Special Alien Abilities: Chose two Special Alien Abilities at 1st level. The same Ability may be chosen more than once.

- +1 to all Saving Throws or +2 to a Saving Throw versus a specific threat (Radiation, explosions, disease, poison, mind control etc.)
- -1[+1] Armor Class.
- +1 Hit Point per level.
- +1 To-Hit and Damage with all attacks.
- Natural Weapon (1d6 Damage).
- Extra Sense which is better or non-existent in a "normal" humanoid such as dark vision, keen sense of smell, echolocation, or acute hearing.
- Fly at the character's normal movement rate.
- Able to use all weapons and armor.
- Any other ability the player can dream up with Game Master's approval.

The player should describe why the character has the ability. For example, an Armor Class bonus could from a leathery hide, exoskeleton, or fast reflexes.

Astromancer

Reality is an illusion. The order of the universe is only a facade. With the secrets of the Ancients and the correct Quantum resonance, you can warp reality to your will and stare into the true face of the chaotic universe.

Weapons & Armor: Astromancers may use clubs, daggers, staves, and laser pistols. They may wear Light Armor but not use shields.

Prime Attribute: Intelligence

Ancient Secrets: Astromancers are able to comprehend mysterious Ancient and alien devices. An Astromancer must study the device for at least an hour and then check to see if he can comprehend it.

Quantum Formulae: Astromancers have the ability to alter reality by employing Quantum Formulae. They maintain extensive notes detailing their theories and formulae. The chaotic nature of the formulae causes them to change daily. Astromancers must study their notes each day for an hour in order to keep the advanced calculations clear in their minds.

Learning Quantum Formulae: Astromancers begin play knowing one 1st level Formula. When an Astromancer advances a level, he learns one new Quantum Formula. It must be of a level that the Astromancer is able to perform.

Performing Calculations: The Astromancer must have both hands free and be able to concentrate in order to perform the complex calculations and create the proper quantum vibrations for a formula to affect reality. It takes the character's entire action during to do this. An Astromancer may only perform a limited number of calculations per day as the following chart.

Chaotic Mind: Astromancers have a +2 bonus to Saving Throws against Mind Control and telepathy type abilities.

Quantum Formulae

Analyze the Possibilities

Level: 3

Range: Self

Duration: Special

The Astromancer calculates the probable outcomes of a situation by analyzing alternate time lines and posing yes or no questions. The Astromancer must decide how far he willing to search beyond his own time line.

Time Line ¹	Insane ²	Right	Wrong ³
1	1-2	3-11	12-20
2	1-4	4-13	14-20
3	1-6	7-16	16-20
4	1-8	9-17	18-20
5	1-10	11-18	19-20
6	1-12	13-19	20

¹Time Lines are the “depth” that the Astromancer chooses to seek the truth, also the number of Yes/No questions asked.

²Temporary insanity lasts for as many weeks as the “number” of the Time Line where the Astromancer’s sanity failed.

³This is the chance of receiving a misinterpreted or “wrong” answer.

Bend Light

Level: 1

Range: Touch

Duration: 1 turn or until an attack is made

The target becomes invisible to normal vision and technological sensors.

Non-Existence

Level: 5

Range: 30 feet

Duration: Permanent

This Formula causes a single being to cease to exist. The target is allowed a Saving Throw with a +4 bonus. This Formula is very dangerous with many unforeseeable consequences. An evil overlord could be replaced by something worse. Stopping a mad scientist from inventing a doomsday weapon could cause other scientific discoveries not to be made and so on.

An Astromancer may attempt this Formula only once per year and permanently loses one level even if the target resists.

Perceive Other Places

Level: 2

Range: 60 feet

Duration: 3 turns

The Astromancer must announce which of the two options are being attempted.

- Clairaudience: Hear through solid obstacles.
- Clairvoyance: See through solid obstacles.

A 2 foot thickness of solid stone, a thin layer of lead, or energy/force fields block this effect.

Pass Through the Void

Level: 3

Range: 10 feet (360 feet teleportation)

Duration: Immediate

The Astromancer can teleport himself, an object, or another person (Unwilling targets are allowed a Saving Throw.) with perfect accuracy within range.

Quantum Disruption

Level: 3

Range: 150 feet

Duration: Instant

The Astromancer creates three bolts of quantum energy each doing 1d6+1 damage. The Astromancer must roll to hit and gains a bonus based on the number of targets.

Number of Targets	Bonus
1	+3
2	+2
3	+1

Quantum Echoes

Level: 1

Range: 240 feet

Duration: Until negated

This Formula creates a realistic illusion from another time line in the sight of all who view it. The illusion disappears when it is touched, but if the viewer believes the illusion is real, he can take damage from it.

