

Art © Billiam Babble Inked Adventures 2012.

Permission is given for printing, rescaling of the above graphic for personal non-commercial use.

Assemblage of the Savage Cellar

The lighter coloured "tabs" are intended merely as a suggestion for players who wish to print to paper or card, and then connect with glue or tape. Printing to foam-card may require alternative methods of connection (discard the tabs) Slight inaccuracies in dimensions may be partly due to the hand-drawn art. Remember to print at 100% scale wherever possible – one square needs to be as close to 1inch or 25mm as possible.

Why not also try cutting out elements for props to use with your other floor plans? Compatible with the Inked Adventures Modular Dungeon Sections – although some trimming of the wall border may be required for an "exact fit".
