INTRODUCTION

Career Book 2 is the second of three career books from *Spica Publishing* offering new career options for *Traveller* character generation. This book contains 14 completely new careers for your *Traveller* game.

CHARACTERS AND CAREERS

Characters are central to any role-playing game; they are the alter-egos of the players in the game universe. Within each game universe, there are many thousands of ways a character can live, work or otherwise occupy their time. This book presents players and Referees with new character generation options that allow players greater choice in the characters they choose to play, and Referees a wider range of sources for generating non-player characters.

Within a science fiction RPG setting, the number and types of careers available to characters (both human and alien) can be massive, and each race or species has its own unique take and influence on careers, often offering skills or benefits not available to other races in similar or identical careers.

All of these careers are suitable for human player or non-player characters; some are more suitable than others for various alien species. Players should discuss their idea of how an alien character should be generated with the Referee responsible for the current game.

SKILLS AND NEW CAREERS

This book is divided into five distinct subsections. The first subsection provides two alternative methods for determining a character's background skills and an alternative injury table. The second subsection offers University and Graduate School options for characters, arranged in the manner of careers. The third subsection presents two new skills and revisits the Trade skill from *58 TMB*.

The fourth section provides 14 new careers: *Athlete, Chancer, Companion, Cosmonaut, Enforcer, Insurgent, Media, Mystic Warrior, Politician, Port Authority, Prisoner, Secret Police* and *Slave*. Each career includes:

- A brief description of the career and its assignments;
- Its own unique set of character generation tables, including ranks (where applicable) and mustering out benefits tables;
- Mishap and Events tables.

The fifth section of this book provides a number of pre-generated non-payer characters.

REQUIRED MATERIALS

To get the most from this book you will need at least the following items:

- The *Traveller Main Rulebook* by *Mongoose Publishing*;
- At least two six-sided dice;
- Some pens/pencils and paper or a computer.

Referees and players will find *Career Book 1* from *Spica Publishing* useful, particularly when generating *Port Authority* characters.

References to Other Books: In this work, references to specific pages in other *Traveller* books and products are shown as the page number followed by a code for the relevant book, both in italics, thus: *28 TMB* or (*28 TMB*).

- Traveller Main Book: *TMB*
- Traveller Supplement 4: *Central Supply Catalogue: CSC*.
- Allies, Contacts, Enemies & Rivals: *ACER*.
- Career Book 1: *CB1*.
- Career Book 2: *CB2*.
- Nemesis Class Pursuit Ship: *NEM*.

Die Throw & Notation Conventions The die throw and notation conventions used in this book are the same as those described on *3 TMB*.

Tasks and Skills: The rules for tasks (and the use of skills in tasks) in this book are the same as those in the Tasks and Skills chapter on *48 TMB*.

Injury Table: Wherever this book refers to the use of an Injury Table, you can either use the Injury Table shown on *37 TMB* or the alternative injury table on *5 CB2*.

ABOUT THE AUTHORS

JOHN GRIFFITHS started playing *Traveller* in 1980 whilst at upper school. After working as a postman, he eventually trained as a mental health nurse, having been told the job involved indoor work with no heavy lifting. This turned out to be untrue. He currently works as a manager for a specialist mental health team. John has two young sons and lives with his wife and dogs in the south east of the United Kingdom. He started *Spica Publishing* in 2006.

RICHARD HAZLEWOOD has been playing *Traveller* since 1977. He served eight years in the US Navy, operating nuclear reactors on submarines. He enjoyed that so much he got out of the Navy and into aviation. Richard has a Master's Degree in Aerospace Engineering and works for a major US airline. He has two grown sons and lives with his wife and two dogs in the mid-western United States.

NIK KRAAKENES has been a space cadet since seeing *Star Wars* at the age of five. This sparked a lifelong interest in not only all things space but also in storytelling which, through writing, role playing games, comics, and the rise of computers, lead him to art college. After several years working in the digital arts and completing a Master's Degree in Multimedia, Nik found himself in education, and decided he liked it. Teaching animation, comic art, and video game theory in a rainy northern British city is quite a bit of fun.

BACKGROUND SKILLS

ALTERNATIVE METHOD 1

This first alternative background skills method is similar to the method on 6 *TMB*. Your character receives a number of background skills based on the character's Education score and homeworld Technology Level.

