# INTRODUCTION

## CLASSIC FANTASY

Dark dungeons hiding long-forgotten treasures, their maze-like passages haunted by restless spirits and monstrous beasts.

Forbidding forests where the trees are as old as the world and elves are said to dwell.

Great cities with bustling docks and markets, maze-like alleyways, temples glorifying a multitude of gods, the opulent palaces of great lords, and teeming slums rife with pickpockets.

Wild mountain ranges, their peaks wrapped in cloud and their roots delved by dwarves, carving their great subterranean cities into the veins of the earth.

These are the worlds of the classic fantasy genre. This book—in conjunction with the *Old-School Essentials Core Rules*—provides everything players need to start exploring!

## IN THIS BOOK

This book contains all rules pertinent to the classic fantasy genre, including:

- ▶ Seven classic character classes: the devout cleric, the sagacious magic-user, the doughty fighter, the cunning thief, the bold dwarf, the noble elf, and the plucky halfling.
- ▶ Full lists of adventuring gear, weapons, armour, vehicles, and mounts that characters can purchase.
- ▶ Descriptions of the many types of mercenaries and specialists that may be hired.
- ▶ Rules for constructing a stronghold and managing a domain.

### Heritage

The material presented in this book represents a 100% faithful restatement of the character options from the classic Basic/Expert game.

## REQUIRED BOOKS

**Core Rules:** Contains the foundational rules of *Old-School Essentials* upon which this book is based.

**Classic Fantasy: Cleric and Magic-User Spells:** Players who create a cleric, elf, or magic-user character will need access to the *Cleric and Magic-User Spells* book.

# CHARACTER CLASSES

## CLERIC

**Requirements:** None

**Prime requisite:** WIS

**Hit Dice:** 1d6

**Maximum level:** 14

**Armour:** Any, including shields

**Weapons:** Any blunt weapons

**Languages:** Alignment, Common

Clerics are adventurers who have sworn to serve a deity. They are trained for battle and channel the power of their deity.

### Combat

Clerics can use all types of armour. Strict holy doctrine prevents clerics' use of weapons that have a sharp, cutting edge or stabbing point. They may use the following weapons: club, mace, sling, staff, warhammer.

### Divine Magic

See *Magic* in *Core Rules* for full details on divine magic.

**Holy symbol:** A cleric must carry a holy symbol (see *Equipment*, p24).

**Deity disfavour:** Clerics must be faithful to the tenets of their alignment, clergy, and religion. Clerics who fall from favour with their deity may incur penalties.

**Magical research:** A cleric of any level may spend time and money on magical research. This allows them to create new spells or other magical effects associated with their deity. When a cleric reaches 9th level, they are also able to create magic items.

**Spell casting:** Once a cleric has proven their faith (from 2nd level), the character may pray to receive spells. The power and number of spells available to a cleric are determined by the character's experience level. The list of spells available to clerics is found in *Cleric and Magic-User Spells*.

**Using magic items:** As spell casters, clerics can use magic scrolls of spells on their spell list. They can also use items that may only be used by divine spell casters (e.g. some magic staves).

### Turning the Undead

Clerics can invoke the power of their deity to repel undead monsters encountered. To turn the undead, the player rolls 2d6. The referee then consults the table opposite, comparing the roll against the Hit Dice of the undead monsters targeted.

### Successful Turning

If the turning attempt succeeds, the player must roll 2d6 to determine the number of HD affected (turned or destroyed).

**Turned undead:** Will leave the area, if possible, and will not harm or make contact with the cleric.

**Destroyed undead (result of D):** Are instantly and permanently annihilated.

**Excess:** Rolled Hit Dice that are not sufficient to affect a creature are wasted. However, at least one undead creature will always be affected on a successful turning.

**Mixed groups:** If turn undead is used against a mixed group of undead monsters of different types, those with the lowest HD are affected first.

## Cleric Level Progression

**D:** Death / poison; **W:** Wands;

**P:** Paralysis / petrify; **B:** Breath attacks;

**S:** Spells / rods / staves.

## Turning Table Results

–: The turning fails.

**Number:** If the 2d6 turning roll is higher or equal, the turning attempt succeeds.

**T:** The turning succeeds.

**D:** The turning succeeds; the monsters are destroyed, not simply caused to flee.

## After Reaching 9th Level

A cleric may establish or build a stronghold. So long as the cleric is currently in favour with their god, a stronghold may be bought or built at half the normal price, due to divine intervention.

Once a stronghold is established, the cleric will attract followers (5d6 × 10 fighters of level 1–2). These troops are completely devoted to the cleric, never checking morale. The referee decides which proportions of followers are 1st and 2nd level and which are bowmen, infantry, etc.

