SAMPLE DIFFICULTIES

DIFFICULTY	DESCRIPTION	EXAMPLES
5	A little tricky	Ducking a falling object, sneaking up on an average person, punching an alert average person
7	Tricky	Picking a basic lock, repairing a computer, trailing a wary individual
10	Tough	Picking a sophisticated lock, sneaking up on a trained guard, outrunning an attack dog
15	Real tough	Hiding in a brightly-lit area, safely leaping from a speeding car, intimidating an undead monster
20	Forget it	Deflecting bullets with a sword, leaping fifteen feet straight up, defusing a missile while riding it
25	Two words: im possible!	Walking along a trail of bullets to a foe, punching right through one foe to hit another, leaping the Grand Canyon

RESISTANCE CHECKS

Constitution Check: Measures your body's ability to defend itself against illness, poisoning, shock, and the like. The base AV for this check is your Toughness.

Defense Check: Protects you from miscellaneous physical harm, such as falling rocks, needle-throwing traps, poorly thrown dynamite sticks. Its base AV is your Defense.

Melodrama Check: Tests your ability to suppress the emotional urge to do something impulsive in the heat of the moment. If you're already embracing the game's melodramatic spirit, you'll never have to make one.

Will Check: Pits your psychological resources against an attempt to manipulate, dominate, or possess you.

If the above entry does not specify a base value, **the base value is 7**. Shticks may give you a bonus increasing this value.

ADVERSE CONDITIONS

ADVERSE CONDITION	IMMUNITY BONUS
Darkness, Smoke, or Obscured Vision	+2
High Winds	+1
Snow	+1
Extreme Heat	+2
Confined space	+2
Torrential Rain	+2
Toxic Fumes	+2

ACTION CHECKS

Notice Check: Allows you to spot hidden people, objects, and situations. Characters with the skills Detective or Police use the Action Values for those skills in place of the default Notice AV of 7.

Strength Check: Lets you lift heavy objects and break sturdy ones. The base AV for a Strength check is 7. Shticks may increase this.

Fortune Check: Either saves you from an unlucky random event or lets something lucky happen to you that moves the story forward. You can request this last type of Fortune check when the group is stuck. The first comes in response to surprise events, like wayward grenades. The base AV of a Fortune check equals your number of unspent Fortune points. You can add a Fortune die to a Fortune check, which you then make with the newly reduced Fortune total as your Action Value.

KEYFRAMES

Some effects last until the next keyframe. This means the effect lasts from the current shot until the beginning of the same shot in the next keyframe. No more than one keyframe effect is active per character at a time.

INTERRUPTS

Subtract any shot cost for interrupts from the interrupting character's next shot. Interrupts made during the last 3 shots of a sequence carry over to the next sequence, subtracting any remaining shots from the character's Initiative.

SAMPLE ACTION VALUES

ACTION VALUE	DESCRIPTION
0	Totally incompetent
3	Worse than most normal people
5	As good as the average person
7	Slightly above average
9	Competent, of professional caliber
11	Top notch
13	Totally kick-ass
15	World Class
17	Freaking astounding!
19	Beyond freaking astounding!

COMBAT SEQUENCE RUNDOWN

- Each combatant makes an **Initiative Check** (Speed + d6, no rerolling sixes) to determine their starting shot in the sequence.
- The character with the highest shot acts first. If more than one character acts, players go before GMCs, players act in seating order left to right. Subtract the shot cost for the action from the current shot number; this tells you which shot the character acts on next.
- Once everyone on a given shot has acted, count down through the shots until you get to a shot on which somebody acts. Continue like this until there are no more shots left.
- At shots 2 and 1, characters may take actions that cost 3 shots. Actions that cost more than 3 shots carry over to the next sequence; subtract the remaining shots in the sequence from the shot cost of the action and apply to the character's next Initiative to determine when they next act.

ATTACK CHECKS

ATTACK VALUE + SWERVE (*D6 - *D6) - DEFENSE = OUTCOME

OUTCOME (IF 0 OR HIGHER) + DAMAGE = SMACKDOWN

SMACKDOWN - TOUGHNESS = WOUND POINTS

KICK BUTT BLOW THINGS UP SAVE THE WORLD
