INTRODUCTION

ADVANCED MONSTERS

The 1970s Advanced edition of the world's most popular fantasy RPG is venerated by old-school gamers for its myriad weird and wonderful monsters, and the delicious, esoteric flavour that oozes from its pages.

This book brings a selection of those creative, wondrous, and terrifying monstrosities into the *Old-School Essentials* game, all carefully adapted to the game's level of power and mechanical complexity.

Saving Throws

A small number of monsters in this book save as a member of a specific character class, of a particular level. Their saving throw values are thus drawn from the saving throw table for that class, rather than from the standard monster table.

In this case, the equivalent character class and level are listed in parentheses after the saving throw values.

Persons

The following monsters in this book are classified as “persons”, for the sake of magical effects: brownie, dark creeper, deep one, drow, duergar, gullygug, sea hag, homunculus, leprechaun, mutoid, mycelian, sahuagin, svirfneblin, triton.

Thanks

To the fearless proofreaders who have helped make this book shine: Chris Barnes, Ryan Frans, Cory Gahsman, Daniel Harkins, Robert Mackie, Matt Morrissette, Michael Ramoneda, Thorin Thompson, Shawn Witham.

REQUIRED BOOKS

Old-School Essentials Classic Fantasy

This book is a supplement for the *Old-School Essentials Classic Fantasy* game.

Advanced Fantasy: Genre Rules

A small number of monsters have the abilities of a character class described in the *Advanced Fantasy: Genre Rules* book. If this book is not in use, replace the abilities of the specified classes with those of alternative classes.

A Note About Devils and Demons

Despite their presence in the original Advanced monster books, devils and demons are not included here. They will be featured in a future supplement devoted entirely to the fiendish denizens of other planes.