# DWARF

**Requirements:** Minimum CON 9

**Prime requisite:** STR

**Hit Dice:** 1d8

**Maximum level:** 12

**Armour:** Any, including shields

**Weapons:** Small or normal sized

**Languages:** Alignment, Common, Dwarvish, Gnomish, Goblin, Kobold

Dwarves are stout, bearded demihumans, about 4' tall and weighing about 150 pounds. Dwarves typically live underground and love fine craftsmanship, gold, hearty food, and strong drink. They have skin, hair, and eye colours in earth tones. Dwarves are known for their stubbornness and practicality. They are a hardy people and have a strong resistance to magic, as reflected in their saving throws.

## Combat

Dwarves can use all types of armour. Due to their short height, dwarves can only use small or normal sized weapons. They cannot use longbows or two-handed swords.

## Detect Construction Tricks

As expert miners, dwarves have a 2-in-6 chance of being able to detect new construction, sliding walls, or sloping passages when searching.

## Detect Room Traps

Due to their expertise with construction, dwarves have a 2-in-6 chance of detecting non-magical room traps when searching (see *Dungeon Adventuring* in *Core Rules*).

## Infravision

Dwarves have infravision to 60' (see *Darkness* under *Hazards and Challenges* in *Core Rules*).

## Listening at Doors

Dwarves have a 2-in-6 chance of hearing noises (see *Dungeon Adventuring* in *Core Rules*).

## After Reaching 9th Level

A dwarf has the option of creating an underground stronghold that will attract dwarves from far and wide. Dwarves usually live in clans, so dwarves of the character's clan will be attracted to live under their roof. Dwarves from other clans will generally be friendly and clans may collaborate in times of war or disaster.

A dwarf ruler may only hire dwarven mercenaries. Specialists and retainers of any race may be hired.

# ELF

**Requirements:** Minimum INT 9

**Prime requisite:** INT and STR

**Hit Dice:** 1d6

**Maximum level:** 10

**Armour:** Any, including shields

**Weapons:** Any

**Languages:** Alignment, Common, Elvish, Gnoll, Hobgoblin, Orcish

Elves are slender, fey demihumans with pointed ears. They typically weigh about 120 pounds and are between 5 and 5½ feet tall. Elves are seldom met in human settlements, preferring to feast and make merry in the woods. If crossed, they are dangerous enemies, as they are masters of both sword and spell. Elves are fascinated by spells and beautifully constructed magic items and love to collect both.

**Prime requisites:** An elf with at least 13 INT and STR gains a 5% bonus to experience. An elf with an INT of at least 16 and a STR of at least 13 receives a +10% XP bonus.

## Arcane Magic

See *Magic* in *Core Rules* for full details on arcane magic.

**Magical research:** An elf of any level may spend time and money on magical research. This allows them to add new spells to their spell book and to research other magical effects. When an elf reaches 9th level, they are also able to create magic items.

**Spell casting:** Elves carry spell books containing the formulae for arcane spells. The level progression table (opposite) shows both the number of spells in the elf's spell book and the number they may memorize, determined by the character's experience level. Thus, a 1st level elf has one spell in their spell book, selected by the referee (who may allow the player to choose). The list of spells available to elves is provided in *Cleric and Magic-User Spells* (elves have the same spell selection as magic-users).

**Using magic items:** As spell casters, elves are able to use magic scrolls of spells on their spell list. They can also use items that may only be used by arcane spell casters (e.g. magic wands).

## Combat

Elves can use all types of weapons and armour.

## Detect Secret Doors

Elves have keen eyes that allow them, when actively searching, to detect hidden and secret doors with a 2-in-6 chance (see *Dungeon Adventuring* in *Core Rules*).

## Immunity to Ghoul Paralysis

Elves are completely unaffected by the paralysis that ghouls can inflict.

## Infravision

Elves have infravision to 60' (see *Darkness* under *Hazards and Challenges* in *Core Rules*).

## Listening at Doors

Elves have a 2-in-6 chance of hearing noises (see *Dungeon Adventuring* in *Core Rules*).

### After Reaching 9th Level

An elf may construct a stronghold in the depths of the forest, blending in with the natural environment of a site of great beauty, for example: in the treetops, beside a serene valley, or hidden behind a waterfall. Whatever material it is made of, the construction costs as much as similar work in stone, due to the exquisite quality of craftsmanship involved.

Forest animals within a 5 mile radius of the completed stronghold will become friends with the elves. They may warn of intruders, carry messages and news, and so on. In exchange for this friendship, the elf must protect the animals from harm.

