave entrance
2. Altar Room
3. Road to the Sprite village area
4. Road to the jungle and the Nixies' refuge

1. Cave entrance

Adventurers will enter the cave from here, this is a cave exit that is at sea level. Adventurers arrive on the island early in the morning, and the sea water enters the cave only a little. At night the water completely floods the cave, so the entire path is wet all the time.

2. Altar Room

In this room there is an altar made of various sea objects such as shells and corals. Above it there is a cloth banner with the image of a huge fish and a text in Sylvan that says "come to us great fish."

3. Road to the Sprite village area

This path leads to the forest that is in the western part of the island. This is the area where the Sprite Village is. This forest is quite calm, so if the adventurers take this path they will hear the noise of the beach on the other side.

4. Road to the jungle and the Nixies' refuge

This path leads to the same jungle where the adventurers and sailors arrived, inside that jungle is the refuge of the nixies. The jungle is full of life and the sounds of birds, monkeys, and other animals can be heard. It is also full of dangers for low level adventurers such as snakes and big felines, among other predators.

Chapter 2:

The Living Island

The village of the Sprites

ilyheart is a village inhabited by Sprites, they have lived in the Forest of Fairies for over a thousand years. One day they noticed that their village was floating on an island and they don't know how to get back home. Their

plan is to invoke the great bird, Crystal Phoenix, to come for them and take them back.

Lilyheart

Lilyheart is the village is located in the western part of the island, it is made up of many trees that have small houses where these flying creatures live. At night the place is illuminated from all the houses forming allegorical figures such as birds, butterflies and flowers, the construction of the villa was planned in this way.

Thousands of sprites live in the village, as they get closer, players can hear the buzzing of their wings, like insects. When the adventurers arrive, many of these fairies will come out of their houses to observe them and it will look like a large swarm of fairies covering the entire forest. Despite what you might think, each and every one of these creatures know and appreciate each other.

So there is a guard to protect the village and all sprites suffer whenever they loss of one of them.

The Ancient Crystalthorn Tree

Fairies take their magical power from the Crystalthorn Tree, which also gives them eternal life, so if they do not return home they will begin to

perish, not only because of old age, but because their healing powers have decreased greatly and lately they are in war with the Nixies, with whom they previously lived in peace. Due to these confrontations Sprites have already started losing lives and it is urgent to invoke the great bird.

Princess Drally

Drally is the princess of the village of sprites, she's is kind and brave. If the adventurers come to the village in peace, she will offer them help, especially if they really look shipwrecked. Once she has made friends with them she will ask them for help at the battle against the Nixies.

Princess Drally: We can't wait no more, we need to return to the forest of fairies, near our beloved tree. But the Nixies wont allow us to complete the ritual. Nor can we allow the Nixies to finish their ritual that will cause the island to sink.

In case the adventurers get to fight alongside the nixies, she will repeatedly mention that the nixies are using them.

Lilyheart Guard

Princess Drally is the leader of the Lilyheart Guard and ruler of the village. The guard is made up of countless sprites in different ranks. Their main enemies right now are the Nixie, that's why they are prepared to fight against bigger creatures. Some groups of Sprites carry nets to catch creatures on an area 5×5.

Princess Drally's statistics depending on the adventure tier.

Tier	Encounter
1	Princess Drally, the Noble
2	Princess Drally, Defender of the Sprites
3	Princess Drally, Lady of the Forest
4	Princess Drally, Lady of Dreams
5	Princess Drally, Sage of Peace
6	Princess Drally, Elder of the Sun

Stargazer, the priest

Stargazer is a male Sprite who is Drally's right hand man and the village priest. It is highly respected by all the inhabitants of the village, as he is one of the oldest Sprites ever seen. Stargazer is more cautious than Drally and will ensure that adventurers are always monitored by village warriors.

Stargazer: Nixies have lived peacefully with us for hundreds of years; in this new world we live in we cannot trust anyone.

The stats for Stargazer, the Priest depend on the level of the adventure.

Tier	Encounter
1	Stargazer, the Priest
2	Stargazer, Paladin of the Living
3	Stargazer, Apostle of Spirits
4	Stargazer, Saint of the Forest
5	Stargazer, Walker of Dreams
6	Stargazer, Councilor of the Realms

Alexa Olivewax

One of the warriors of the village, she is the one who follows the adventurers at all times keeping a close eye on them by order of Stargazer.

Alexa: My job is to make you feel welcome during your stay in our village, especially if you decide to help us in our conflict. Just do me a favor, don't destroy anything, be careful where you step and where you sit. What, crush a fairy? You couldn't even catch one if you tried. But our houses and furniture don't move so fast.

