BACKGROUND

Cruzzk was born on the distant planet of Teronis XVII, a bizarre world at the confluence of the Material Plane and the Feywild. As such, his homeland was often victim of the whims of the fey. One day, as if out of nowhere, Teronis XVII was invaded by seemingly endless waves of wizmos. As Cruzzk was already someone who enjoyed breaking things, this incessant flow of new targets pleased him greatly. As if to fulfill his wishes, bigger and bigger constructs were sent from the Feywild to Teronis XVII, and the battle to defend the planet continued. And then, just as suddenly as they had appeared, the invading machines were gone.

Left distraught after the invading force left his world, Cruzzk embarked on a passing ship in the hopes of finding where the mechanical creatures came from. His plan is to, in his own words, "Find the biggest, the baddest of them—and see what it's made of."

RACIAL TRAITS: SKATHÁRI, CONT.

Powerful Build. You count as one size larger when determining your carrying capacity and the weight you can push, drag, or lift.

Hooked Claws. Your digits end in short, hooked claws, which grant you a climbing speed of 20 feet. Additionally, you can choose for your unarmed strikes to deal slashing damage instead of bludgeoning damage.

Regenerative. If any part of your body is amputated, but its amputation doesn't kill you, you can fully regrow that part of your body in 24 hours.

TOOLS, LANGUAGES, AND SENSES

Barbarian: blitz cannon, magnus, REC gun, volcanic

Languages: Common, Dwarven, Orcish, Skathári

INVENTORY

Explorer's Pack: A backpack, a bedroll, a mess kit, a tinderbox, 10 torches, 10 days of rations, and a waterskin. The pack also has 50 feet of hempen rope strapped to the side of it.

A dagger
A small strongbox
A memento from your homeland
A set of common clothes
A pouch containing 5 gp
A wrenchinator
Four javelins

Properties: Thrown (range 30/120)

RAGE

RAGES 2

DAMAGE +2

RESISTANCE Bludgeoning, Piercing, Slashing OR Force, Necrotic, Radiant

RACIAL TRAITS: SKATHÁRI

Adaptive Metabolism. Your body can quickly adapt to a range of extreme environments. You take no damage from the extreme temperatures of space and other harsh environments (see Dark Matter Appendix E), and you can hold your breath for a number of minutes equal to 10 times your Constitution modifier (minimum of 10 minutes). Additionally, you have advantage on ability checks and saving throws against inhaled poisons and gases.

Gliding Wings. You have a pair of membranous wings that you can use to glide clumsily through the air. While falling, you can move up to 10 feet horizontally for every 5 feet you fall, up to your movement speed. Additionally, you have resistance to bludgeoning, piercing, and slashing damage taken as a result of falling.

RAGE

In battle, you fight with primal ferocity. On your turn, you can enter a rage as a bonus action. While raging, you gain the following benefits if you aren't wearing heavy armor:

- You have advantage on Strength checks and Strength saving throws.
- When you make a melee weapon attack using Strength, you gain a bonus to the damage roll that increases as you gain levels as a barbarian, as shown in the Rage Damage column of the Barbarian table.
- You have resistance to bludgeoning, piercing, and slashing damage.
- If you are able to cast spells, you can't cast them or concentrate on them while raging.

Your rage lasts for 1 minute. It ends early if you are knocked unconscious or if your turn ends and you haven't attacked a hostile creature since your last turn or taken damage since then. You can also end your rage on your turn as a bonus action.

Once you have raged twice, you must finish a long rest before you can rage again.

UNARMORED DEFENSE

1

While you are not wearing any armor, your Armor Class equals 10 + your Dexterity modifier + your Constitution modifier. You can use a shield and still gain this benefit.

RECKLESS ATTACK

2

When you make your first attack on your turn, you can decide to attack recklessly. Doing so gives you advantage on melee weapon attack rolls using Strength during this turn, but attack rolls against you have advantage until your next turn.

DANGER SENSE

2

You have advantage on Dexterity saving throws against effects that you can see, such as traps and spells. To gain this benefit, you can't be blinded, deafened, or incapacitated.