An elf ruler may only hire elven mercenaries. Specialists and retainers of any race may be hired.

Fighters are adventurers dedicated to mastering the arts of combat and war. In a group of adventurers, the role of fighters is to battle monsters and to defend other characters.

## Combat

Fighters can use all types of weapons and armour.

## Stronghold

Any time a fighter wishes (and has sufficient money), they can build a castle or stronghold and control the surrounding lands.

## After Reaching 9th Level

A fighter may be granted a title such as Baron or Baroness. The land under the fighter's control is then known as a Barony.

# HALFLING

**Requirements:** Minimum CON 9, minimum DEX 9

**Prime requisite:** DEX and STR

**Hit Dice:** 1d6

**Maximum level:** 8

**Armour:** Any appropriate to size, including shields

**Weapons:** Any appropriate to size

**Languages:** Alignment, Common, Halfling

Halflings are small, rotund demihumans with furry feet and curly hair. They weigh about 60 pounds and are around 3' tall. Halflings are a friendly and welcoming folk. Above all, they love the comforts of home and are not known for their bravery. Halflings who gain treasure through adventuring will often use their wealth in pursuit of a quiet, comfortable life.

**Prime requisites:** A halfling with at least 13 in one prime requisite gains a 5% bonus to experience. If both DEX and STR are 16 or higher, the halfling gets a +10% bonus.

## Combat

Halflings can use all types of armour, but it must be tailored to their small size. Similarly, they can use any weapon appropriate to their stature (as determined by the referee). They cannot use long-bows or two-handed swords.

## Defensive Bonus

Due to their small size, halflings gain a +2 bonus to Armour Class when attacked by large opponents (greater than human-sized).

## Hiding

Halflings have an uncanny ability to disappear from sight:

- ▶ In woods or undergrowth, a halfling can hide with a 90% chance of success.
- ▶ In dungeons, a halfling can hide in shadows or behind other forms of cover. The chance of success is 2-in-6. Hiding requires the halfling to be motionless.

## Initiative Bonus (Optional Rule)

If using the optional rule for individual initiative (see *Combat* in *Core Rules*), halflings get a bonus of +1 to initiative rolls.

## Listening at Doors

Halflings have a 2-in-6 chance of hearing noises (see *Dungeon Adventuring* in *Core Rules*).

## Missile Attack Bonus

Halflings' keen coordination grants them a +1 bonus to attack rolls with all missile weapons.

## Stronghold

Any time a halfling wishes (and has sufficient money), they may build a stronghold, which will form the basis of a new community of halflings. Halfling communities—known as Shires—are typically located in gentle countryside of little rivers and rolling hills. The leader of the community is called the Sheriff.

# MAGIC-USER

**Requirements:** None

**Prime requisite:** INT

**Hit Dice:** 1d4

**Maximum level:** 14

**Armour:** None

**Weapons:** Dagger

**Languages:** Alignment, Common

Magic-users are adventurers whose study of arcane secrets has taught them how to cast spells. Magic-users are able to cast a greater number of increasingly powerful spells as they advance in level.

## Arcane Magic

See *Magic* in *Core Rules* for full details on arcane magic.

**Magical research:** A magic-user of any level may spend time and money on magical research. This allows them to add new spells to their spell book and to research other magical effects. When a magic-user reaches 9th level, they are also able to create magic items.

**Spell casting:** Magic-users carry spell books containing the formulae for arcane spells. The level progression table (opposite) shows both the number of spells in the magic-user's spell book and the number they may memorize, determined by the character's experience level. Thus, a 1st level magic-user has one spell in their spell book, selected by the referee (who may allow the player to choose). The list of spells available to magic-users is provided in *Cleric and Magic-User Spells*.

**Using magic items:** As spell casters, magic-users are able to use magic scrolls of spells on their spell list. They can also use items that may only be used by arcane spell casters (e.g. magic wands).

## Combat

Magic-users can only use daggers and are unable to use shields or wear any kind of armour. This makes them very vulnerable in combat.

## After Reaching 11th Level

A magic-user may build a stronghold, often a great tower. 1d6 apprentices of levels 1–3 will then arrive to study under the magic-user.

# THIEF

**Requirements:** None

**Prime requisite:** DEX

**Hit Dice:** 1d4

**Maximum level:** 14

**Armour:** Leather, no shields

**Weapons:** Any

**Languages:** Alignment, Common

Thieves are adventurers who live by their skills of deception and stealth. Their range of unique skills makes them very handy companions in adventures. However, thieves are not always to be trusted.

