Masmorras Modulares 6

Um suplemento de mapas Para Imprimir e Montar.

Introdução

O que esperar deste suplemento?

Olá amigos! desta vez eu arrumei o arquivo de forma vem formal para todos. Este é um suplemento para imprimir mapas de masmorras, um narrador que não tenha habilidade de desenhar ou Tempo de desenhar pode imprimir estes mapas em A4, eu organizei todos os mapas para o tamanho de 2,5cm X 2,5cm para ser impresso numa impressora comum.

O motivo disto eu já contei na comunidade de Old Dragon do Face, mas para quem não leu, eu tenho habito de desenhar mapas de Arias onde terei combate com miniaturas dês da época do D&D4, um dia eu gravei uma vídeo aula ensinado a desenhar um mapa, mas para minha surpresa, tive um retorno negativo da aula, onde muitos alegavam que não teriam tempo ou Habilidade para desenhar um mapa, pensando neste retorno, eu lembrei de como foi difícil para mim encontrar mapas para imprimir, mapas simples em preto e branco não estão disponíveis, para obter é preciso desenhar ou ampliar de uma imagem old scholl perdendo muito da qualidade, então decidi escanear os mapas que montei para uma narrativa de Diablo 1, meu retorno foi melhor, e devido a demanda de pessoas que se interessaram pelos mapas modulares decidi organizar a coletânea em um arquivo PDF, com todas as escalas iguais e uma capa arrumadinha. Este suplemento tem os mapas da quarta leva e da quinta leva.

Quem gostou do suplemento por favor visite a Comunidade do Old Dragon no Face e Curta o Album de Masmorras modulares.