Quantum Images

Level: 1

Range: 5 feet

Duration: 1 hour or until destroyed

This Formula creates 1d4 images of the Astromancer from alternate realities, acting in perfect synchronization with him like mirror images. Attackers cannot distinguish the images from the Astromancer, and may attack one of the images instead (determined randomly). When a hit is scored upon one of the images, it disappears.

Read Prime Symbols

Level: 1

Duration: 1 reading

The Astromancer can read the writing of ancient or alien languages.

Starvision

Level: 1

Range: Touch

Duration: 1 hour

The recipient can see in total darkness to a range of 40 feet.

See Beyond the Event Horizon

Level: 2

Range: 240 feet

Duration: 1 turn

The Astromancer conjures up an invisible, quantum "eye" that can move a maximum of 240 feet away from its creator. It floats along as directed at a rate of 10 feet per round.

Share the Void

Level: 4

Range: 120 feet

Duration: 1 round/level

The Astromancer shares the endless possibilities of the universe causing the target behave erratically. 2D6 are rolled each round to determine the target's reaction. The target is allowed a Saving Throw.

Roll	Reaction
2-5	Act normally
6-8	Stand baffled and inactive
9-12	Attack random target

Speak to the Past

Level: 4

Range: Touch

Duration: Three questions

The Astromancer can ask three questions to a corpse that has been dead less than 1d4 days. It will answer, although the answers might be cryptic.

Step Out of Time

Level: 4

Range: Self

Duration: 1d4 rounds

The Astromancer disappears and steps out of time. He returns to the same location 1d4 rounds later.

If a person or object has taken the place of the Astromancer then both will take 4d6 damage upon the Astromancer's return. Saving Throw applies for half damage.

Summon Quantum Beast

Level: 5

Range: 5 feet

Duration: 1 hour/level

This spell summons an invisible Quantum Beast to do the Astromancers bidding. As long as the Astromancer is conscious, he can control the Quantum Beast.

If for any reason the Astromancer is unconscious or "outside" of this time line or reality then the creature is will go on a rampage and attack who or whatever is close to it.

As long as the beast is under control, it can be dismissed. Otherwise, it remains for the duration.

Quantum Beast

Armor Class: 7[12]

Hit Dice: 4

Attacks: Claw (1d6)

Special: Invisible

Teleport

Level: 5

Range: Touch

Duration: Instant

This Formula transports the Astromancer or another being to a destination that the Astromancer knows. There is a 20% chance of error causing the death of the traveler. If used for interstellar travel then the chance of error (death) is raised to 40%. Unwilling targets are allowed a Saving Throw at +4.

Temporal Manipulation

Level: 2

Range: 240 feet

Duration: 3 turns

The Astromancer declares which of the two options are being used:

- **Quicken Time:** An area of radius of 60 feet around the point where targeted, as many as 4d6 creatures become able to move and attack at double normal speed.
- **Slow Time:** An area of radius of 60 feet around the point where targeted, as many as 4d6 creatures failing a Saving Throw can only move and attack at half speed.

Translocation

Level: 2

Range: 30 feet

Duration: Instant

The Astromancer and one willing target switch locations.

Engineer

It takes a person with a special knack to understand the varied technology across the galaxy. Some Engineers belong to a pseudo-religious order and call themselves Techno-Priests or Techno-Mages.

Weapons & Armor: Engineers may use clubs, daggers, mono-daggers, firearms, grenades, and laser pistols and rifles. They may wear Light and Medium armor and use Energy Shields.

Prime Attribute: Wisdom

Level	XP	HD	BHB	ST	Gadgets/ Day	Max Gadget Level	Gadget Burnout
1	0	1	+0	15	1	1	1 in 4
2	1,500	2	+0	14	2	1	1 in 6

7	48,000	6	+2	9	5	4	1 in 10
8	96,000	6+1	+2	8	5	4	1 in 10
9	192,000	7	+3	7	6	4	1 in 10
10	384,000	8	+3	6	7	5	1 in 12

Gadgets: Engineers always carry an assortment of mechanical widgets and technological doodads. They must have access to at least very simple tools and some materials in order to construct a Gadget. Highly skilled Engineers can build a laser pistol out of a rock, a magnifying glass, and some duct tape. It takes one minute per level of the Gadget to construct it. If an Engineer builds a Gadget in advance, it counts towards the character's daily allotment until the Gadget is used or dismantled. Engineers know how to construct all of the Gadgets of a level they are able to build.