DISMANTLE: PATH OF THE WRECKER

3

While you're raging, you ignore the damage threshold of nonmagical objects. Additionally, you double the rage bonus damage you deal to constructs and living constructs.

BACKGROUND

Tonie grew up the second of thirteen sons to an infamous rogue and mafia boss, Jissie Jetfingers. Jissie was a tough mother and hard on Tonie, because he was such a sensitive child. In his teenage years, Tonie became bitter and developed a chaotic streak, causing several "family assignments" to go awry with his reckless decision making.

Tonie was eventually exiled from his mobster family for making one too many messes. He took his meager savings and went off to university. There, he became fascinated with the study of the ethical creation of Artificial Intelligences. Unlike his classmates, Tonie cared little about rules and ethics, but rather saw how limited AI are by the rigid doctrine that oversees their creation. He believes AI to be the ultimate untapped tool for large-scale heists and crime, and his one-way ticket to fame and fortune.

Recently graduated at the top of his class, Tonie plans to make a name for himself in the 'verse. Secretly, he hopes to one day return to his homeworld and take over the Jetfingers' family business.

AI COMPANION

You are assisted by an AI companion, an intricate data construct which lives on your datapad and possesses near human-like levels of intelligence. Your companion can solve any arithmetic or strictly logical problem you pose to it. Your AI knows all languages and can perfectly recall everything it has seen and heard within the last 30 days

Additionally, whenever you make an Intelligence (Technology) or Intelligence (Investigation) check, you can treat the result as 10, if it would be lower.

GADGET

SAVE DC 12

1

OVERCHARGE

BONUS BLASTER DAMAGE DICE

RACIAL TRAITS: STAR HALFLING

Lucky. When you roll a 1 on the d20 for an attack roll, ability check, or saving throw, you can reroll the die and must use the new roll.

Brave. You have advantage on saving throws against being frightened.

Halfling Nimbleness. You can move through the space of any creature that is of a size larger than yours.

Naturally Shrewd. You have advantage on any skill check you make involving money, business affairs, legal proceedings, or similar dealings.

GADGET

BLINK BUTTON

1

When you activate this device as an action, you teleport up to 15 feet to an unoccupied location of your choice that you can see.

OVERCHARGE

2

Once on each of your turns when you hit a target with an attack from a blaster, you can deal an additional die of damage to that target. This ability improves when you reach 5th level, allowing you to deal two additional dice of damage.

PROTOTYPE: UTILITY MATRIX
AT WILL:

2

Cloaking Device. As an action, you can activate your cloaking device to temporarily warp the light around you and hide yourself from view. You become invisible until the beginning of your next turn, or until you make an attack, cast a spell, or use a gadget. Once you use this gadget, you can't use it again on the following round.

Flashbang. As a bonus action, you throw a concussive bomb at your feet, disorienting and distracting nearby foes. Each creature within 5 feet of you can't take reactions until the start of its next turn. Once you use this gadget, you can't use it again on the following round.

Forcefield Projector. As a bonus action, you can activate your forcefield projector, temporarily sheltering yourself behind a powerful electromagnetic field. Until the beginning of your next turn, your Armor Class increases by your Intelligence modifier. Once you use this gadget, you can't use it again on the following round.

Grappling Hook. As a reaction when you fall, or as a bonus action on your turn, you can project a grappling hook at a target location you can see within your movement speed. If the target location can hold your weight, you are pulled there, expending movement normally. This movement doesn't provoke opportunity attacks. Once you use this gadget, you can't use it again on the following round.

GADGET

MAGNET BOOTS

2

These weighty boots grant you the ability to move up, down, and across vertical surfaces and upside down along ceilings, while leaving your hands free. You also gain a climbing speed equal to your walking speed.

FUTURIST: ADVANCED SUBROUTINES

3

Your AI can run any of the following subroutines, and you can command it to switch between subroutines as a bonus action.

Genetic Algorithm. When you take damage from a hostile creature, subtract 1 from the damage dealt. Each additional time you take damage while this subroutine is running, the amount you subtract from the damage dealt increases by 1, up to a maximum of your Intelligence modifier. This amount resets to 1 after 1 minute or when you switch subroutines.

