Index

In this appendix, you will find many classification tables, allowing you to easily find creatures suited to your campaign along with a reminder of all novelties introduced in **CREATURES**.

❖ **Creatures by Civilization.**

Certain creatures are endemic to a location, owing to geographical, cultural, or supernatural factors. Creatures are sorted by civilization (Free City, Drakenbergen, Kaan, and Septentrion), then by chapter, by CR, and by alphabetical order.

❖ **Creatures by Type.**

A creature's type (humanoid, plant, undead, etc.) represents its basic nature.

❖ **Creatures by CR.**

A creature's CR (Challenge Rating) is a measure of its dangerousness. A creature of a given CR will represent a suitable challenge for an adventuring party of equal level.

❖ **Archetypes.**

Archetypes apply ability score changes, new traits, and other modifications representative of a particular nature. An archetype can be the mark of an extraordinary species (azer, frost giant, salamander, etc.), a mutation (ashen, haunted, etc.), a curse (werewolf, vampire spawn, etc.), or many more possible peculiarities.

❖ **Optional Rules, New Spells and Magic Items.**

This section lists additional rules exclusive to **FATEFORGE** and where to find them.
