

## Converting DC Heroes to GURPS Supers By Mark Manzano

This article is an attempt at making general conversions of DC: Heroes to GURPS: Supers. As most of the DC characters are relatively powerful these should be taken as guidelines, with the resulting conversions tailored to a given Supers Campaign. However conversions that use these conversion notes will not be balanced, and again they should be adjusted to fit a given campaign.

### Conversion Notes

Stat Conversions: As DC: Heroes has 9 and only four of them are really needed for basic stat conversions. The conversions take the APs (In a given range.) of a given DC Heroes stat and attempts to find the closest value in GURPS terms.

### DC: Heroes STR to GURPS ST

APs	Formula
1 to 5	$\times 1.5 + 5 = ST$
6 to 10	$\times 2 + 5 = ST$
11 to 20	$\times 2.5 + 5 = ST$
21 to 30	$\times 2.5 + 10 = ST$
31 to 40	$\times 2.5 + 15 = ST$
41 to 50+	$\times 2.5 + 25 = ST$

### DC DEX to GURPS DX

APs	Formula
1 to 5	$\times 2 + 5 = DX$
6 to 10	$\times 2 + 10 = DX$
11 to 30	$\times 2 + 15 = DX$
31 to 50	$\times 2 + 20 = DX$

### DC INT to GURPS IQ

APs	Formula
1 to 5	$\times 1.5 + 5 = IQ$
6 to 10	$\times 2 = IQ$
11 to 20	$\times 2 + 5$
21 to 50+	$\times 2 + 10$

### DC Body to GURPS HT

APs	Formula
1 to 10	$\times 2 + 5$
11 to 20	$\times 2.5$
21 to 30	$\times 2.5 + 5$
31 to 50+	$\times 2.5 + 10$

As for the other DC: Heroes stats the following conversions are suggested, at least the ones that have any effect in GURPS.

WILL: If a character has a will score of 10 +. They should have the Strong Will advantage at the rate of 1 per 5 APs of the character's Will Stat.

INFLU: Divide this by 5. If any of the results are 1+ then give that character +1 levels of the Charisma advantage equal to the resulting number.

As for the rest of the DC: Heroes stats (MIND, AURA, SPIRIT) none of them apply.

### Advantages

Area Knowledge: This one in the DC Heroes rule book costs a minimum of twenty points. As far as this goes the character should buy the appropriate Area Knowledge skills at the character's IQ Level.

Attractive: This is the equivalent of the Appearance: Handsome / Beautiful Advantage.

Connection: This is the equivalent of the contact advantage. Treat them basically like their GURPS equivalent.

Connoisseur: This is basically the GURPS Savior-Faire skill and should be bought at the character's IQ level.

Gadget: Treat these as Gadgets under the GURPS supers rules.

Genius: This is the Gadgeteer advantage.

Gift of Gab: This is the Bard skill bought at IQ + 2 (four Pts). In addition any character who has this advantage gets Charisma +1 (5 Pts).

Headquarters: There is no equivalent.

Insta-Change: This is basically a costume advantage with a special effect. It lets the character change instantly from their street clothes into their super costume just by thinking about it. For a costume to do this add 5 points to the costume advantage.

Intensive Training: A character with this advantage either has the GURPS: Martial Arts; Trained by a Master, or the Weapons Master advantage or both. Depending on the character's background.

Iron Nerves: A character with this gets Strong Will +2.

Leadership: A character with this has the Leadership skill at their IQ level +1.

Lighting Reflexes: This is the same as the Combat Reflexes advantage.

Luck: This is the Luck advantage at the 30 Pts level.

Omni-Connection: There is in GURPS equivalent. But here's a suggested new advantage to cover this.

Universal Contacts (Varies)

A character who has this advantage as a chance of developing a temporary contact in any situation. The amount of points needed for this depends on

the roll needed to find such a connection in a given situation.

Roll Needed	Frequency	Pts
15 or less	All of the time.	200
12 or less	Quite often.	100
9 or less	Fairly Often	50
6 or less	Rarely	25

And of course these die rolls are subject to any modifiers that the GM can think of..

Pet: See GURPS: Bestiary for this one.

Popularity: This is a Reputation +4 (Everybody, all of the time).

Rich Family/Freinds: A character with this advantage has a Patron who is richer than they are.

Scholar: This is the same as having a high level mental skill. Treat this as the equivalent skill at IQ + 4 level.

Sharp Eye: The character has Acute Vision +1.

Silent Assistant: The character has an unknown ally who knows the character's secret ID, and is willing to help the character. This is just like a normal Ally for frequency of appearance. However the character does not know who this ally is so the point cost of this Ally has a -5 point cost.

Miscellaneous Advantage: Use the appropriate GURPS advantage.

Drawbacks / Disadvantages

AGE: This is either the Age disadvantage, for older characters. Or it's the Youth disadvantage.

Authority Figure: Characters with this one get the following. A high status level, coupled with a sense of duty towards one's home country, and sometimes a fanaticism about it as well. Assess the appropriate point values as per the GURPS Basic Rules Book.

Dark Secret: This one is a secret that will destroy a character if it becomes known. Secret: (-30 points).

Exile: This is a negative reputation on the character's home world, or country. It is good for a -4 reputation (Everybody, all the time, home country or planet only) (-4 Pts).

Guilt: Treat this as either a -1 point quirk if mild enough, or treat it as a -5/-10 disadvantage. At the -5 point level the character worries about the problem that caused his/her feeling of guilt. Or at the -10 level the character has to make a will roll on a weekly basis or they suffer from overwhelming guilt. And they are a -1 for all mental skills. In addition they suffer a -1 for subsequent will roll to pull out of their current "guilt trip"

Innocent: This is the Gullibility disadvantage.

Irrational Fear: Treat this as the appropriate Phobia disadvantage from GURPS.

Irrational Attraction: This is either a quirk if minor enough. Or it's a major mental disadvantage. Some of them include; Compulsive Behaviors, Fanaticism, Greed, Lecherousness, etc.

Married: This is a variation of the Dependents disadvantage. Basically the character is married to a normal who knows the character's super ID. Take an additional -10 points for this.

Mistrust: This is a negative reputation with law enforcement personnel it is a -2 reaction, all of the time. and is worth - 4 points.

Physical Restriction: take the appropriate physical disadvantage from GURPS.

Psychological Instability: Take the appropriate mental disadvantage from GURPS, or Supers.

Public Identity: This is just like the Supers disadvantage.

Rage: This is the GURPS Berserk disadvantage. If a character has this at the catastrophic level add bloodlust as well.

Secret Identity: Just like the Supers disadvantage.

Strange Appearance: This is the same as being hideous looking (-20 Pts).

Traumatic Flashbacks: Treat these as the Flashback disadvantage (Su18).

Uncertainty: This is a -10 point disadvantage. When a character who has this disadvantage, they because of self doubt might hesitate before taking action. They have to make a successful will roll to act, in any crisis situation.

Vulnerably: These should be taken as the appropriate GURPS disadvantages.

Miscellaneous Drawbacks: Buy the appropriate disadvantages from GURPS.