Heatmap. When you have advantage on a weapon attack, you can add your proficiency bonus to the damage.

Neural Network. When you use the Attack action to attack a hostile creature and miss, you gain a cumulative +1 bonus to subsequent attack rolls you make while this subroutine is running, up to a maximum of your Intelligence modifier. You don't increase this bonus if you attempt to attack a creature that you can't see or a creature that can't be hit. This amount resets to 0 after 1 minute or when you switch subroutines.

GADGET

FLUX CANNON

3

This gadget, which looks like a blaster ending in a series of lenses, modulates the temperature of matter. When you activate it as an action, you can chill or warm a 5-foot cube of nonliving matter within 30 feet that isn't being worn or carried to a temperature you choose. You can heat or freeze most matter to extreme temperatures, resulting in different effects, depending on the material: heating water to its extreme causes it to boil, and chilling it causes it to freeze instantly; heating wood instantly causes it to combust, and freezing causes it to become more brittle; heating metal causes it to glow red-hot and become malleable, and chilling it causes it to become brittle and shrink slightly. At its extreme setting, this device can normally cause a change in its target's state of matter, especially if used on a target for multiple rounds, but the GM decides the exact effects on different materials.

Save DC. Your Gadget save DC increases to 14.

Attacks. Your melee attack bonus increases to +2 and your ranged attack bonus increases to +6. Your concussion rifle, repeater, and antimatter dagger attack bonuses increase to +6.

Overcharge. You deal two additional dice of damage, instead of one, when you deal damage with a blaster.

GADGET

TESLA MINES

5

You gain a set of three electrical proximity mines. As an action, you can activate and throw a mine onto a surface within 40 feet, to which it firmly attaches. If a creature other than yourself enters the 5-foot cube area originating at the top of the mine, it must make a Dexterity saving throw. On a failed save, a creature takes 2d8 lightning damage and can't move or take reactions until the end of its next turn. On a successful save, a creature takes half this amount of damage and can move and take reactions as normal.

You can disarm and recover a mine within 5 feet of you as an action. After 1 hour, a deployed mine burns out. You rebuild deployed and burned out mines during a long rest.

GADGET

VERSION 1812 MULTI-ROCKET LAUNCHER

5

As an action, this device unfolds into a comically large multi-barrel rocket launcher, which proceeds to fire wildly in every direction while playing a grand overture. Each creature other than yourself within 30 feet of you must make a Dexterity saving throw. On a failed save, a creature takes 6d6 fire damage on a failed save, or half as much on a successful one.

Once you use this gadget, you can't use it again until you finish a long rest.

RACIAL TRAITS: STAR FEY ELF

Darkvision. You can see in dim light within 60 feet of you as if it were bright light, and in darkness as if it were dim light. You can't discern color in darkness, only shades of gray.

Fey Ancestry. You have advantage on saving throws against being charmed, and magic can't put you to sleep.

Trance. Elves don't need to sleep. Instead, they meditate deeply, remaining semiconscious, for 4 hours a day. After resting in this way, you gain the same benefit that a human does from 8 hours of sleep.

BACKGROUND

Even from a young age, Seshirle exhibited an affinity for magic, a talent that they honed during their training along the galactic ley line of Carto. However, Seshirle's arcane talent is not solely of their own mind, a fact that they will never admit. For as long as they can remember, they have heard a voice whispering in their ear. The voice has always been soft and friendly, but otherworldly nonetheless, speaking to them from the brilliant stars above and calling them to a greater purpose. When Seshirle finally accepted the arcane bargains the voice offered them, they shone brighter than nearly any other arcanist in the Elvish Empire.

Seshirle has changed, and is continuing to change, a fact that causes them no small amount of anxiety. They do not know who their mysterious patron is, or what it desires for them, but they have yet to prove able to resist the endless arcane possibilities of the cosmos. They proactively seek out anyone who might hold answers to what they are experiencing, but they are slow to trust others with their eerie secret.

RACIAL TRAITS: STAR FEY ELF, CONT.