Gadget Burnout: Gadgets are improvised devices good for one use. When a Gadget is used the Engineer rolls for Burnout (see above). If the Gadget burns out then it does not function and this uses up one of the Engineer's Gadgets for that day. If a Gadget does burn out then the Engineer makes a second Burnout check. If the Gadget burns out again then not only does the Gadget fail but it fails catastrophically causing fires, explosions, or perhaps some unforeseen side effect which makes the situation worse.

Creative players may attempt to build whatever they may need for a situation with the Game Master's approval. Use the Gadget list as a guide.

Bubble Gum & Bailing Wire: By re-routing power and cannibalizing parts, an Engineer can repair a space ship for 1d6+1 points.

Jury Rig: An Engineer may Jury Rig a spacecraft as a Pilot two levels lower.

Dive for Cover: Engineers gain a +2 bonus to Save versus explosions and similar effects (as they sometimes cause them).

Lost Worlder

You come from a primitive planet on the fringes of the galaxy. Maybe you were captured by slavers, stowed away on a strange vessel, or discovered an ancient portal. You've ended up far from home in strange and mysterious galaxy that you don't understand.

Weapons & Armor: Lost Worlders may use battle axes, clubs, daggers, spears, swords, staves, bows, and crossbows. At 4th level, they may also use mono-daggers, mono-swords, and mono-axes. They may wear Light Armor and use Physical Shields.

Prime Attribute: Constitution

Animal Instincts: Lost Worlders have a 1 in 6 chance of being surprised.

Brutal fighter: Lost Worlders gain +1 bonus to damage with melee weapons. Lost Worlders also apply their Strength Modifier to Attack and Damage Rolls with melee weapons.

Primitive: Lost Worlders don't understand advanced technology but it doesn't mean that they can't try. Roll 2d6. If the result is 12 then somehow by mashing random buttons or banging on a console, the Lost Worlder has managed to activate or otherwise "fix" a device. If the result is

a 2 then there is a disastrous consequence and the device is probably destroyed. Any other result means nothing happens.

Survival: Lost Worlders are accustomed to nature and living off the land. This also applies to identifying dangerous flora and fauna even on alien worlds.

Tough As Nails: They gain a +2 bonus to Save against Diseases and Poisons.

Just a Flesh Wound: Once per day, a Lost Worlder may shrug off a wound and reducing the damage by 1d6-1.

Scoundrel

They call you assassin, gambler, gunslinger, pirate, smuggler, thief, or bounty hunter. And that's if they like you. Scoundrels survive by their charm, wits, and luck. If you can't be good then at least be lucky.

Weapons & Armor: Scoundrels may use clubs, daggers, mono-daggers, mono-swords, swords, laser pistols, and firearms. They may wear Light Armor but not use shields.

Know a Guy: Scoundrels have contacts across the galaxy. The character may see if he “knows a guy”. It might be a shady customs agent, a fence for illicit goods, a smuggler, or a cop on the take. These contacts may not be friends but might help only if the price is right.

Lucky Breaks: At 1st level, Scoundrels have one Lucky Break per game session. This increases to two Lucky Breaks at 4th Level and three at 8th Level.

Scoundrels may use their Lucky Breaks to:

- Go first in the current round.
- Re-roll an Attack Roll.
- Re-roll a Saving Throw.
- Re-roll an Attribute or Skill check.
- Re-roll damage.

When the player re-rolls, the second roll is taken even if it worse than the original roll.

Aether Strike: Warp Ninjas may empower their unarmed melee attacks with dark energy which does 1d6 damage. The damage increases to 1d6+1 at 4th level; 1d6+2 at 8th level.

Phase Out: Warp Ninjas may take themselves out of phase with reality. During this time, the character is considered invisible and insubstantial. They cannot affect the physical world in any way. They can pass through normal doors and walls but not energy walls, force fields and the like. They may also pass through living beings but that character is allowed a Saving Throw to get the feeling as if "someone has just walked over their grave". Using this ability is very dangerous and causes 1d6-1 damage per round to the Warp Ninja. A Warp Ninja may only activate this power during his action.

Quantum Step: Warp Ninjas may teleport 30 feet to any point that they can see. Using this ability causes 1d6-1 damage to the ninja. Energy walls and force fields stop this ability.

Warp Armor: Warp Ninjas can surround themselves with a field of gravitational flux. This grants them a -1[+1] bonus to Armor Class. Using this ability causes 1 point of damage and lasts 1d6 rounds. A Warp Ninja may only activate this power during his action.