Tier	Encounter
1	Alexa Olivewax, the Soldier
2	Alexa Olivewax, the Brave
3	Alexa Olivewax, Bane of the Evil
4	Alexa Olivewax, One with the Forest
5	Alexa Olivewax, Knight of Rebirth
6	Alexa Olivewax, Paladin of the Realms

The Scaled Monster

he Crystal Ritual is the way the Sprites have to summon the great bird, Crystal Phoenix that will take them back to their forest. To carry out the ritual, Drally must take the remaining crystal thorns and enter the cave in the middle of the island

and perform the ritual. In the process, the last crystal thorns will be lost, so it cannot fail.

On their previous try, a scaled monster appeared and attacked Drally and Lilyheart's guard, thus disrupting the ritual.

The night the adventurers arrive at the village, the monster will attack the village attracted by the magic of the crystal thorns. The monster is a huge creature with a shape reminiscent of that of a pangolin.

Tier Encounter

1	Dire Pangolin
2	Scaled Beast
3	Scaled Behemoth
4	1x Scaled Behemoth, 1x Taintsnake, the mana seeker
5	1x Scaled Beast, 1x Scaled Behemoth, 1x Taintsnake, the mana seeker
6	3x Dire Pangolin, 1x Scaled Beast, 1x Scaled Behemoth, 1x Taintsnake, the mana seeker

Attack of the Scaled Monster (tier 4)

The scaled monster that attacked the sprites is not only drawn to the magic of the crystal thorns, but

is used by Taintsnake, the mana seeker, to find them. Taintsnake was trapped on the island too when it separated from the Forest of Fairies. He came to the forest seeking the magic of the Crystal Thorns Tree to take its power. Now that conditions have changed, he just wants to get the last of the crystal spines so he can cast a spell that takes him off the island.

Taintsnake is completely evil and will try to kill Drally to get the thorns. During the night, he causes an earthquake in the area to create a riot before attacking. Realizing out that there are adventurers he had not taken into account, Taintsnake sends his beast(s) to attack them.

Stats for Taintsnake are the *Behemoth Rider*.

Attack of the Scaled Monster

The beast is attracted by sources of magic, which it devours to become bigger and stronger. It was created by a god who hates magic and the only goal of creatures of its kind is to eradicate magic from the place.

When he was attracted to the Crystal Thorns Tree he was trapped on the island. The beast has no alignment, but has no hesitation on attacking, biting, killing, and destroying everything in its path to find the source of magic. If it does manage to find the thorns, it will swallow them down and grow in size, after which the monster will continue to search for new sources of magic in other parts of the world, although at this time it can't leave the island right now.

Nixies' Refuge

When Pamud, the Living Island moved away from the forest of fairies, Storm Lagoon, a magical lagoon where the Nixies lived disappeared. Now not only do they not have access to the fresh water where they had lived for hundreds of years, they also have nowhere to return to, and their only hope is that Thessashell, the great fish, will come for them to take them to a magical river or lagoon where they can live again.

The nixies have made small ponds with rain water where they have gathered, they have also built a few houses and fences on the surface to protect themselves during the night. Since the day the island was separated from the Forest of Fairies, noises have been heard at night and they fear that there may be monsters, so they keep a close watch on the corners of the refuge.

General Leuconohre

The leader of the Nixies village is a bit aggressive in his behavior. Since the adventurers arrive, if they arrive in peace, they treat them in a suspicious before finding out if they really come with good intentions or not. They ask them if they are spies of the Sprites, and in the end they ask them to help them face them, making it clear that if they do not they will consider it an offense to their people who have already given them their hospitality.

General Leuconohre's statistics depending on the adventure tier:

Tier	Encounter
1	General Leuconohre
2	Leuconohre, Waterfist
3	Leuconohre, Streamweaver
4	Leuconohre, Rain Walker
5	Leuconohre, Jungle Conqueror
6	Leuconohre, Tempest King

General Leuconohre: Our only chance of survival is for the big fish to come for us. It must be done before the fairies lift the island out of the clouds and we can never see the lagoon again.

Aeden of the Shark

Aeden is one of the warriors of Carcatou, to whom he has great confidence. He is also the leader of the village scout group and his work is doing rounds of exploration in the jungle and forest to alert in case the Sprites want to do their ritual to call the big bird. He was among the scouting party that found the adventurers on the beach.

Aeden: *There are many more dangers in the jungle now that we are not in the Storm Lagoon. What was once family land for us, now haunts us and could end us.*

Statistics for Aeden depending on the tier of the adventure:

Tier	Encounter
1	Aeden of the Shark
2	Aeden of the Thunder
3	Aeden of the Storm
4	Aeden of the Deep
5	Aeden of the Leviathan
6	Aeden of the Dark One

Dahlia Spark

She's the sorceress of the Nixies clan, her specialty are electricity spells. She wears a different kind of outfit than the others. She has not lived all her life in the Storm Lagoon, she usually travels to other parts of the world looking

for more magical knowledge. Dahlia has a terrifying appearance, her skin is white unlike that of others that is green. She tends to make bad jokes to see how people react.

