Foreword

Fantasy RPGs wouldn't be the same without the chance to wind down in a little bit of safety in a typical small town or village after a bit of dungeon bashing or casual warring. These places act as a different respite, a place to restock, heal and take a break from the stresses of the adventuring lark. These settlements may be generic, similar looking and feeling, but as with real life, they need character and a level of personality to elevate them from two dimensional, up to a more fleshed out feel, so why not start with a name?

This publication (and the ones proceeding it) will help generate many such names to act as a starting block to a more fleshed out area for exploration for your players, even create them on the fly by adding citizens, encounters and more with the other titles already in our back catalogue. Have fun and enjoy!!
