## MAKING TESTS

**Ability Score Checks:** Roll a d20 and compare the result to your score in the relevant ability. If the number on the die is equal to your score or lower, you succeed. If it is higher, then you fail.

**Saving Throws:** Roll a d20. If the result is equal to the saving throw number or higher, the roll was a success.

**Combat Rolls:** Roll a d20 and add the relevant attack bonus. Compare the result to the enemy's armor class. If the number equals that armor class or exceeds it, the attack was successful. Otherwise, the attack missed.

## CLASS ABILITIES

**Hit Dice:** d6

**Initiative Bonus:** +0

**Armor:** Mages may not wear any armor.

**Spell Casting:** Mages may harness the power of magic in three different ways: cantrips, spells, and rituals. Your Playbook has given you your starting magics.

**Sense Magic:** Being naturally sensitive to the world of magic, mages may determine if a person, place, or thing is magical. Doing so requires concentration and a few minutes, so mages cannot tell if something is magical simply by being in its presence, and people tend to notice if a mage is staring at them intently and ignoring his food during a meal. The GM may rule that, when in the presence of particularly intense sorcery, the mage notices such immediately.

## FORTUNE POINTS

A character may spend a Fortune Point in the following ways:

**Help a Friend:** Normally, a character may only help a friend with an ability score check if he has a relevant skill. By spending a Fortune Point, a character may lend a helping hand and thereby give his compatriot a +2 to his score for a single roll, even without having an appropriate skill for the task at hand.

**Second Chance:** A character may spend a Fortune Point to get a reroll on any failed roll during the course of play, such as an ability score check, saving throw, or to hit roll.

**Cheat Death:** A dying character may spend a Fortune Point to stabilize at 0 hit points and not continue taking damage every round.