Homeworld Technology Levels are defined in three broad categories: Low Tech (0 to 5), Mid Tech (6 to 11) and High Tech (12 and above). This gives between 0 and 6 skills, depending on your character's Education score and homeworld Tech Level, as shown in the Background Skills table below. Players may choose skills from both the Homeworld Skills and Education Skills tables.

BACKGROUND SKILLS

Education Score	Low Tech	Mid Tech	High Tech
0	0	0	1
1, 2	0	1	2
3, 4, 5	1	2	3
6, 7, 8	2	3	4
9, 10, 11	3	4	5
12, 13, 14	4	5	6
15	5	6	6

Homeworld Skills: Players can select any skill that matches their character's homeworld trade codes in the Homeworld Skills 1 table. Record the trade codes chosen for your character's homeworld. Players are not required to take both Homeworld Skills from a Trade code, but may if so desired. The definitions of the trade codes can be found on 181 *TMB*.

HOMEWORLD SKILLS 1

Trade Code	Homeworld Skills	
Agricultural	Animals 0	Athletics 0
Asteroid	Zero-G 0	Vacc Suit 0
Desert	Survival 0	Navigation 0
Fluid Oceans	Seafarer 0	Vacc Suit 0
Garden	Animals 0	Art 0
High Technology	Computers 0	Flyer 0
High Population	Streetwise 0	Drive 0
Ice-Capped	Vacc Suit 0	Zero-G
Industrial	Trade 0	Streetwise 0
Low Technology	Survival 0	Animals 0
Non-Agricultural	Streetwise 0	Vacc Suit 0
Non-Industrial	Trade 0	Survival 0
Poor	Animals 0	Survival 0
Rich	Carouse 0	Animals 0
Water World	Seafarer 0	Navigation 0
Vacuum	Vacc Suit 0	Drive 0

Education Skills: Players may choose any remaining background skills from the Education Skills table.

EDUCATION SKILLS

Admin 0	Advocate 0	Art 0
Athletics 0	Carouse 0	Comms 0
Computers 0	Drive 0	Engineer 0
Flyer 0	Gambler 0	Gun Combat 0

Social Science 0	Space Science 0	Trade 0

ALTERNATIVE METHOD 2

The Homeworld Skills list in the *TMB* is based on the trade code of the character's homeworld. This alternate system lists skills based on the two defining characteristics of a homeworld, namely habitability and Tech Level. Additionally the total number of background skills a character may have can now be based on either Intelligence or Education, whichever is higher.

For this system, homeworld habitability is defined by the planet's atmosphere. Habitability is divided into three broad categories: Non-Habitable, Marginal and Habitable.

Technology Levels are defined in the same three broad categories as Alternative Method 1.

Homeworld Skills: Players, in consultation with the Referee, should determine the habitability and Tech Level of their characters homeworld. Alternately, if the characteristics of the character's homeworld are already known, the habitability and Tech Level can be determined from the planetary information.

The Homeworld Skills 2 table below defines atmosphere types for each category of habitability and the skills that may be selected under each type of habitability or Tech Level.

HOMEWORLD SKILLS 2

Habitability	
Non-Habitable	
Atmosphere	0, 1, 10 (A), 11 (B), 12 (C), 15 (F)
Skills	Vacc Suit 0, Zero-G 0
Marginal	
Atmosphere	2, 3, 13 (D), 14 (E)
Skills	Survival 0, Navigation 0
Habitable	
Atmosphere	4-9
Skills	Animals 0, Navigation 0
Technology Level	
Low Tech	
Tech Levels	0-5
Skills	Survival 0, Animals 0
Mid Tech	
Tech Levels	6-11 (6-B)
Skills	Drive 0, Computers 0
High Tech	
Tech Levels	12+ (C+)
Skills	Flyer 0, Computers 0

Intelligence/Education Based Skills: The player chooses to base his character's background skills on either Intelligence or Education, selecting from the appropriate table below.

Players may not mix and match between Intelligence and Education based skills: they must select one or the other characteristic to base their character's background skills on. Education/Intelligence skills are determined using the same method for either characteristic.

