Acts 1 and 2:

Act 3:

### How Many Dice Do I Roll and What Do I keep?

-2	-1	0	+1	+2
<b>4 dice</b> (add together the 2 lowest results)	<b>3 dice</b> (add together the 2 lowest results)	<b>2 dice</b> (add together the two results)	<b>3 dice</b> (add together the 2 highest results)	<b>4 dice</b> (add together the 2 highest results)

This table is open-ended in both directions. Simply keep adding an extra die to the roll and keep the two lowest results or highest results, whichever is appropriate.

### Intention Results

Die Total:	What Happens:
2-6	The character fails.
7-9	The player has a choice: <i>Fail and maintain control of their character OR Succeed and cede control of their character.</i>
10+	The character succeeds.