Dahlia: How about we sacrifice intruders to please the big fish? Yes, I know it doesn't work that way, but it would be fun.

Tier	Encounter
1	Dahlia Spark
2	Dahlia, Lightning Caller
3	Dahlia, Storm Tamer
4	Dahlia, who faced the Titans
5	Dahlia, who defeated the Thunder
6	Dahlia, from her Remains

Winged Beast

he fight between the two types of fairies has led the Nixies to think that the Sprites are chasing them, they know the Sprites want to summon a great bird, and their scouts have heard fluttering noises coming from the jungle at night.

Some scouts have managed to see it and say that it is a large bird with a large beak and that it looks dangerous.

The Nixies think that the Pixies sent the winged beast to finish them off so they can summon the great bird and take the island to heaven.

The encounter

Depending on the tier of the adventure, the enemies in this encounter will be:

Tier	Encounter
1	1x Dire Axe Beak
2	1x Fiend Beak
3	2x Dire Axe Beak, 1x Fiend Beak
4	2x Dire Axe Beak, 1x Fiend Beak, 1x Feather Shaman
5	4x Dire Axe Beak, 2x Fiend Beak, 1x Feather Shaman
6	4x Dire Axe Beak, 2x Fiend Beak, 1x Feather Demon

Attack of the winged beast (tier 4)

The day after the adventurers arrive, the exploration party leaves the refuge. Regardless of whether the adventurers decided to join the scouting party, Shun'ghe, Warlock of the Feathers, attacks the village. His goal is to get the Gem of the Beasts found in the silver chest in the middle of the shelter.

Shun'ghe takes advantage of the fact that several of the nixie warriors are outside to infiltrate disguised as a nixie. However, Shun'ghe is discovered by one of the Nixie guards and the combat begins.

Attack of the winged beast

The winged beast got trapped on the island when it separated from the fairy forest, and it has been prowling the area in search of something to eat. Nixies seem to be especially delicious to these type of birds and that's why the beast attacks. Coincidentally, the winged beast will attack approximately an hour after the exploring team leaves the shelter.

Sage, the Old Witch

After any of the monsters attack (whichever happened in the adventure), Pamud, the Living Island is attacked by a monster so large that it compares to the island. Then the village leaders decide to head to the heart of the forest at

that time, to speak to it. Both clans make a truce to enter and form a group to enter the cave, this group includes the adventurers, and the leaders of both clans.

At the entrance to the cave there's a mysterious witch who's name is Sage. She has lived on the back of Pamud, the Living Island, for thousands of years and knows him very well. She also knows the current situation and explains to the adventurers that a greater evil drove Pamud away from the Forest of Fairies.

Sage: Pamud, the living Island has been asleep for more than a thousand years. It unconsciously flees from the ancient terror. But the monster attacking Pamud now could destroy it if it's not awoken. This stone is the one that will awaken Pamud, but you need to reach its heart.

Sage gives the group a magical stone with the shape of a green heart, with which they can awake Pamud's heart. Along the way they will encounter various obstacles and at the end they will be able to awaken Pamud's heart. Once they do that, the living island will defend itself against the monster of tentacles.

Sage is an old Witch of Ah, and she offers to heal the party before they start their incursion to the heart of Pamud.

To the heart of Pamud

To the Heart of Pamud

This is a description of what adventurers will find in their way to the heart of Pamud.

1. Cave entrance

This is where the adventurers enter.

2. Bone Statues

On the walls of this room are placed several statues made of bones of various types. When the adventurers reach the middle of the room, the bones start moving and attack.

Tier	Encounter
1	2x Skeleton
2	4x Skeleton
3	4x Skeleton, 2x Minotaur Skeleton
4	4x Skeleton, 4x Minotaur Skeleton
5	4x Skeleton, 4x Minotaur Skeleton, 1x Flameskull
6	6x Skeleton, 6x Minotaur Skeleton, 1x Flameskull

3. Dark Room

This room is darker than the rest, in addition, non-magic light doesn't work in here. Magic light has half its normal range. Some fiends hide in the dark and are prepared to attack as soon as the adventurers approach.

Tier	Encounter
1	1x Imp
2	2x Imp
3	2x Hell Hound
4	1x Hell Hound, 1x Night Hag
5	2x Hell Hound, 1x Night Hag
6	3x Hell Hound, 1x Night Hag

4. Insects room

This room has a very unpleasant smell, when the adventurers come closer they can see many insects covering the walls and the floor.