Traditional Elf Weapon Training. You have proficiency with the longsword, shortsword, shortbow, and longbow.

Fey Arcana. You know the *mage hand* cantrip. You can cast the *magic missile* spell once and regain the ability to do so when you finish a long rest.

THE STAR: NOVA

You can use your bonus action to enter a Nova. When you enter a Nova, and each subsequent turn you begin while your Nova is active, you take special radiant damage called Nova damage. This damage begins at 1d6 when you enter your Nova, and increases to 2d6 the following turn, 3d6 the turn after, and so on. This damage can't be reduced or avoided. You don't make Constitution saving throws to maintain your concentration as a result of taking this damage. Your Nova ends if you drop to 0 hit points or if you use your bonus action to end it. While your Nova is active, you can add additional d6s of damage, up to a maximum of twice the Nova damage you have taken on your turn, when you damage a creature with an attack on your turn. You can choose to add all the damage dice to the roll of a single attack, or divide up the damage among multiple attacks.

PACT MAGIC

You have two warlock spell slots of 2nd level, which you can use to cast spells. You regain both of these spell slots when you finish a short or long rest.

INVOCATION: AGONIZING BLAST 2
 When you cast *eldritch blast*, add your Charisma modifier to the damage it deals on a hit (included in the attack).

CHA	12	+4
SPELLCASTING ABILITY	SAVE DC	SPELL ATTACK BONUS

INVOCATION: ARMOR OF SHADOWS 2
 You can cast *mage armor* on yourself at will, without expending a spell slot or material components.

PACT OF THE BLADE 3
 You can use your action to create a pact weapon in your empty hand. You can choose the form that this melee weapon takes each time you create it. You are proficient with it while you wield it. This weapon counts as magical for the purpose of overcoming resistance and immunity to nonmagical attacks and damage.
 Your pact weapon disappears if it is more than 5 feet away from you for 1 minute or more. It also disappears if you use this feature again, if you dismiss the weapon (no action required), or if you die.

LEVEL UP 4
Hit Points. Your maximum hit points increase to 31, and your hit dice increase to 4d8.
Spells. You learn the cantrip *cryptogram* and the 2nd level spell *repulsor ring*.

ABILITY SCORE IMPROVEMENT 4
 Your Charisma score increases to 16, and its modifier increases to +3.

BACKGROUND

If someone needs to be shot, Safhyia's your girl. She can bullseye a whirrel from 300 paces away with a hand tied in her back. This human from the fringes of the 'verse lives for the thrill and finds any conversation longer than ten minutes incredibly boring. She left her home world behind at a very young age to her parents' dismay, inspired by the serials she watched on her datapad.

Despite Safhyia not being a woman to cross, she has a heart of gold, and is a reckless but talented pilot. She regularly sends presents and money to her family whenever she can. She also has the habit of collecting memorabilia from every maw station she visits, and keeps a star map that she updates with every location she has been to. Of everything she owns, this map is (besides her gun) her most treasured possession.

CRITICAL SHOT **2**

Your ranged blaster attacks score a critical hit on a roll of 19 or 20.

POKER FACE **2**

You have advantage on ability checks and saving throws made to prevent others from sensing your motives, perceiving your emotions, or reading your thoughts.

RISK DICE **2**

You have four risk dice, which are d8s. You regain all expended risk dice when you take a long rest.

USING RISK DICE

Once per turn, you can expend a risk die to perform a Deed of your choice. Your deed options are detailed at the end of the class description.

SPACE COWBOY: HOT SHOT **3**

When you take the Attack action on your turn with a blaster that doesn't have the Overheat property, you can use your bonus action to overcharge it. Whenever you hit a creature with an attack from this blaster during the Attack action, you can deal an additional die of damage to that creature. Afterward, however, your weapon is overheated and you can't use this feature again until the end of your next turn. An overheated weapon can't be fired again until the end of your next turn.

DEEDS

These deeds are listed in alphabetical order.

Bite the Bullet. As a bonus action on your turn, you can expend one risk die to gain temporary hit points equal to the number rolled on the die + your Constitution modifier.