**Adjust ability scores:** In step 3 of character creation, thieves may not lower STR.

## Back-stab

When attacking an unaware opponent from behind, a thief receives a +4 bonus to hit and doubles any damage dealt.

## Combat

Because of their need for stealth and free movement, thieves cannot wear armour heavier than leather and cannot use shields. They can use any weapon.

## Read Languages

A thief of 4th level or higher can read non-magical text in any language (including dead languages and basic codes) with 80% probability. If the roll does not succeed, the thief may not try to read that particular text again until they reach a higher level of experience.

## Scroll Use

A thief of 10th level or higher can cast arcane spells from scrolls. There is a 10% chance of error: the spell does not function as expected and creates an unusual or deleterious effect.

## Thief Skills

Thieves can use the following skills, with the chance of success shown opposite:

► **Climb sheer surfaces (CS):** A roll is required for each 100' to be climbed. If the roll fails, the thief falls at the halfway point, suffering falling damage.

► **Find or remove treasure traps (TR):** A roll is required to find a treasure trap and then another to remove it. This may be attempted only once per trap.

► **Hear noise (HN):** In a quiet environment (e.g. not in combat), a thief may attempt to listen at a door or to hear the sounds of something (e.g. a wandering monster) approaching.

► **Hide in shadows (HS):** Requires the thief to be motionless—attacking or moving while hiding is not possible.

► **Move silently (MS):** A thief may attempt to sneak past enemies unnoticed.

► **Open locks (OL):** Requires thieves' tools (see *Equipment*, p24). A thief can only try this skill once per lock. If the roll fails, the thief may not try the same lock again before gaining an experience level.

► **Pick pockets (PP):** If the victim is above 5th level, the thief's roll is penalised by 5% for every level above 5th.

There is always at least a 1% chance of failure. A roll of more than twice the percentage required for success means that the attempted theft is noticed. The referee should determine the reaction of the victim (possibly using the reaction table under *Encounters*, in *Core Rules*).

## After Reaching 9th Level

A thief can establish a thief den, attracting 2d6 apprentices of 1st level. These thieves will serve the character with some reliability; however, should any be arrested or killed, the PC will not be able to attract apprentices to replace them. A successful thief might use these followers to start a Thieves' Guild.

## Rolling Skill Checks

All skills except hear noise are rolled on d%, with a result of less than or equal to the listed percentage indicating success.

Hear noise is rolled on 1d6. If the roll is within the listed range of numbers, the skill succeeds.

## Player Knowledge

The referee should roll for hide in shadows and move silently on the player's behalf, as the thief always believes the attempt to be successful. If the roll fails, the referee knows that the thief has been noticed and should determine enemies' actions appropriately.

# LANGUAGES AND LEVELLING

## LANGUAGES

Characters with high Intelligence receive additional languages, chosen at the referee's discretion. If the *Classic Fantasy Monsters* book is in use, the following list may be used:

1. Bugbear
2. Doppelgänger
3. Dragon
4. Dwarvish
5. Elvish
6. Gargoyle
7. Gnoll
8. Gnomish
9. Goblin
10. Halfling

13. Kobold
14. Lizard man
15. Medusa
16. Minotaur
17. Ogre
18. Orcish
19. Pixie
20. Human dialect

If *Classic Fantasy Monsters* is not in use, the referee may create an alternative list of languages tailored to the campaign world.

## LEVEL TITLES

In some campaigns, characters gain the right to bear certain titles as they advance in level. Such titles may be granted by the guilds, colleges, or temples that PCs are associates of. Level titles often vary greatly between campaign worlds, but the following lists may be used as inspiration:

- ▶ **Cleric:** Acolyte, Adept, Priest(ess), Vicar, Curate, Elder, Bishop, Lama, Matriarch (Patriarch).
- ▶ **Dwarf:** Dwarven Veteran, Dwarven Warrior, Dwarven Swordmaster, Dwarven Hero, Dwarven Swashbuckler, Dwarven Myrmidon, Dwarven Champion, Dwarven Superhero, Dwarven Lord (Lady).

- ▶ **Thief:** Apprentice, Footpad, Robber, Burglar, Cutpurse, Sharper, Pilferer, Thief, Master Thief.

# HIGH-LEVEL PLAY (OPTIONAL RULE)

Human character classes are listed as having a maximum level of 14. This range of levels presents the best play experience, in terms of challenge and reward. Some groups, however, may wish to continue play into the extremely high levels beyond. This must be considered carefully, as demihuman PCs will be left behind, due to their strict level limits. If the referee allows continued play into higher levels, the following guidelines—allowing human characters to advance to a maximum of 36th level—may be used.

