THE REQUIEM

Storyteller's Screen

Combat Summary Chart

Stage One: Initiative

- Everyone rolls Initiative: The result of a die roll + Dexterity + Composure. The character with the highest Initiative performs her action first. Or you may yield your character's action until later in the Initiative queue or into the next turn.

Stage Two: Attack

- Unarmed close combat: Strength + Brawl, – target's Defense and armor
- Armed close combat: Strength + Weaponry, – target's Defense and armor
- Ranged combat (guns and bows): Dexterity + Firearms, – target's armor
- Ranged combat (thrown weapons): Dexterity + Athletics, – target's Defense and armor

Add bonus dice based on weapon used or effect performed, and then subtract penalties for circumstance conditions. Roll your remaining pool. Each success equates to a Health point of damage inflicted, the type of which is determined by the nature of the attack.

The Storyteller describes the attack and wound in narrative terms.

Possible Modifiers

- **Aiming:** +1 per turn to a +3 maximum
- **All-Out Attack:** +2 with Brawl or Weaponry attack; lose Defense
- **Armor Piercing:** Ignores amount of target's armor equal to item's own rating
- **Autofire Long Burst:** 20 or so bullets at as many targets as the shooter wants, pending Storyteller approval. A +3 bonus is applied to each attack roll; –1 per roll for each target if there's more than one
- **Autofire Medium Burst:** 10 or so bullets at one to three targets, with a +2 bonus to each attack roll; –1 per roll for each target if there's more than one
- **Autofire Short Burst:** Three bullets at a single target with a +1 bonus to the roll
- **Concealment:** Barely –1; partially –2; substantially –3; fully, see "Cover"
- **Dodge:** Double target's Defense
- **Drawing a Weapon:** Requires one action (one turn) without a Merit, and could negate Defense
- **Firing from Concealment:** Shooter's own concealment quality (–1, –2 or –3) reduced by one as a penalty to fire back (so, no modifier, –1 or –2)
- **Offhand Attack:** –2 penalty
- **Prone Target:** –2 penalty to hit in ranged combat; +2 bonus to hit when attacker is within close-combat distance
- **Range:** –2 at medium range, –4 at long range
- **Shooting into Close Combat:** –2 per combatant avoided in a single shot (not applicable to autofire)
- **Specified Target:** Torso –1, leg or arm –2, head –3, hand –4, eye –5
- **Surprised or Immobilized Target:** Defense doesn't apply
- **Touching a Target:** Dexterity + Brawl or Dexterity + Weaponry; armor may or may not apply, Defense does apply
- **Willpower:** Add three dice or +2 to a Resistance trait (Stamina, Resolve, Composure or Defense) in one roll or instance

Grappling Summary

- Roll Strength + Brawl – opponent's Defense for attacker to get a grip on target.
 - Target's next action can be dedicated to breaking free. Roll Strength + Brawl – attacker's Strength. Any successes indicate breaking free.
Or, the target can attempt to apply an overpowering maneuver to the attacker, participating in the grapple rather than trying to break free. Roll Strength + Brawl – attacker's Strength. Any successes allow for a maneuver (see below).
 - If the attacker's grip on the target persists, and he is free to do so, the attacker can try to apply an overpowering maneuver to the victim. Roll the attacker's Strength + Brawl – opponent's Strength. Any successes allow a maneuver (see below).
 - Possible maneuvers. Choose one:
 - Render opponent prone
 - Damage opponent
 - Immobilize opponent
 - Draw weapon
 - Attack with drawn weapon
 - Turn a drawn weapon
 - Disarm opponent
 - Use opponent as protection from ranged attacks
- Attempting to break free is always an option instead of performing an overpowering maneuver.

Type: Your character may use many other types of weapons (meat cleavers, halberds, hammers). Use the traits from the above lists that best approximate those weapons. See p. 136 for determining the traits of improvised weapons. Note that improvised weapons automatically suffer a –1 penalty.

Damage: The number of bonus dice added to dice pools when using the weapon. The type of damage inflicted is also indicated: aggravated (A), lethal (L) or bashing (B).

Size: 1 = Can be hidden in hand, 2 = Can be hidden in coat, 3+ = Cannot be hidden. Size is also used to indicate the minimum Strength needed to use a weapon effectively. A wielder with a lower Strength suffers a –1 penalty on attack rolls.

Cost: The minimum dots in the Resources Merit usually required to purchase the weapon. The "n/a" entry indicates that the item can be created rather than purchased.

† This weapon requires two hands. If used one-handed, the Strength requirement increases by one. You need a Strength of 4 to wield a greatsword one-handed without penalty, for example.

* This weapon uses the Brawl Skill instead of Weaponry.

** Katanas are well-crafted swords. They do not break easily. See "Targeting Items," *WoD* p. 138.

*** The attacker must target the heart (–4 penalty) and do a minimum of three points of damage in a single attack.

**** The spear-wielder gains a +1 Defense bonus when fighting unarmed targets due to his weapon's superior reach, allowing him to keep a greater distance from a foe.

Damage: Indicates the number of bonus dice added to your dice pool for using the weapon. Firearms deliver lethal damage against ordinary people. The type of damage may vary against supernatural enemies such as vampires, which suffer only bashing damage from conventional firearms.

Ranges: The numbers are short/medium/long ranges in yards. Attacks at medium and long range suffer a -2 and -4 penalty, respectively.

Clip: The number of shells a gun can hold — a "+1" indicates a bullet can be held in the chamber, ready to fire.

Strength: The minimum Strength needed to use a weapon effectively. A wielder with a lower Strength suffers a -1 penalty on attack rolls.

Size: 1 = Can be hidden in hand, 2 = Can be hidden in coat, 3 = Cannot be hidden on one's person

Cost: The minimum dots in the Resources Merit usually required to purchase the weapon.

† This weapon requires two hands. If used one-handed, the Strength requirement increases by one. You need a Strength of 4 to wield a shotgun one-handed without penalty, for example.

* Indicates that the weapon is capable of autofire (short bursts, medium bursts and long bursts — see p. 160.)

** Crossbows require three turns to reload. A character may use a crossbow to attempt to stake a creature with a targeted shot (-4 penalty and a minimum of three points of damage must be inflicted in a single attack).

* This type of armor is bulletproof.

Rating: Armor provides two kinds of protection: against general attacks and against Firearms attacks. The number before the slash is armor rating for most kinds of attacks (for close combat and thrown ranged attacks, whether bashing, lethal or perhaps aggravated). The second number is for Firearms attacks — guns and bows. Bulletproof armor (kevlar vest, flak jacket and full riot gear) also downgrades damage done in Firearms attacks from lethal to bashing.

Strength: Armor is often heavy and cumbersome. If your character does not have sufficient Strength to wear it, she cannot perform at peak efficiency. If your character's Strength is lower than that required for armor worn, her Brawl and Weaponry attacks suffer a -1 penalty.

Defense: The penalty imposed on your character's Defense trait for the armor worn.

Speed: The penalty imposed on your character's Speed trait for the armor worn.

Cost: The minimum dots in the Resources Merit usually required to purchase the armor.

Cost: The minimum dots in the Resources Merit usually required to purchase the explosive. The "n/a" entry indicates that the item can be created rather than purchased.

* Incendiary devices ignite the target (see "Fire"). Damage delivered by the explosion is bashing, while damage caused by the fire is lethal.

** Concussion explosives deliver bashing damage and knock the target down (see "Knockdown," WoD p. 168).

*** Timed or triggered bombs that hold a variable amount of dynamite, plastique or other explosive cause damage to surrounding structures and ignite flammable materials, which complicates damage. The figures listed are suggestions only.
