PLAYER'S GUIDE

COMBAT ACE [UPDATE]

With this Edge, the pilot of a vehicle ignores the multi-action penalty for making a Boating, Driving, or Piloting check and firing a weapon on the same round, or if piloting Robot Armor, the multi-action penalty for firing a second weapon.

CYBER-KNIGHT LIGHT ARMOR (TW) [UPDATE]

Most suits of this style combine chain and composite plating in a classical or modern look, maximizing protection regardless of appearance. A light suit is slightly concealable (anyone looking carefully can detect it with a Notice roll), very flexible, and magically designed to enhance the wearer's mobility. Light Armor suits provide +4 Armor; they also have enchantments to greatly reduce their weight and grant the wearer +2 Pace and +1" to leaping distances. Like all Cyber-Knight armor, it provides Full Environmental Protection while powered. Finally, the Light Armor has the *wall walker* power. Without power, the armor loses all abilities except +4 Armor. (2 lb./9 lb. without power, 90,000 credits)