## Clerics

Require an additional 100,000 XP per level beyond 14th and gain 1 hit point per level gained. Spells of higher levels become available as the character advances.

## Fighters

Require an additional 120,000 XP per level beyond 14th and gain 2 hit points per level gained. Fighters of 20th level may make two attacks per round. This increases to three attacks per round at 25th level and four per round at 30th level.

## Magic-Users

Require an additional 150,000 XP per level beyond 14th and gain 1 hit point per level gained. Spells of higher levels become available as the character advances.

## Thieves

Require an additional 120,000 XP per level beyond 14th and gain 2 hit points per level gained. Additional skills become available to high-level thieves, including the ability to climb upside down or horizontally, voice skills such as mimicry and ventriloquism, and other skills of deception.

### Descriptions

**Backpack:** Has two straps and can be worn on the back, keeping the hands free. Holds up to 400 coins.

**Crowbar:** 2–3' long and made of solid iron. Can be used for forcing doors and other objects open.

**Grappling hook:** Has 3 or 4 prongs. Can be used for anchoring a rope.

**Hammer:** Can be used for construction or as a mallet with iron or wooden spikes.

**Holy symbol:** A divine spell caster is required to own a holy symbol of their deity, often worn as a necklace. Each religion has its own holy symbol.

**Holy water:** Water that has been blessed by a holy person. It is used in some religious rituals and inflicts damage on undead monsters (see *Weapon Combat Stats*, p27). Holy water does not retain its power if stored in any other container than the special vials it is blessed in.

**Iron spikes:** May be used for wedging doors open or shut (see *Dungeon Adventuring* in *Core Rules*), as an anchor to attach a rope to, and many other purposes.

**Lantern:** Can be closed to hide the light. Burns one oil flask every four hours (24 turns). Casts light in a 30' radius.

**Mirror:** Useful for looking around corners or for reflecting a gaze attack.

**Oil flask:** A flask of oil fuels a lantern for four hours (24 turns). In addition to fueling lanterns, oil can be used as a weapon:

- ▶ **Throwing:** An oil flask may be lit on fire and thrown (see *Weapon Combat Stats*, p27).
- ▶ **Pools:** Oil that is poured on the ground and lit covers a diameter of 3 feet and burns for 1 turn, inflicting damage on any character or monster moving through the pool.
- ▶ **Immunity:** Burning oil does not harm monsters that have a natural flame attack.

## Other Equipment

The items detailed in this section are those most commonly available for purchase. Should PCs wish to purchase items not on these lists, the referee may use the listed items as guidelines for determining the prices and characteristics of new items, including combat statistics (if appropriate).

**Pole, 10':** A 2" thick wooden pole useful for poking and prodding suspicious items in a dungeon.

**Rations, iron:** Dried and preserved food to be carried on long voyages when securing fresh food may be uncertain.

**Rations, standard:** Fresh, unpreserved food.

**Rope:** Can hold the weight of approximately three human-sized beings.

**Sack, large:** Can hold up to 600 coins.

**Sack, small:** Can hold up to 200 coins.

**Stakes and mallet:** A wooden mallet and three 18" long stakes. Valuable when confronting vampires.

**Tinder box:** Used to light fires, including torches. Using a tinder box takes one round. There is a 2-in-6 chance of success per round.

**Torch:** A torch burns for 1 hour (6 turns), clearly illuminating a 30' radius. Torches may also be used in combat (see *Weapon Combat Stats*, p27).

**Waterskin:** This container, made of hide, will hold 2 pints (1 quart) of fluid.

**Wolfsbane:** This herb can be used to repel lycanthropes. The creature must be hit with the herb in melee combat.

## Descriptions

**Lifeboat:** A small boat with a mast that folds down for storage. A small ship usually has 1–2 lifeboats, while larger ships may have 3–4. A lifeboat weighs 5,000 coins and reduces the cargo capacity of the ship on which it is carried by this much. A lifeboat is usually equipped with rations to feed ten human-sized beings for one week.

**Longship:** A narrow ship which may be used in rivers, coastal waters, or the open seas. A longship may be rowed or sailed, depending on the conditions. The crew typically fill the role of oarsmen, sailors, and fighters, as needed.

**Sailing ship, large:** A large, seaworthy vessel with up to three masts. Usually has multiple decks and raised “castles” at the bow and stern.

**Sailing ship, small:** A small, seaworthy vessel with a single mast.

**Troop transport (large, small):** These ships have similar dimensions and characteristics to normal sailing ships, but are specially designed to carry troops, mounts, and equipment of war as their cargo.