Tier	Encounter
1	Swarm of Insects (Wasps)
2	3x Swarm of Insects (Wasps)
3	6x Swarm of Insects (Wasps), 1x Swarm of Poisonous Snakes
4	6x Swarm of Insects (Wasps), 2x Swarm of Poisonous Snakes
5	6x Swarm of Insects (Wasps), 5x Swarm of Poisonous Snakes
6	6x Swarm of Insects (Wasps), 6x Swarm of Poisonous Snakes

5. Quicksands

In this area the floor seems normal, but when you put a foot on it, it begins to sink into quicksand. Characters need to make a DC 15 Dexterity save or get trapped in the quicksands. They can get out with the help of others or using ropes and grappling hooks.

6. The Big Undead

A huge undead is located in this room and will attack adventurers as soon as it sees them passing by.

7. The Heart of Pamud

In this room they will find a huge heart made of stone that has a slot the size of the magic stone the witch gave them. When they insert the stone, the cave will change its appearance, the walls will be covered with plants and the remains of the monsters will disappear.

Pamud will communicate with them, he will tell them that he wants to return to the forest of fairies, but he cannot defeat the Ancient Terror without damaging the rest of the forest and the creatures that live in it.

Then the adventurers (and Sage and the leaders of the fairy leaders) will have to convince Pamud to return to the Forest of Fairies, but to do so, they will need to promise to destroy the Ancient Terror found in the forest.

Titan's Bane

Titan's Bane is a monster that kills monsters, it started chasing Pamud when it saw it in the open sea. It is a monster with tentacles that comes from the deep sea and its size is as big as the island itself.

There are no stats for this monster because it's supposed to be too big and strong for any character in this adventure to defeat, except Pamud.

Chapter 3:

The Magic Forest

The Witch of the Masks

The Ancient Terror settled in the crystal sanctuary, a construction of an ancient civilization that is located near the Crystalthorns Tree. Pamud cannot simply return to the fairy forest and attack this demon, because it is so large that it would destroy the sanctuary and the tree. The only way to defeat the demon is to get to the room where he is and kill him. But to achieve this, adventurers will need the help of another witch.

Returning to the Forest of Fairies, characters find out that it's becoming darker and more sinister. The Ancient Terror is turning the forest into a swamp. Knowing that, Drally takes the adventurers to the Witch of the Masks, who has lived in the forest for a long time and knows some secrets of that place.

Witch of Masks: These past few weeks have been terrible for the forest, a demon has settled in the Crystal Sanctuary and is absorbing the magical power of the tree. Getting to him will be as difficult a test as beating him once you are in front of him. The only thing I can do to help is give you these four masks that will ease your way to the demon room.

The masks are:

Mask of the Mind

This is a greenish gray metal mask. It is shaped like a coyote's face, with bright red eyes that appear to be emanating a thread of crimson smoke.

The coyote's ears extend behind the wearer's skull and a forked tongue is clamped on the chin.

Mask of Youth

This mask is made of reddish wood, and small branches with green leaves sprout on its sides. The front is shaped like a tiger's face, without the jaw, with protruding fangs.

The eyes are bright green crystals that illuminate the forehead area. The mask is fastened with leather straps that automatically adjust to a wearer who is attuned.

Mask of the Elements

This porcelain mask looks like a simple and flat human face without features or emotions, while not attuned. Once the mask holder chooses an element, the mask changes color to red with fire motifs, blue with cold motifs, gold with lightning motifs, or brown stone (for acid).

This mask is attached to the face of the wearer as if it were part of his body, but can be easily removed by pulling it.

Note: At the end of the adventure, players will be able to keep one of the masks. The puzzle they will try to solve will allow them to use all but one of the masks to clear the path to Terror (that's in the next chapter). Players can then decide how to use the masks to keep one of them some kind of reward.

The Legend of the Ancient Terror

In this chapter the adventurers will have to overcome various tests inside the Crystal Sanctuary, using the masks that the witch gave them. She will also reveal the masks powers to the adventurers and will explain each of the labyrinth puzzles when they are at the entrance.

This chapter is divided into 3 sub sections, in the first two they need one of the masks to solve a puzzle, players will need all but one of the masks, so if they choose well, they can keep the one they want after the adventure.

At the entrance of each labyrinth there is a stone door with a face on which the players can put a mask. Once the mask is put on, the stone door disappears with the mask and players lose it.

Puzzle 1: The Sky Labyrinth

It is a kind of small dungeon with several doors that explode. The secret is that the walls are connected by means of the doors, these doors connect tubes towards the exit carrying a gas that will make the entire place explode. The riddle has no logical way to solve except using one of the magic items.

- Solution 1: If they use the Mask of the Elements, they can turn the explosion of fire into an explosion of water that would not be fatal.
- Solution 2: If they use the Mask of the Mind, players will be able to see the gas lines on the walls.

