

Troubleshoot Harder, Not Smarter

Anyone who makes a Brains roll gains a Treason Star while this card is active. Discard when a Troubleshooter **either** 1) gets terminated for too many Treason Stars or 2) terminates a traitor and has evidence to back it up.

Sippy Orange Fizz-Pop: It's DE-licious!

The next time the GM mentions "Sippy Orange Fizz Pop", all players must exclaim "It's DE-licious!" The first or most enthusiastic player gains 2 Moxie points. The last/weakest player loses 2 Moxie Points.

Periodic Table of Security Clearances

Choose a player, preferably at an inopportune time, and probably not yourself. They are required to name off all security clearance ranks, in order, both frontways and back, while also announcing the name of their best friend between each rank. For each incorrect statement, they lose 1 Moxie, and you gain 1 moxie, until you are full or they are out.
