The ImageQuest™ Adventure Illustrator is designed for use by the GM during play. The GM should display the appropriate graphic to the players as they reach each encounter. The adventure text prompts the GM as to the precise time that each picture should be displayed. The GM's thumb should cover the picture number while the players are viewing the illustration so the players do not gain any unearned clues. GMs should also fold the page so that only one image is visible when showing the players. The maps at the end of the section are for GM use ONLY, unless labeled "Player Aid." We recommend each Player Aid be photocopied and given to the players as circumstances dictate.