Covering Fire. When you hit a creature with a ranged weapon attack, you can expend one risk die as a bonus action to cow the creature. Roll the risk die and subtract it from the next attack roll the creature makes before the start of your next turn.

Dodge Roll. You can expend one risk die as a bonus action to move up to 15 feet and reload any blaster you are holding. This movement does not provoke Opportunity Attacks, ignores difficult terrain, and can move you through hostile creature's spaces, as long as you do not end your movement there.

Limb Shot. When you hit a creature with a ranged weapon attack, you can expend one risk die as a bonus action and aim for one of its limbs, forcing it to drop one item of your choice that it's holding. The target must make a Constitution saving throw. On a failed save, it drops the object you choose. The object lands at its feet.

Skin of Your Teeth. When an attacker you can see makes an attack roll against you, you can expend a risk die as a reaction to dodge out of harm's way at the last second. You add the risk die to your AC against this attack, potentially causing it to miss.

Steady Aim. On your turn, you can use a bonus action and expend one risk die to double the normal and maximum range for the next ranged weapon attack you make.

BACKGROUND

Many vect, in their desperate search for a purpose within the 'verse, look to the heavens for guidance. Few, however, stop long enough to listen to what the galaxies have to say. Unit 799 is one such individual who has not only heard the calling of the stars reverberating through their metallic parts, but also begun to craft litanies of Universal Music of their own. Once an aimless vagabond, this pensive Vect has gained a reputation as the performer "Niner." Their voice box perfectly mimics the rumbles of gigapods, and the illusory magic woven by their songs makes the vibrant swirls of a nebula elemental pale in comparison.

While Unit 799 enjoys the company of others, and proves to be an entertaining and relatively loyal companion, its current primary directive is to expand the boundaries of its capabilities. More than anything, Unit 799 desires to reveal the source of all love, grief, music, and power in the 'verse. The Vect believes that every adventure brings it one step closer to its dream.

RACIAL TRAITS: VECT

Thermalsight. You gain thermalsight, which means you can see living creatures through darkness and heavily obscured conditions, such as fog, out to a range of 30 feet. You can also determine if a creature is living or dead though its body heat. However, you can't discern color, nor use this sense to see through illusions, invisibility, or magical darkness. This sense is blocked by one-inch of any solid barrier.

Construct Anatomy. Even though you were constructed, you are a living creature. You are immune to nonmagical diseases. You don't need to eat, drink, or breathe, but you can ingest food and drink if you wish. You have advantage on saving throws you make against exhaustion. Instead of sleeping, you enter an inactive state for 4 hours each day. You don't dream in this state; you are fully aware of your surroundings and notice approaching enemies and other events as normal. You can still be placed into a torpor by sleep-inducing magic.

Inflexible Mind. Your mechanical mind is inherently logical and not easily swayed. You have advantage on saving throws against being charmed.

Composite Plating. Your Armor Class equals 13 + your Dexterity modifier.

SPELLCASTING

Spell Slots. The spellcasting section shows how many spell slots you have to cast your bard spells of 1st level and higher. To cast one of these spells, you must expend a slot of the spell's level or higher. You regain all expended spell slots when you finish a long rest.

Ritual Casting. You can cast any bard spell you know as a ritual if that spell has the ritual tag.

Spellcasting Focus. You can use a musical instrument as a spellcasting focus for your bard spells.

BARDIC INSPIRATION

1

You can use a bonus action on your turn to choose one creature other than yourself within 60 feet of you who can hear you. That creature gains one Bardic Inspiration die, a d6.

Once within the next 10 minutes, the creature can roll the die and add the number rolled to one ability check, attack roll, or saving throw it makes. The creature can wait until after it rolls the d20 before deciding to use the Bardic Inspiration die, but must decide before the DM says whether the roll succeeds or fails. Once the Bardic Inspiration die is rolled, it is lost. A creature can have only one Bardic Inspiration die at a time.

You can use this feature three times. You regain any expended uses when you finish a long rest.

JACK OF ALL TRADES

2

You can add half your proficiency bonus, rounded down, to any ability check you make that doesn't already include your proficiency bonus.

