Foreword

Here you will find 100 pieces of idle gossip, rumours, and messages for characters to find in their science fiction encounters. These can be the kind of thing that are whispered in bars, posted on online message boards, or being blasted from holographic news displays. You can roll a D100 to randomly determine, or a GM can choose from the list.

A cunning GM will find many adventure hooks in here, and many that could end up being red herrings!
