

# Arlee, Montana

## Arlee, Before the war

**Arlee** was a fairly small town before the war. It was mainly a wide spot in the road that served as a way spot for pre war trucking for logging and wood chips, also for points in the **Glacier National Park** and **Kalispel** and the nearby **National Bison Range**. It had a few shops, a gas station, a grocery store and tavern, a school, 2 cafes and an antique furniture store its one claim to fame was a small bowling alley. It was also located on the Flathead Indian Reservation. It had a Population of roughly 210.

## Nuclear Strikes

## Arlee, After the War

**1989** Eastern Montana was struck heavily during the war and laid to waste its now perty much a land fit only for rats, mice, black flies, gila monsters, dragon lizards and scorpions. **Per (TM 1-1)** However Western Montana fared a bit better. **The Bitterroots** and the **Lewis Mt. Range** sheltered a large portion of the area from the fallout from Washington State although there was some. The area remained roughly 70% unaffected by the war. The population dropped to about 147 people in arlee more as a result of refugee conflicts then anything else. The Bison range to the North was stable at about 300 animals

In addition to the tradional hits in **(TM 1-1)** there was 3 miss-hits, an SS-17 east of Missoula and 2 different SS-N-17's near Bozeman and Billings Montana. See MAP above.

---

**2000** Arlee has become the last majority "white" towns in the area as the Amerind Nation of Flathead has taken over most of the Flathead valley from Kalispel to **Missoula**. In the early years a strong presence of the Montana Militia(M.M) West of Arlee helped support this venture. Heavily Armed and trained the M.M supported Arlee in its independence from the Flatheads. The Militia control a small thread of land from Thompson falls to Arlee about 40 miles wide and 75 Miles long. Arlee is a full fledge town with a merchantile, gunsmith, livery and lumber/grain mill. They have a Governor Jo Edy an old woodchip trucker hard as nails but level headed Hes one of 4 Governors united with the M.M. Game is abundant major crops dont do so well in the Falthead valley such as corn and wheat, but other veggies grow okay so meat from the Bison range and wild game along with the few remaining cattle are super important to Arlee. Thier Population has increased to 207. The Heavily contested bison herd has increased to 380 animals.

## Arlee

---

**2024** Much recovery has happened in Arlee and in the M.M region of Montana, They now have a School a second merchantile, a wagon maker, a 10 room Hotel and cafe, the population now stands at 312 people. Still heavily armed as a result of the M.M intervention the citizens have access to modern arms and use them well. Many skirmishes happen to the North near the Bison range with the Flathead empire but so far Arlee has managed to hold its own. a New Governor has been elected named Mr. Doumas a cattle rancher from West of Arlee. He has started a number of agricultural projects to help Arlee such as fixing the old canal system to better irrigate the land around Arlee. The Bison herd now stands at 557 animals and is prospering.

---

**2139** Things have gone well for the little Arlee town, there were a few brief years when maggots and scraggers have harassed the Southern side of Arlee **Per (TM 1-1)**. A colony of grunts **Per (TM 1-1)** have taken up residence in the old Town of **Ravalli** North of Arlee they have a population of 127. Arlee itself is prospering very well with a population of 1100. The Bison herd still heavily contested with the Flatheads stands roughly at 2000 animals, many of the old Bison range fences have been taken down or fallen down and they range from North Arlee up to **Ronan**. Arlee is a mixture of townspeople, grunts, breeders, farmers and M.M personel. Forests are tall and healthy west/east of Arlee game is abundant. The Canals Mr. Duomas developed have helped with the crop system they setup even corn and wheat have a chance to grow now. The region is still pretty remote with really trade only going on between the Flatheads and the M.M on a limited uneasy scale. little Travel is encouraged North, South or East of Arlee more traffic goes west then anywhere else much of the larger world is unknown. Rumors abound about a Maxwells Militia and Breeders in the East **Per (TM 1-1)**.

---

## Arlee, Montana State, USA 2139

Governor: Onree Iker  
Town population: 1100.  
Major Industry: Cattle raising and Hunting Bison

Technology: mostly water mills, wind mills and animal power  
a fellow named Grimes has built a steam engine and Arlee has some electrical power now.

Weapons: mostly M1 Garand class weapons, but all sorts of rifles and shotguns are in use some limited amounts of handgrenades and C4 explosives are provided by the Montana Militia. weapons are modern and taken care of very well since the strikes. ammunition is a little harder to make and such. so its not uncommon to use bows and spears for hunting.

Militia: about 300 men and boys from 16-50 years old , NO EXCEPTIONS.

The Town:  
Now has a full time school, a small hospital with 2 EemDees(**TM 1-1**) a couple liveries, a couple Merchantiles, a few gunshops, a small steam engine. the bowling alley is in operation again as the most favorite pasttime. a Grain mill and lumber mill combination. A Large hotel for travelers going west it has 20 rooms and a cafe. The is also a seperate eatery on the North side of Arlee. they have 2 taverns. Up in Ravalli they have a Tavern also. There is an actual Governor office along with a small jail with 5 cells.

A number of ranchers are converting to Bison(Buffs)(**TM 1-1**) from the Bison range as they can as Buffs are easier on the grasslands then standard cattle.

Gov't: village and community voting for those that are married. Major desicions are made by the 4 Governors and the M.M Officers to the West. Its mainly a Military type Gov't but the people are left alone unless they create trouble like robbery or murder or rape.

Beliefs: mixture of religons.

---

### ANIMALS per TM 1-1

squirrels,rats,mice,weasels, a few gophers  
rabbits, otters, skunks, foxes and coyotes  
bobcats, white tail deer and elk, wild cattle  
and a few wild horses, rarely, a cougar.

### MUTANTS per TM 1-1

**Buffs(Bison)**, mainly North of Arlee up to Ronan.  
**Bear(Grizzly)**, mainly to the North of Arlee  
**Bigfoot**, found to the North and West of Arlee.

they are quite troublesome as they steal crops and ruin fences.  
**Slashers**, in HEAVY numbers to the east of Arlee, most people dont go East of Arlee  
**Dire wolves**, also in HEAVY numbers east of Arlee and North East.

## **PEOPLES** per TM 1-1

**Grunts** up in the old town of Ravalii , and some mixed in with everyone in Arlee.  
**Scraggers**, although not very many, in the forest and South of Arlee  
**Farmers** in mainly Arlee with some near Ravalii  
**Townspeople** in Arlee, MT  
**American Indians(Amerinds)** namely the Flathead Empire.

There maybe an infestation of **Maggots** in Northern Missoula near the airport.

**Bikers and Razers** Sometimes far south of Missoula are reports of them roaming around.  
**Maxwells Militia**, Far to the East.  
**Breeders**, Far to the East
