## INTRODUCTION

---

As of January 2006 several of the Verbobonc meta-organizations have undergone a substantial change in way advancement within the metaorganization is handled. These changes were made to promote and reinforce choices made by characters. Advancement is no longer just a function of character level; decisions and actions matter.

The Affiliation system, introduced in *Player's Handbook II*, is a new concept to the Living Greyhawk campaign. As such, it is still a work-in-progress. In Verbobonc, we have adapted the Affiliation system to work with a few of our metaorgs. Our hope is to see how the system works and if successful, convert all metaorganizations to Affiliation points.

Your character's actions and choices will determine their responsibilities and benefits far more than their class abilities.

Due to the changes made many of the rewards earned in pervious adventures are rendered obsolete. This document converts those rewards into the current system while attempting to keep the flavor and spirit of the original awards. Influence and infamy remain unchanged their uses and drawbacks are detailed in the Verbobonc Influence document.

### **Acknowledgements**

The Verbobonc Triad wishes to give Brian Troyan a heartfelt thank you for his work in compiling this list.

### **How to Use This Document**

Player should review their adventure record for the awards listed in this document and note any affiliation point gained on the Affiliation point record provide with the meta-organization certificate crossing off the award once recorded.

Some entries list Affiliation points for metaorganizations that do not currently use them. This is a bit of 'forward-thinking' on the part of the Triad in the event that we adapt all metaorganizations to use Affiliation points. For the time being, if you belong to a metaorganization that doesn't use Affiliation points, then don't about tracking Affiliation points for that metaorg.

This document is considered official errata for the listed Verbobonc regional adventures and VTF metaregional adventures.