BACKGROUND SKILLS

INTELLIGENCE SKILLS

Advocate 0	Carouse 0	Deception 0
Drive 0	Flyer 0	Gambler 0
Gun Combat 0	Language 0	Medic 0
Melee 0	Persuade 0	Pilot 0
Stealth 0	Streetwise 0	Survival 0
Trade 0		

EDUCATION SKILLS

Admin 0	Advocate 0	Art 0
Carouse 0	Comms 0	Computers 0
Drive 0	Engineer 0	Flyer 0
Language 0	Medic 0	Persuade 0
Pilot 0	Life Science 0	Physical Science 0
Social Science 0	Space Science 0	

Example: A character has Intelligence 10 (+1) and Education 8 (+0). The player decides to base the character's background skills on the character's Intelligence score. The character may have four background skills (3 + 1 = 4).

The player decides that the character comes from a habitable, High Tech world. From the Homeworld Skills 2 table the player selects Navigation 0 (from the Habitation section of the table) with Flyer 0 and Computers 0 (from the High Tech section of the table).

The player has chosen 3 of the character's four background skills, and chooses the character's final skill of Carouse 0 from the Intelligence Skills table.

ALTERNATIVE INJURY TABLE

The table presented below can be used as an alternative to the injury table on 37 *TMB*.

INJURY TABLE

2d6	Injury	Effect
2	Nearly killed	Reduce one physical characteristic by 1d6, and reduce both other physical characteristics by 2.
3	Severely injured	Reduce one physical characteristic by 1d6 and both other physical characteristics by 1.
4	Seriously injured	Reduce one physical characteristic by 2 and both other physical characteristics by 1.
5	Missing a limb	Reduce Strength or Endurance by 2.
6	Missing an eye or an ear	Reduce Dexterity by 2.
7	Injured	Reduce any two physical characteristics by 1.
8	Radiation	You suffer from exposure to 2d6*10 Rads of radiation.
9	Lightly injured	Reduce one physical characteristic by 1.
10	Traumatized	You suffer from PTSD or a similar mental disorder but have no permanent physical effects.
11	Scarred	You are scarred but suffer no other permanent effects.
12	Flesh wound	No permanent effect.

NEW & EXPANDED SKILLS

Presented below are two new skills: Psychohistory and Manipulation and an expansion of the Trade skill (58 TMB).

Manipulation: Manipulation is the art of arranging events, and incidents so that they appear to occur randomly and appear to have uninfluenced outcomes. In reality, the events have been orchestrated or engineered by a Manipulator and the outcomes have already been predicted by the Manipulator using Psychohistory.

Manipulation covers the use of techniques to disguise the origins of chains of events that are inextricably linked together by the Manipulator. Even the most detailed investigation will find it extremely difficult, if not impossible, to trace the event chain and outcomes. If the target of the manipulation becomes aware of the manipulation, the chances of the manipulation failing increase.

Psychohistory: The skill of Psychohistory is defined as the prediction of future events, based on the probabilistic or statistical mathematical analysis of the past and current behaviour trends of billions of sophonts. Psychohistory has been likened to the study of gases, in that the behaviour of one individual gas molecule cannot be accurately predicted, whereas the behaviour of the gas itself can be predicted with some accuracy.

The core principle of Psychohistory is that the populations being studied for data collection do not know they are being observed, as this will alter the behaviour of the populations and thus alter the outcome of the study. By collecting data on populations over extended periods of time, the unique traits of populations can be examined and analysed.

Psychohistory combines history, sociology, and mathematical statistics in one skill. As a result, it is a skill in its own right and is not a speciality of Social Science.

Trade: A character with a Trade skill is trained in producing some useful goods or services.

Trade skill is often underappreciated by the *Traveller* player. Trade skill can be used to represent a variety of specialties related to construction and manufacturing of goods, buildings and vehicles, including starships. Below is an expanded list of specialties along with detailed explanations. Other Trade specialties should be added by the Referee to fit the game setting. Unlike the other Trade specialties, skill in one type of the Construction specialty gives Level 0 skill in all other areas of the Construction specialty.

Trade (Construction: Gravitics): You have experience building gravitically supported structures such as Air/Rafts and flying cities.

Trade (Construction: Space): You have experience in building objects in space such as ships or orbital habitats.

Trade (Construction: Subsurface): You have experience building structures underground or within Asteroids such as habitats and mines.

Trade (Construction: Surface) [Formerly Trade (Civil Engineering)]: You have experience building surface buildings, roads and bridges.

Trade (Construction: Underwater): You have experience building undersea habitats.