**Warship (large, small):** These ships have similar dimensions and characteristics to normal sailing ships, but are specially designed to carry mercenaries and war gear.

## Historical Periods

The vessels described in this section span various historical periods, from the ancient period to the medieval. Not all types of vessels may be available in a campaign setting.

### Descriptions

**Boat, river:** Riverboats are either rowed or pushed with poles. The cost of the boat increases by 1,000gp if it has a roof (to protect passengers or cargo).

**Boat, sailing:** A small boat typically used for fishing in lakes or coastal waters.

**Canoe:** A small boat made of hide or canvas stretched over a wooden frame. Because of its small size and lightweight construction, a canoe may be carried by two people (weighing 500 coins).

**Galley, large:** A long ship with a shallow draft and a single, square-sailed mast.

**Galley, small:** A ship with a shallow draft and a single, square-sailed mast.

### Vessel Dimensions

A ship's *beam* is its width and its *draft* is the depth it extends beneath the water.

**Galley, war:** A large, specially constructed galley that is generally a fleet's flagship. War galleys are always fitted with a ram (comes with the basic cost) and have a full deck above the rowers. They have two masts and 10'–20' wide wooden towers rising 15'–20' above the bow and stern.

**Raft, makeshift:** Given sufficient wood, characters may build a makeshift raft in 1–3 days per 10' square section (up to a maximum size of 20' × 30').

**Raft, professional:** A professionally built raft has raised sides, a basic steering oar, and some form of shelter for goods or passengers. Such a raft may be up to 30' × 40'. Professionally built rafts are sometimes floated downstream with cargo and then broken down and sold for the value of their wood (25cp per square foot).

\* Crew act as rowers, sailors, and fighters.

\*\* May be piloted by unskilled characters.

## Crew

Vessels are propelled by rowing or sailing, with some able to use either means. The necessary crew and the resulting speeds are given in the table above. The pay rates for crew are listed in *Specialists, p38*.

## Ship Modifications

The following modifications may be made to an existing ship:

- ▶ **Warship:** A sailing ship may be converted into a warship or troop transport of the same size. The modification costs one-third of the ship's original cost.
- ▶ **Catapult:** A catapult may be added to a galley, longship, or warship.
- ▶ **Ram:** A ram may be added to a large or small galley (a war galley already comes with a ram fitted).

## Rams

Can be used against ships or giant sea monsters. Small individuals cannot be targeted.

**Attack rolls:** Are made using a THAC0 of 19 [0] and occur at the same point in the combat sequence as missile fire.

**Attack modifiers:** May be applied for weather conditions, manoeuvrability, etc.

**Large or war galley:** Deals 1d6+5 × 10 hull points damage against ships and 6d6 hit points damage against monsters.

**Small galley:** Deals 1d4+4 × 10 hull points damage against ships and 3d8 hit points damage against monsters.

## Catapults

Fire either large rocks or flaming pitch.

**Weight:** A catapult plus twenty rounds of shot weighs 10,000 coins (subtracted from the ship's cargo allowance).

**Range:** 150–300 yards.

**Attack rolls and rate of fire:** Depend on the number of crew manning the catapult:

- ▶ **2 crew (minimum):** Attacks with THAC0 19 [0]. Fires every 10 rounds.
  - ▶ **3 crew:** Attacks with THAC0 19 [0]. Fires every 8 rounds.
  - ▶ **4 crew (maximum):** Attacks with THAC0 17 [+2]. Fires every 5 rounds.
- Attack modifiers:** May be applied for weather conditions, manoeuvrability, etc.

## Catapult Shot

Inflicts 3d6 hull damage against ships.

## Catapult Shot, Pitch

Sets a 10'×10' area of a ship on fire. The burning does 1d6 hull points of damage per turn (for at least one turn) and will spread to other areas of the ship if not extinguished. A fire may be put out by five crew in 3 turns, ten crew in 2 turns, or fifteen crew in 1 turn.

## Ship Weaponry

| Item                 | Cost (gp) |

| Ram, large galley    | 10,000    |
| Ram, small galley    | 3,000     |

# HIRELINGS

## MERCENARIES

Hired soldiers who will guard, patrol, and otherwise serve in wilderness settings, but only as part of a larger force, not an adventuring party.

Note that as mercenaries are hired by a character to perform specific services, they are not treated as retainers and thus do not count toward a character's maximum number of retainers.

