

WASTELAND CREATURES

Notes:

Size corresponds to the most significant dimension of the creature i.e. height or length, without the tail (if any).

Size and weight corresponds to the average of a healthy and fully-grown adult creature. In the wastes, not every creature will grow to those dimensions.

ST and HP: Hit Points total, if different from ST, is noted as: ST_{HP}

Traits: WA stands for Wild Animal and DA for Domestic animal.