Puzzle 2: The Sea Vault

This whole dungeon is underwater. First of all, players need to solve the problem of breathing underwater. If they don't have anything at all, the witch of the masks or Sage will be able to help them before you get to this point.

For this puzzle there are 4 solutions, depending on which masks are left.

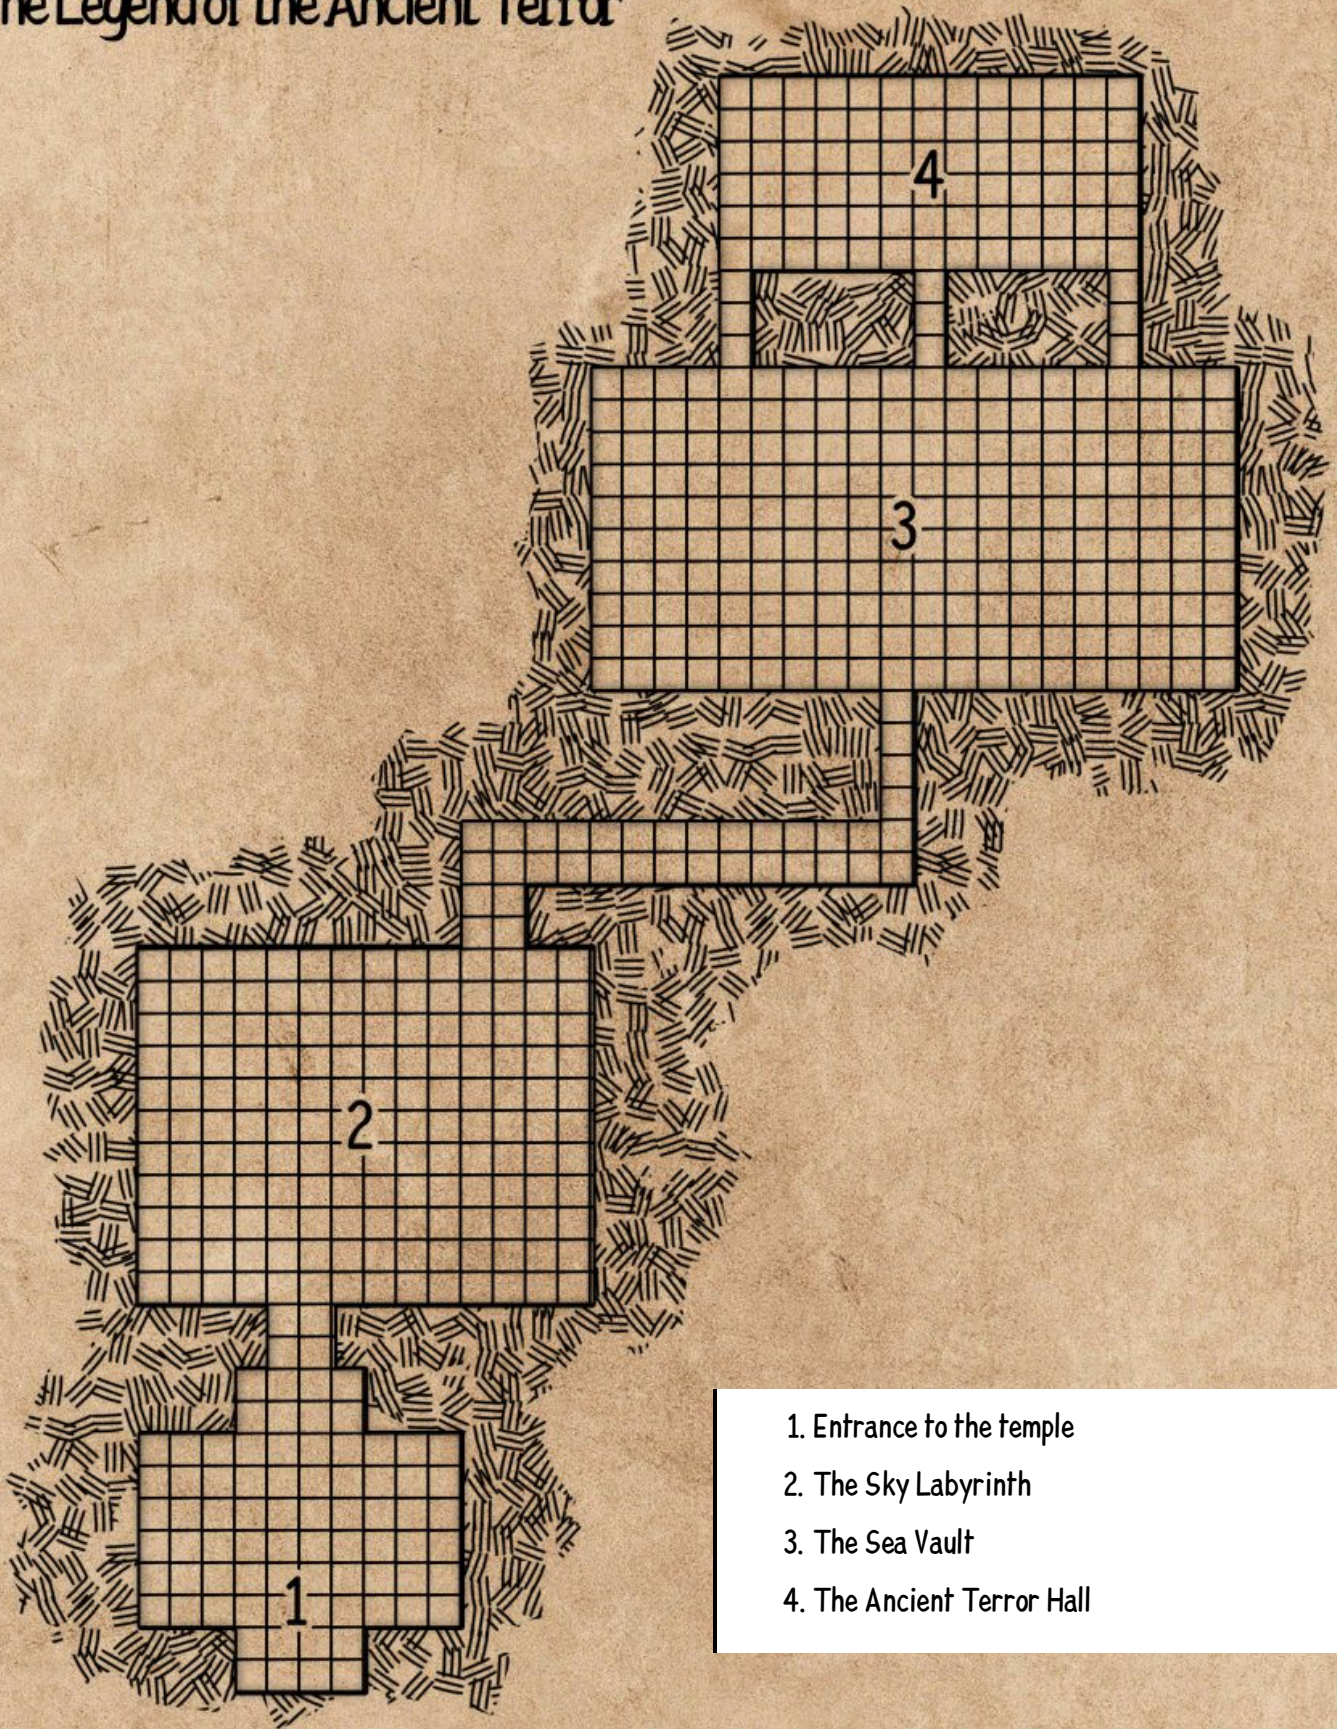

- Solution 1: Mask of the Elements, players will be able to reverse water currents in some parts where they activate this power.
- Solution 2: Mask of the Mind, players will be able to activate portals that will teleport them from one point to another in the dungeon.
- Solution 3: Mask of Youth, players will be able to activate secret paths in some sections.