### Wages

**Outside of wartime:** As listed opposite.

**During wartime:** All wages are doubled.

### Upkeep

The monthly rate of pay includes food and basic gear. Most mercenaries already have weapons and armour when hired, though their employer may give them additional gear. Note that armourers are required to repair mercenaries' armour and weapons (see *Specialists*, p38).

# SPECIALISTS

All types of characters that PCs may wish to hire for non-combat and non-adventuring purposes (i.e. not mercenaries or retainers) are termed *specialists*.

Note that as specialists are hired by a character to perform specific services, they are not treated as retainers and thus do not count toward a character's maximum number of retainers.

The most common types of specialists are described, along with their typical monthly pay rates. This list is not exhaustive and the referee may create additional types of specialists as needed.

## Wages and Upkeep

The monthly rate of pay includes food and basic gear.

## Alchemist

**Recreating potions:** Based on a sample or recipe, an alchemist can produce a potion at twice the normal speed and for half the normal cost (see *Magic: Magical Research* in *Core Rules*).

**Researching potions:** An alchemist may also research new potions, but this takes twice as long and costs twice as much as normal.

## Animal Trainer

Trainers are not required for small numbers of common animals like dogs, horses, or mules, but more exotic animals or larger numbers of normal animals require a specialized trainer.

**Speciality:** All animal trainers are specialized in a particular kind of animal.

**Number of animals:** A trainer can have up to six animals under their care at a time.

**Time required:** The referee decides how long an animal must be trained, based on the nature of the training. It will take a minimum of one month to teach an animal the first new behaviour or trick. After this first month, an animal has become accustomed to the trainer and can be taught additional behaviours at twice the rate (two weeks per behaviour).

**Interruptions:** If training is interrupted, all time already spent on that particular behaviour is lost and the animal becomes unable to learn further behaviours.

## Armourer

**Producing weapons and armour:** Per month, an armourer can make five weapons, three shields, or one suit of armour.

**Maintaining mercenaries' gear:** A dedicated armourer is required per 50 troops.

**Assistants:** An armourer's output (either in terms of arms produced or troops maintained) may be doubled by hiring two *assistant armourers* and one *blacksmith*. If four assistants and two blacksmiths are hired, the armourer's output may be quadrupled. An armourer cannot coordinate more assistants than this.

## Assistant Armourer

Apprentices who may work under an armourer to increase the rate of production. See *Armourer*.

## Blacksmith

Craftsmen trained in the art of forging metal. Blacksmiths may be hired to work under an armourer to increase the rate of production. See *Armourer*.

## Engineer

Engineers plan and oversee large construction projects such as building strongholds (see *Construction*, p42).

**Number required:** One engineer is needed per 100,000gp cost of the project.

**Specialty:** Humans usually handle over-ground structures, while dwarves may be hired for underground construction.

## Navigator

A navigator is a sailor who understands how to read charts and navigate based on instruments and the position of the stars. Any time a ship ventures beyond sight of a coastline, it becomes lost if a navigator is not aboard. (See *Waterborne Adventuring* in *Core Rules*.)

## Oarsman

Unskilled normal humans who man the oars of sea vessels. Not trained for combat.

## Sage

Sages are very rare individuals who devote their lives to the study of obscure knowledge. A sage may be consulted to answer unusual questions.

**Time and cost:** The referee must judge the time and cost required to research the answer to a question.

**Chance of success:** There is never a 100% chance of success in finding an answer.

## Sailor

Skilled normal humans who can handle a ship. Sailors can fight to defend their ship, typically being equipped with a sword, shield, and leather armour.

## Ship's Captain

A captain is required for any large ship, is skilled like a sailor, and has an intimate knowledge of the particular coasts they frequent.

## Spy

A spy is hired to gather information about a person or group. The spy may be an outsider who tries to infiltrate or may be a traitor already connected with the person or group to be spied upon.

**Class:** Spies are often NPC thieves, but may be of any character class.

**Time:** The referee will determine the time required for the job.

**Chance of success:** The referee judges the probability of success in the mission, based on the circumstances.

**Reliability:** Spies may or may not be reliable and could stab the hiring character in the back (perhaps literally!).

# STRONGHOLDS

## CONSTRUCTION

When PCs wish to construct strongholds or any other type of building, the following procedure should be used:

1. **Permission:** It may be necessary to secure permission to build from an existing authority over the land. This may not be required if the land is uncharted wilderness.
2. **Clear land:** If the construction site is in the wilderness, all monsters in a 6-mile area (i.e. one hex on a typical small-scale wilderness map) must be killed or driven off.
3. **Design:** The player creates a plan for the stronghold and calculates the costs (see construction prices overleaf).
4. **Review:** The referee should review and approve the player's plans.
5. **Hire engineers:** For every 100,000gp cost of the stronghold, the PC must hire one engineer (see *Specialists*, p38).
6. **Construction:** Once the land has been cleared and construction materials delivered, construction may commence. The time required depends entirely on the stronghold's total price: one day of game time per 500gp.
7. **Prepare for settlers:** If the PC wishes to found a dominion and attract settlers, a wider area around the stronghold should be cleared of dangers.

