Success with arcane protection means hostile powers suffer a -2 penalty (-4 with a raise) to affect this character. If the power causes harm, damage is also reduced a like amount. Arcane protection stacks with Arcane Resistance should the recipient have both!	Banish sends entities from immaterial planes back to their native dimensions. This includes ghosts, demons, elementals, and similar beings (at the GM's discretion). Banishing a being is an opposed roll of the caster's arcane skill versus the target's Spirit. Success means the target is Shaken, and each raise causes a Wound. If this Incapacitates the target it returns to its native plane of existence. Banished entities may return when the Game Master feels it's appropriate, such as the next full moon, when summoned again, or even a few rounds later if it's a particularly powerful creature under the right conditions or in a location of power.	Barrier creates a straight wall 5" (10 yards) long and 1" (two yards) tall, of immobile material that conforms to the surface it's cast upon. Thickness varies depending on what the wall is made of, but is usually a few inches. The wall has a Hardness of 10, and may be destroyed as any other object (see <b>Breaking Things</b> , in Savage Worlds core rules). When the spell expires or the wall is broken it rumbles to dust or dissipates. Trappings are never left behind.	This spell allows an individual to speak with and guide the actions of nature's beasts. The cost to cast is equal to the sum of their Size (minimum 1 per creature). Controlling five wolves (Size 0) costs 5 points, same as a single rhino (Size 5). Success means the creatures obey simple commands, like a well-trained dog. They attack foes and endanger like is for their master. A raise on the arcane skill roll means the beasts are more obedient. They won't kill themselves but overcome their natural fears to follow their orders. Swarms can also be controlled. Small Swarms cost 1 point, Medium Swarms cost 2, and Large Swarms cost 3. <i>Beast friend</i> works only on natural creatures with animal intelligence, not humanoids, and has no effect
<b>ADDITIONAL RECIPIENTS (+1):</b> The power may affect more than one target for 1 additional Power Point each.		<ul> <li>anyone who contacts it.</li> <li>HARDENED (+1): The wall is Hardness 12.</li> <li>SHAPED (+2): The barrier forms a circle, square or other basic shape.</li> <li>SIZE (+1): The length and height of the barrier doubles.</li> </ul>	on conjured, magical, or otherwise "unnatural" animals <ul> <li>MIND RIDER (+1): The caster can communicate and sense through any of the beasts he's befriended.</li> </ul>
BLAST	BLIND Power Points Range Duration	OVICE BOIT	BOOST/LOWER TRAIT
Power Points         Range         Duration           3         Smarts×2         Instant	Power PointsRangeDuration2SmartsInstant	Power PointsRangeDuration1Smarts×2Instant	Power Points Range Duration 2 Smarts 5 / Instant
<i>Blast</i> launches a ball of explosive energy or matter. 'he area of effect is a Medium Blast Template. Every arget within suffers 2d6 damage, or 3d6 with a raise.	Those affected by this malicious power suffer blurred vision or near-complete <i>blindness</i> with a raise. Success means the victim suffers a -2 penalty to all actions requiring sight, or -4 with a raise. The victim automatically tries to shake off the effect with a Vigor roll as a free action at the end of his following turns. Success removes 2 points of penalties, and a raise removes the effect entirely.	Bolt sends damaging bursts of energy, streaks of holy light, or shards of matter toward one's foes. There are no Range penalties, but the arcane skill roll is affected by Cover, Illumination, and all other usual penalties. The damage of the bolt is 2d6, or 3d6 with a raise.	This power allows a character to increase or decrease a target's Trait. Boosting an ally's Trait increases the selected Trait one die type, or two with a raise, for five rounds. Lowering an enemy's Trait reduces the selected attribute or skill a die type with success, or two with a raise (to a minimum of d4). A victim automatically tries to shake off the effect with a Spirit roll as a free action at the end of his following turns. Success improves the effect one die type, and a raise removes the effect entirely. Additional castings don't stack on a single Trait (take the highest), but may affect different Traits.
			<b>ADDITIONAL RECIPIENTS (+1):</b> The power may

Dispelling an opponent's power is an opposed roll of arcane skills (-2 if target power is of another type).

If the dispelling character wins, the targeted power ends immediately (or fails if it was countered). With a raise, the recipient of the dispelled power is also Distracted.

**POWER (+1):** For +1 Power Points, dispel can disrupt enchanted devices for one round, or two with a raise. The difficulty to do so is -2 for permanently enchanted items such as found in most swords & sorcery campaigns, or -4 for divine or legendary relics.

the GM decides. A raise means the spirit is more helpful, knowledgeable, or direct than usual.

The type of entity contacted determines how it communicates. Spirits in the netherworld tend to know only those things pertinent to their life and death. Likewise, nature spirits know only about their local environs, demons know only about the affairs they're directly involved in, and so on. The Game Master must decide what the entity knows based on its background, origin, and personality.