Trade (Assembly): You have experience working on a manufacturing assembly line, mass producing everything from dishwashers to toys.

Trade (Biologicals): You manufacture artificial organisms from designer viruses to biological starships.

Trade (Fabrication): You are skilled in making things like clothing, furniture, shoes or some other consumer product.

Trade (Hydroponics): You work in the labs that grow food in hostile environments.

Trade (Pharmaceuticals): You are involved in the manufacturing of drugs (legal or illegal).

Trade (Polymers): You manufacture plastics, ceramics or similar composite materials.

UNIVERSITY

Characters attending university spend one term pursuing a degree through academic study. Characters do not receive a -1 DM for having attended university when making career Qualification or Enlistment throws.

Qualification: (Edu) (6+), Automatic if Edu 8+ -1 DM if aged 26 or older.

Characters may re-enter university again if they fail to graduate.

Assignments: Select from one of the following areas of study:

- **Science:** You specialise in one of the sciences and upon graduation receive a Science degree.
- **Arts:** You study the arts or humanities and upon graduation you receive an Arts degree.
- **Engineering:** You study engineering and upon graduation you receive a Science (Engineering) degree.

GRADUATION AND BENEFITS

Instead of Survival, characters attending university throw for Graduation. If the character graduates roll for an Event and for Honours. If the character fails to Graduate roll on the Drop Out table. Characters gain one Benefit roll for Graduation and a second Benefit roll for Honours.

Graduation: Graduation bestows a Bachelor's Degree. If the character's Education is 8 or less at the time of the Graduation throw it is automatically increased to 9; If the character's Education is already 9 or more the character gains +1 Education.

Honours: Honours bestows a Master's Degree. Honours graduates may enrol in Graduate School (8 CB2). If the character's Education is 10 or less at the time of the Honours throw it is automatically increased to 10; if it is 11 or more the character gains +1 Education.

Officer Training Course (OTC): Characters may enrol in an OTC if desired. Characters that graduate from OTC will automatically gain a commission (at Officer Rank 0) in any service that has an Officer corps. However, due to the more difficult course work, OTC students apply -1 DM to Graduation and Honours throws. Honours OTC graduates gain +2 on the first Advancement roll as an Officer. OTC graduates characters will have no Education Debt if they complete one full term of service in the career in which the character has a commission.

12	Your hard work pays off, you automatically graduate with Honours. Gain a +1 DM on your Education Debt roll.

EDUCATION DEBT

A university education costs a lot of money and students can accrue significant amounts of debt in the form of student loans before they complete their studies. Education Debt is treated in a similar way to Medical Debt (37 TMB).

For each part and complete term spent at University or Graduate School roll once on the Education Debt table and total the amounts. This is the amount of Education Debt (in Credits) the character finishes university with. Some Events and Drop Out throw results will provide additional DMs to the Education Debt throw.

1d6	Education Debt
0-	30,000
1	25,000
2	20,000
3	15,000
4	10,000
5	5,000
6+	Nil

To determine the amount of Education Debt, throw 1d6 and add the character’s Education DM, then read the result on the Education Debt table (8 CB2). Note that any Education Debt acquired at University must be added to any Education Debt acquired if the student character goes on to attend Graduate School.

GRADUATE SCHOOL

Characters attending graduate school spend one term pursuing an advanced degree through academic study. Characters do not receive a -1 DM for having attended graduate school when making career Qualification or Enlistment throws.

Qualification: Edu 10+

Qualification is automatic for characters with an Honours university degree.

Characters may re-enter graduate school if they fail to graduate.

Assignments: Select from one of the following areas of study:

- **Doctorate:** You specialise in one of the arts or sciences and receive a PhD on graduating.
- **Law:** You study the law and become a Lawyer on graduating.
- **Medicine** You are in Medical School and become a qualified doctor (medical practitioner) on graduating.

Students may either roll on the Personal Development table or take one of the skills, based on their degree programme, listed below.

Doctorate: Doctoral Students may gain one level of Any Science (any) or Engineer (any).

Law: Law School students may gain one level of Advocate or Persuade.

Medicine: Medical School students may gain one level of Medic or Life Science (any).

GRADUATION AND BENEFITS

Like university, Graduate School students throw for Graduation; if the character graduates, throw for an Event and Honours. Failure to Graduate requires a roll on the Drop Out table. Students gain one Benefit roll for Graduation and a second Benefit roll for Honours.