### Building in Towns

**Permission:** While local rulers may allow PCs to build in a town, it is unlikely that they will grant permission for the construction of castles or fortifications.

**Costs:** When building in an existing town or city, the proximity of materials and labour greatly reduce the costs.

- ▶ **Stone buildings:** Reduced by 60%.
- ▶ **Wooden buildings:** Reduced by 80%.

# DOMAINS

## Maintaining Cleared Lands

To prevent monsters from returning to cleared lands, mercenaries may be hired to conduct patrols. These patrols can cover a maximum radius of 18 miles around a stronghold (6 miles, in inhospitable terrain such as swamp, mountains, or thick jungle). If the area to be maintained is larger, additional garrisons must be stationed at intervals.

## Settlers

The PC may wish to attract settlers into a cleared area. In addition to ensuring the safety of surrounding lands, the character will have to fund construction of other buildings (e.g. accommodation, commercial facilities, transport infrastructure, etc.) to attract settlers. Advertising may also be necessary. The referee will determine the costs involved and how many settlers are attracted.

## Taxation

If settlers move into the PC's domain, the character can expect to gain 10gp of taxes per year from each settler.

# STRUCTURES

| Tower, small             | 15,000gp |
| Wall, castle             | 5,000gp  |

## Descriptions

**Barbican:** Heavily fortified entry/exit point in a castle wall: two small towers, a gatehouse, and a drawbridge.

**Bastion:** Semi-circular tower built against a castle wall. 30' base, 30' high, walls 5' thick.

**Civilian building, stone:** Two levels; wooden stairs, doors, floors, and roof; attic. Outer wall 120' long (e.g. 30'×30'), walls 1–2' thick.

**Civilian building, wood:** Two levels; wooden stairs, doors, floors, and roof; attic. Outer wall 120' long (e.g. 30'×30').

**Drawbridge:** Raisable wooden bridge crossing a moat. May be attached to a gatehouse. 10' long.

**Gatehouse:** Fortified entry/exit point in a castle wall. Includes a portcullis. 30'×20' base, 20' high, walls 5' thick.

**Keep:** Fortified, central building of a castle. 60' square, 80' high, walls 10' thick.

**Moat:** Defensive ditch, often filled with water. 100' long, 20' wide, 10' deep.

**Subterranean passage:** Typical 10'×10'×10' dungeon passageway.

**Tower, large:** Round tower, either free-standing or built into a castle wall. 30' base, 40' high, walls 5' thick.

**Tower, small:** Round tower, either free-standing or built into a castle wall. 20' base, 30' high, walls 5' thick.

**Wall, castle:** Stone wall with battlements. 100' long, 20' high, 10' thick.

## Non-Standard Dimensions

### Bastions

Bastions of dimensions other than those listed may be constructed. Use the guidelines for towers, below, and divide by two.

### Castle Walls

Higher castle walls may be constructed at increased cost. A 100' length of 30' high wall costs 7,500gp. Every additional 10' of height beyond this (up to a maximum of 60' high) costs 5,000gp.

### Towers

Towers of dimensions other than those listed may be constructed. The cost is determined by the height of the tower and the diameter of its base (in feet).

- ▶ **Maximum height:** Twice the base diameter.
- ▶ **Up to the base diameter:** Each 10' of height costs 200gp × the base diameter.
- ▶ **Above the base diameter:** Each 10' of height costs 400gp × the base diameter.

### Example Tower Cost Calculation

A 60' high tower with a 40' diameter base is to be constructed.

The cost will be 8,000gp (40 × 200gp) per 10' for the first 40' of height and 16,000gp (40 × 400gp) per 10' for the remainder of the height.

The total cost is thus (8,000gp × 4) + (16,000gp × 2) = 64,000gp.

## Interior Features

The common interior features of a stronghold are listed in the table below.

### Simple Approach

For simplicity, the cost of a stronghold may be increased by 25% to account for interior details, including: reinforced doors, stone stairs, flagstone flooring,

tile roofing, windows or arrow slits, bars and shutters on windows, and standard furnishings.

### Detailed Approach

If the group wishes to perform more detailed calculations or if additional features are desired, the table below may be consulted.