The Ancient Terror

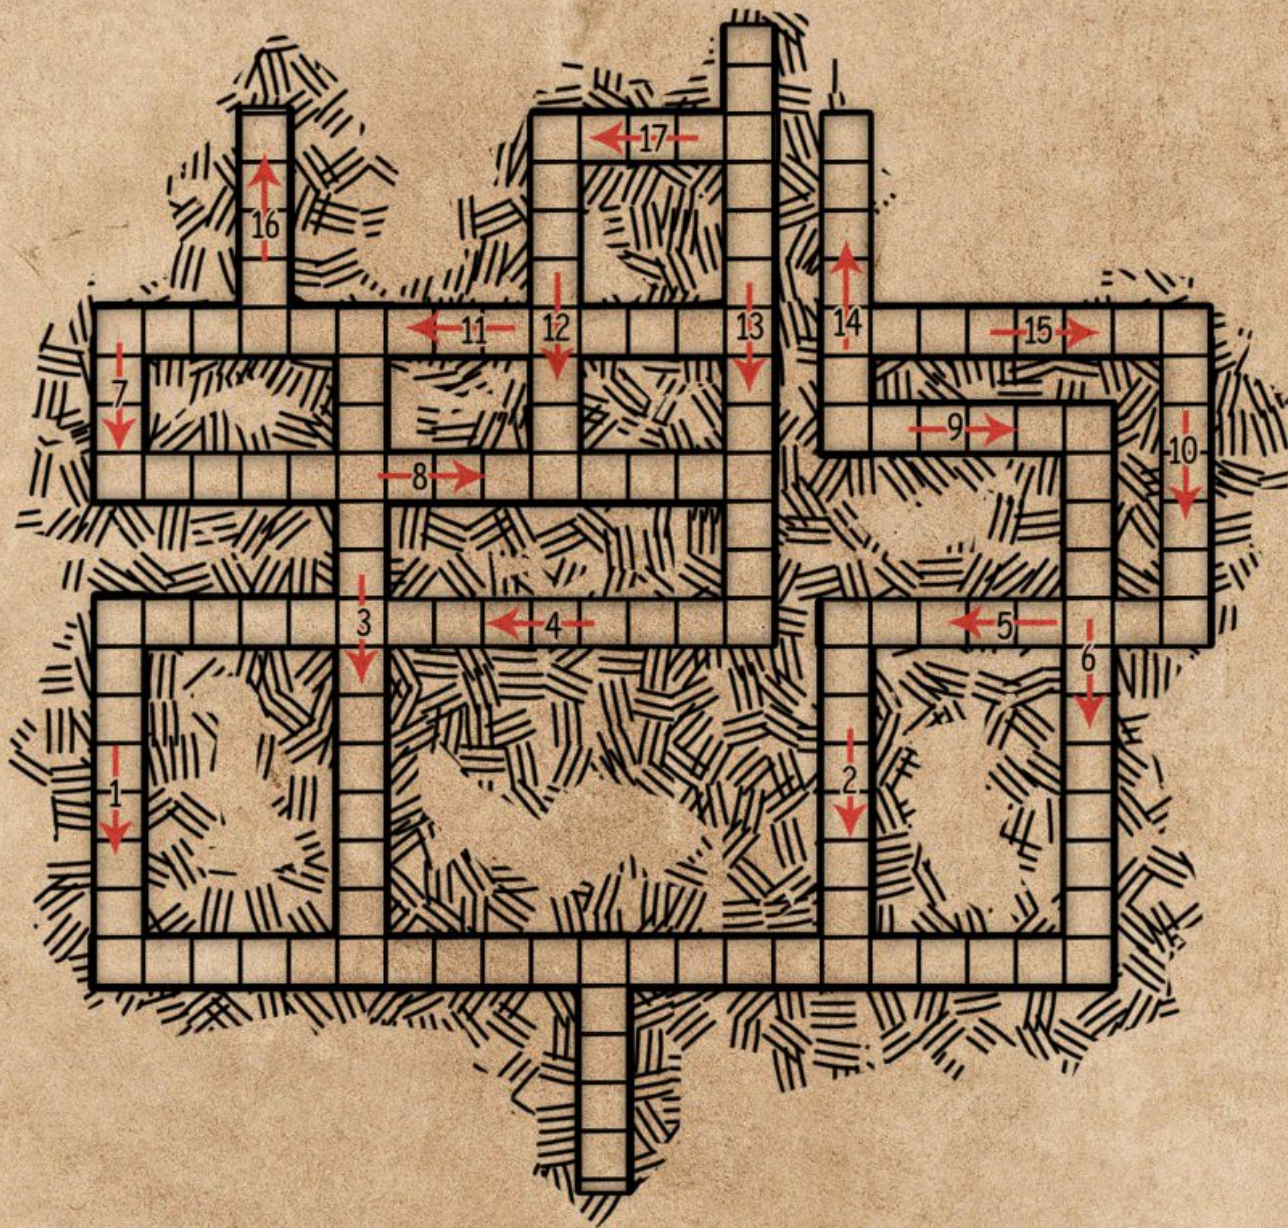

After player have sorted all these puzzles, they will reach the main hall where the Ancient Terror currently resides.

The Legend of the Ancient Terror

The Sea Vault

The Path to the Ancient Terror

This dungeon will take adventurers to the Ancient Terror. Two of these rooms are simple puzzles that players can solve with the help of the magic Masks.

1. The Temple Entrance

Here's where the adventurers start the dungeon and the Witch of the Masks explains the puzzles of the temple.

2. The Sky Labyrinth

In this labyrinth there are two ducts that carry a magical gas from the entrance to the exit, inside the walls and doors. If at least one of the two ducts connects directly to the end when adventurers open the exit door, the place will explode and collapse, everybody dies and it's game over.

The explosion will only be triggered by opening the door, but that won't happen, it's almost impossible.

To solve this riddle, players have the option of using the Mask of the Mind. They will lose this mask but the ducts inside the walls will be visible, so they will be able to block them before leaving the place.

On the map Sky Labyrinth, the conduit routes are marked in yellow, and all the gates of the labyrinth are red. When you open a door that connects a gas line, the line is blocked and no longer reaches the exit door.