Once a spirit has been conversed with it may not be

contacted again for 24 hours.

Success drains 1d6 of the rival's Power Points (if any,

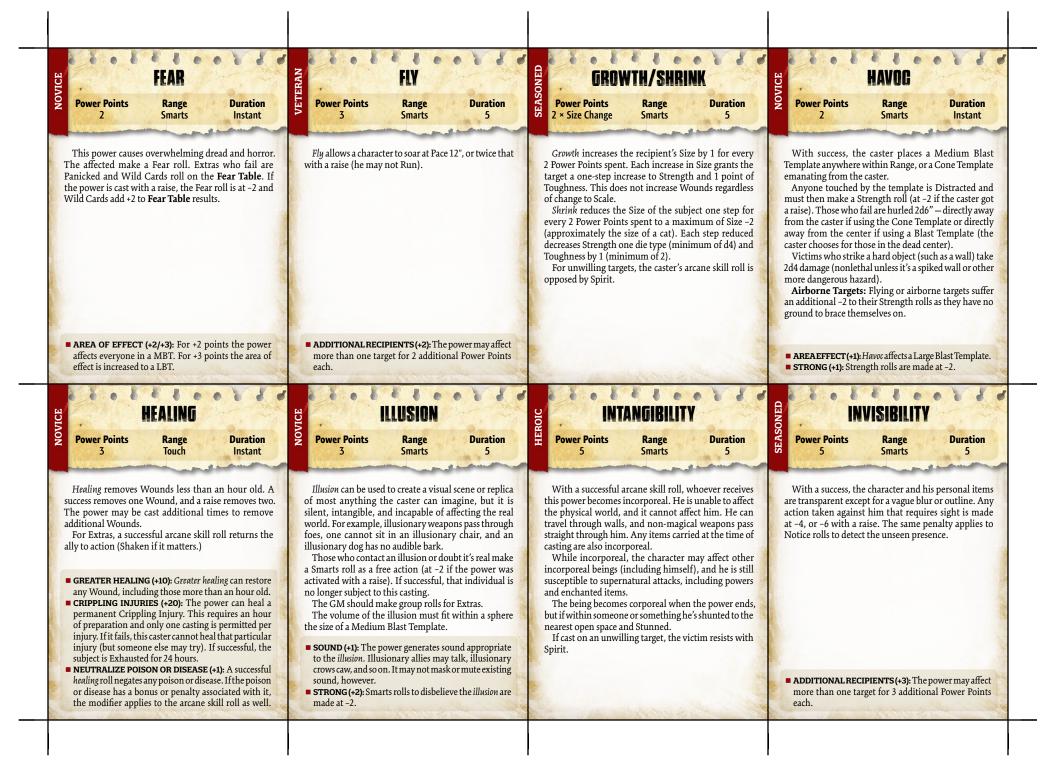

and the die doesn't Ace). With a raise, the caster adds the points to her own. This may take her above her usual maximum!

They last until used, and must be the first spent when casting.

Drain Power Points can also be used on an arcane device (the creator still resists with her arcane skill whether she wields it or not). The device can't lose more Power Points than it has.

- cool someone down (+2 to Fatigue rolls in oppressive heat).
- **EARTH:** Move a square foot of earth (half that in stone) each round, cover tracks.
- **FIRE:** Conjure flame about the size of a torch, hurl a small blast of fire at someone (Str damage), spread existing flame.
- **WATER:** Conjure a quart of water (not "inside" objects or people), purify a gallon of water per casting.

EMPATHY Power Points Range 1 Smarts 5	ENTANGLE Power Points 2 Range Smarts Duration Instant	ENVIRONMENTAL PROTECTION Power Points 2 Range Smarts Duration One hour	FARSIGHT Power Points Range 2 Smarts 5
The caster forms an emotional bond between himself and the target with a successful arcane skill vs spirit roll. He knows the target's emotional state and most basic surface thoughts, and gains +1 (+2 with a raise) to Intimidation, Persuasion, Performance, or Junt rolls against him. <i>Empathy</i> also works on animals, adding +2 to Riding or other rolls used to interact with the creature.	Entangle allows the caster to restrain a target with ice, bands of energy, or other vine like Trappings (Hardness 5). If successful, the target is Entangled. With a raise, he's Bound. Wittims may break free on their turn as detailed in Bound & Entangled.	Environmental protection allows the target to breathe, the seak, and move at his normal Pace in an otherwise tata environment. The protects him against intense heat, cold, radiation, for fluid pressure, and lack of oxygen, Generally, the adventurer can function normally underwater, in space, within the cone of a volcano, etc. If tails quickly (1dd rounds) in the presence of super tails quickly (1dd rounds) in the presence of super tails quickly (1dd rounds) in the presence of super tails quickly (1dd rounds) in the presence of super tails quickly (1dd rounds) in the presence of super tails quickly (1dd rounds) in the presence of super tails quickly (1dd rounds). She can read lips or read fine print up to a mile distant. With a raise, she also halves Range penalties for Shooting, Athletics (throwing), or other abilities affected by Range.
	<ul> <li>affects everyone in a MBT. For +3 points the area of effect is increased to a LBT.</li> <li>STRONG (+2): The <i>entangling</i> material is particularly resilient. Rolls to break free are made at -2 and its Hardness increases to 7.</li> </ul>	• ADDITIONAL RECIPIENTS (+1): The power may affect more than one target for 1 additional Power Point each.	• ADDITIONAL RECIPIENTS (+1): The power may affect more than one target for 1 additional Power Point each.