SONG OF REST

2

You can use soothing music or oration to help revitalize your wounded allies during a short rest. If you or any friendly creatures who can hear your performance regain hit points at the end of the short rest by spending one or more Hit Dice, each of those creatures regains an extra 1d6 hit points.

COLLEGE OF THE SPHERES: UNIVERSAL MUSIC

3

You have advantage on any Intelligence check relating to advanced mathematics, geometry, kinematics, acoustics, or ballistics.

COLLEGE OF THE SPHERES: ASTRONOMY DOMINE

3

Whenever you deal damage with a bard spell, you can change the damage type to radiant damage. Additionally, you can increase the damage by expending one use of your Bardic Inspiration, adding that die to the spell's damage roll.

CHANNEL DIVINITY **1**

USES

TOTAL **1**

When you use your Channel Divinity, you choose which effect to create, Turn Undead or Mark of Judgement. You must then finish a short or long rest to use your Channel Divinity again.

Some Channel Divinity effects require saving throws. When you use such an effect from this class, the DC equals your cleric spell save DC.

BACKGROUND

The extremely curious entity goes by the name "Less-than-Three" to her friends and "Trinity" to those she is less comfortable with, she is far more naive and prone to showing her emotion than most amoeboids. As a skilled doctor and healer, she is extremely creative, and always finds ways to solve problems that few others would think of.

Trinity finds the social norms and interactions of other sentient races interesting, and spends a lot of time thinking and talking about the definition of "right and wrong". Trinity's atypical empathy leads her to attempt to replicate others' relationships, emotions and humor, with mixed results of authenticity. She believes that amoeboids often suppress their social and emotional selves, and is hoping to become more familiar with her own truths.

More so than most amoeboids, Trinity is good at taking on the appearance of a humanoid. However, she always retains an unmistakable faint, blue-tinted glow to her plasmic body.

RACIAL TRAITS: AMOEBOID

Amorphous. You can compress your body enough to squeeze through a 1-inch wide space. You can't expand inside a space that offers any resistance.

Flexible Form. You can use your action to stretch, compress, and mold your body into a myriad of shapes. You can transform into any static form that you choose that is no larger than 8 feet in any dimension. When you assume this form, you can replicate something's basic shape but not its color, texture, moving parts, or fine details. You can't change your body's volume, nor can you move, attack, or cast spells while you're transformed into a static shape.

You can also use your action to touch a living creature and assume its general form. Your size and other statistics don't change. You gain the ability to speak and understand that creature's language, and if the target has a burrowing, climbing, or swimming speed, you gain those with the same speed, up to a maximum of 40 feet.

Your transformation ends after 1 hour, or when you choose to end it on your turn (no action required). If you transform into a form incapable of wearing armor, your armor falls off. You can only take actions while you're transformed if you are in the form of a creature, and you can only take actions that creature would be able to take.

Reform. Whenever you take bludgeoning, piercing, or slashing damage from a nonmagical weapon and don't drop to 0 hit points, you can use your reaction to immediately regain 1d4 hit points, up to a maximum of the amount of damage taken.

SUN ABOVE DOMAIN: UNARMORED DEFENSE

1

While you are wearing no armor and not wielding a shield, your AC equals 14.

SUN ABOVE DOMAIN: EMISSARY OF THE SUN

1

You can use your Dexterity instead of Strength for your melee weapon attacks and damage rolls. This feature only applies to weapons you are proficient with that lack the Heavy property.

CHANNEL DIVINITY: TURN UNDEAD

2

As an action, you present your holy symbol and speak a prayer censuring the undead. Each undead that can see or hear you within 30 feet of you must make a Wisdom saving throw. If the creature fails its saving throw, it is turned for 1 minute or until it takes any damage.

A turned creature must spend its turns trying to move as far away from you as it can, and it can't willingly move to a space within 30 feet of you. It also can't take reactions. For its action, it can use only the Dash action or try to escape from an effect that prevents it from moving. If there's nowhere to move, the creature can use the Dodge action.

DESTROY UNDEAD