The problem is that there can only be two doors open at a time. When a third is opened, all

the previous ones are automatically closed. Once open, a door can't be closed until the mechanism closes it.

Numbers in that map mark:

- 1. The entrance
- 2-6. All doors in this labyrinth
- 7. The exit

With the Mask of the Mind, the riddle is easy to solve, you just have to open door 4, walk to door 6 and open it, without going through door 5 and then reaching door 7 which is the exit. Since the Mask of the Mind makes the gas lines visible, there is no way that adventurers will open the exit door by accident when the gas lines are connected.

With the Mask of the Elements it is much easier, because this mask will cause an explosion of water instead of an explosion of fire, which will not be fatal and the adventurers will be able to continue the path without solving the puzzle.

3. The Sea Vault

This tunnel is completely under water. At this point, if players don't have any way to breathe underwater, one of the witches will cast the *Water Breathing* over the entire party.

The Sea Vault map explanation:

- The entrance is the path at the bottom, and the exits are the three paths upward.
- Adventurers can exit by any of the three paths upward.
- The arrows indicate the direction the current is going, the currents make it impossible to swim and drag any creature into the maze.

- The corridor close to the entrance doesn't have lines because it doesn't have any current and creatures can swim there freely.
- When a creature is swept away by a current, it moves forward until it hits a wall and is then swept away by the next current.
- A creature cannot make a turn into another current if it hasn't hit a wall.

For example: *If you go through stream 11 and get to the start of stream 16, this doesn't pull to you and you can't turn until you hit a wall. In other words, you would reach stream 7 and then be pulled by it.*

Players can solve this puzzle with any of the three masks. Among the files that come with this document are the other versions of this map. Those indicate where the other important points are for each mask.

Mask of the Elements

If the adventurers used the Mask of the Elements at the entrance of this labyrinth, they'll lose it but will be able to choose two of the currents and reverse them. With this, a possible solution is to reverse stream 3 and stream 13. But there is at least one more solution.

Mask of the Mind

If adventurers used the Mask of the Mind, they'll lose it, but various portals that connect to each other will be revealed to them.

- Portals can be activated when a creature pass through the same square and it will teleport the creature regardless of whether it is carried by a current.
- Portals only connect between those with the same letters. That is, one portal A leads to the

other portal A, the B leads to the other portal B and so on.

- They can use any number of teleports to get out of the maze.

One solution is to use Portal B near the entrance, which will cause them to be dragged by stream 8 and then stream 13, which will take them to portal F, which will teleport them to the start of stream 14 and to the exit.

Mask of Youth

If the adventurers used the Mask of Youth, they will lose it, will be able to activate secret shortcuts that will take them forward in the labyrinth.

On the map 005 The Sea Vault – Secret Paths (*within the files that come with this document*), the yellow arrows are the secret shortcuts adventurers can use.

A possible solution is to take shortcut 2, continue on stream 8, then take shortcut 5, which will make them go on stream 11, then stream 7, and they will return to stream 8, but then they will take shortcut 4, which will leave them at the beginning of stream 16 that will take them to the exit.

4. The Ancient Terror Hall

The Ancient Terror hall seems to have been an elegant place once full of fine furniture and elegant decorations, but now it is all rotten and crumbling. There are chests full of gold and silver coins everywhere and ancient art objects that possible are worth a little fortune. In the middle of the room is the Ancient Terror that will be waiting for the adventurers.

When the adventurers enter the room, the terror will offer them a truce, they leave him alone and leave the Forest of Fairies forever, and he will give them an amount of gold that you, as the GM, see fit. If the adventurers do not accept, the terror will attack them immediately.

The monster is the demon [Glabrezu](#), as it is in the basic rules of 5th edition, and at the end of this document there are alternative versions for different levels.

Restorations of the Forest

his chapter is more like an epilogue.

Finally, when all characters are now in the swamp, both groups of fairies decide to summon their bestial deities the great bird and the great fish. Creatures summoned

by the fairies appear and sacrifice themselves to restore the swamp where Pamud, The Living Island, lives, so it can finally go back to rest and fairies can live peacefully again.

Fairies arrange a ceremony to thank the adventurers and the magical beasts that give their lives. Both clan Leaders decide to celebrate a peace treaty, and during the event they discover that the great fish and the great bird were reborn as small creatures in the Storm Lagoon and on the Crystalthorn Tree again. Now its time for the Fairies to take care of them.

Welcome to the Forest of Fairies

This is the longest adventure I have written so far for the world of Hereva. Other previous works include the **Witchcraft: Magic of Hereva** supplement to create characters of the Witch of Hereva class; **Tooth and Nail: Creatures of Hereva**, which includes a variety of monsters and characters from this world; among others.

You can see other titles created by me in the links below.