Power Points Range Duration 2 Smarts 10 minutes	MIND LINK           Power Points         Range Smarts         Duration 30 minutes	Power Points 2 Range Smarts Duration Instant	Power Points Range Durati 3 Smarts Instar
Light creates bright illumination in a Large Blast Template. With a raise, the light can be focused into a 5" (10 yard) beam as well. Darkness blocks illumination in an area the size of a Large Blast Template, making the area Dark, or Pitch Darkness with a raise. If light and darkness overlap, they create a patch of Dim light (-2).	Mind link creates a telepathic connection between two individuals (which does not necessarily have to include the caster). The link accommodates only willing subjects and communication – thoughts that aren't consciously transmitted aren't relayed. Once activated, the Range between all linked minds is one mile, or five with a raise. If any of the linked characters suffers a Wound, all others must make a Smarts roll or be Shaken (this cannot cause a Wound). The speed of communication is that of normal speech, but with a raise members may communicate up to 30 seconds or so of speech on a single combat turn.	Mind reading is an opposed roll versus the target's Smarts. Success allows the character to gain one truthful answer from the subject. The target is aware of the mental intrusion unless the mind reader gets a raise. The GM may apply modifiers based on the subject's mental Hindrances or current state of mind.	Mind wipe removes a target's memories, a terr violation in most civilized societies. The powe opposed by a victim's Smarts and requires a full min of mental struggle. The victim must be consc during this time, so if not restrained he can sin move out of Range. If successful, the victim forgets a single event (u about 30 minutes of time). A raise removes a com memory of several hours. If the defender wins, caster cannot affect him with mind wipe for 24 he (Others may reattempt the power, however.) The memory remains missing but strong evide that challenges its "logic" allows a Smarts roll at - remember fragments determined by the GM.
• MOBILE (+1): The caster can move the area of effect up to his arcane skill die type each round after casting, or attach it to an inanimate object when first cast.	<ul> <li>ADDITIONAL RECIPIENTS (+1): The power may affect additional individuals for 1 additional Power Point each.</li> </ul>		<ul> <li>EDIT (+1): Instead of wiping the memory, the caredits it as she sees fit.</li> <li>FAST CAST (+2): The caster can wipe a memory a action.</li> </ul>
OBJECT READING           Power Points         Range         Duration           2         Touch         Special	PROTECTION Power Points 1 Range Smarts 5	PUPPET Power Points 3 Range Smarts 5	RELIEF Power Points Range 1 Smarts Duratic Instan
Object reading is the ability to see the past of an inanimate object, discovering who held it, where it's been, and what it might have been used for. The object has no sentience of its own – the caster simply sees and hears visions of the past that took place in its presence. Success allows the character to see events that occurred within 10 yards up to about five years past. A raise increases this to 100 years and 20 yards. The caster can "fast forward" and "rewind" as desired, skimming about 10 years of history per minute of real time. When watching an actual event, it occurs in real time, just as if watching a digital video.	Protection creates a field of energy or armor around a character, giving him 2 points of Armor, or +4 with a raise. Whether the protection is visible or not depends on the Trapping – this is entirely up to the caster. Protection doesn't normally stack with other armor, but see the <b>Toughness</b> modifier.	Puppet is an opposed roll of the character's arcane skill versus the target's Spirit. With success, the victim automatically obeys commands that don't directly harm himself or those he cares about. With a raise, the target is completely controlled, but gets an automatic Spirit roll as a free action to avoid directly harming himself or those he cares about. If the puppet's resistance succeeds, he doesn't carry out that particular command but doesn't otherwise resist his master. With a raise, he breaks the controller's hold and the power ends. Commands are general, such as "attack that person"	<i>Relief</i> removes one Fatigue level, or two with a r It can also remove a character's Shaken status, removes Stunned status with a raise.
	<ul> <li>ADDITIONAL RECIPIENTS (+1): The power may affect additional targets at a cost of 1 Power Point each.</li> <li>MORE ARMOR (+1): Success grants 4 points of Armor (+6 with a raise).</li> <li>TOUGHNESS (+2): Protection provides Toughness</li> </ul>	or "open that door." The controller doesn't get to dictate how many actions the victim uses in a turn, whether or not he uses his Sweep Edge, etc.