Graduation: Graduation bestows a PhD, MD or Law Degree on the character, depending on the degree programme. The character's Education is raised to 11 if it is currently 10 or less. If the character's Education is already 11 or more then the character receives +1 Education. Graduation also bestows a +1 DM on the Qualification roll for the Scholar career.

Honours: Honours bestows a roll on the Honours table or the character may select a skill based on the degree programme they are completing. The character's Education is raised to a minimum of 12 or an additional +1 Education if Education is 12+. Honours bestow an additional +1 DM on the Qualification roll for the Scholar career.

Education Debt: Like University students, Graduate School students must roll on the Education Debt table (10 CB2) for each partial and complete term that they attend Graduate School. Students who acquired Education Debt at University must add their University Education Debt to any new Education Debt acquired whilst attending Graduate School.

DROP OUT

1d6	Reason
1	Injured – Roll on the Injury Table (37 TMB, 5 CB2) but you may keep one Benefit roll.
2	Plagiarism - Your research turns out to be identical to another student's work. Neither of you can prove you are the original author. Gain an Enemy. You may not re-enter Graduate School until you can prove that you are the original author. Take a -2 DM on your Education Debt roll.

4	You are granted a research fellowship. Roll a skill on any of the Scholar Specialty tables and on the Scholar Event table. You may automatically enter the Scholar career next term. Gain a +1 DM on your Education Debt roll.
5	Your studies take you into space. Gain one of the following: Astrogation 1, Pilot (any) 1, Space Science (any) 1 or Vacc Suit 1.
6	You make friends within your field of research. Gain 1d3 Contacts.
7	Life Event – Roll on a Life Event Table (34 TMB, 12, 13 CB1).
8	You are awarded a scholarship. Gain a +2 DM on your Education Debt roll.
9	Your research is ground breaking and you gain recognition within your field. Gain +1 Social Standing and a +1 DM on one Benefit roll or a +1 DM on your Education Debt roll.
10	You tutor university students. Roll Intelligence 8+. If you succeed, gain one level in any skill you already have. If you fail, gain a Rival. Either way you gain Instruction 1.
11	You join a study group and gain a +1 DM on your Honours roll due to their help.
12	Your hard work pays off, you automatically graduate with Honours.

NEW CAREERS

The character generation process used for these 14 new careers is exactly the same as described in the *Character Creation* chapter beginning on 5 *TMB*. Below is a summary of that procedure, including page references to the relevant parts of the *TMB*.

Basic Characteristics and DMs: Generate your character's basic characteristic scores, as described on 5 *TMB*. Note down your character's Characteristic DMs, as described on 6 *TMB*.

Noble Titles: If your game or campaign allows the use of Noble titles, follow the rules for these on 6 *TMB*.

Background Skills: Determine the number of background skills your character is allowed, using the rules on 6 *TMB* or the alternative rules presented on 5 *CB2*. Next, determine the type of homeworld your character comes from, and any homeworld and education skills your character has using the *Background Skills* rules on 6 *TMB* or the alternative rules presented on 4 *CB2*.

Qualification, Skills and Training: The rules governing career qualification and the gaining of skills and training are detailed on 8 *TMB*.

Basic Training: The procedure for characters to gain basic training is described on 8 *TMB*. Note that some careers in this book have Rank 0 that also grant a skill to the character, in addition to the skills obtained from basic training.

NEW MUSTERING OUT BENEFITS

CB2 introduces some new mustering out benefits; these are described below.

Armoured Vehicle: The Armoured Vehicle mustering out benefit provides a character with either an Armoured Fighting Vehicle (AFV, 103 *TMB*) or All Terrain Vehicle (ATV, 104 *TMB*). The choice of vehicle is at the player's discretion, although any such vehicle acquired as a mustering out benefit is intended for the character's personal, not commercial, use.

Ship's Boat: The Ship's Boat is a versatile small craft ideal for ship-to-ship and ship-to-surface transport. The Ship's Boat available as a mustering out benefit is described on 132 *TMB*.

Specialist Equipment: Puppeteers utilise numerous types of unusual specialist equipment. One such device analyses the atoms of an odour and stores the chemical composition of the smell for later reproduction. The Puppeteer can then savour and enjoy the smell later. This device is an advancement of the Chemical Sniffer (174 *CSC*). TL 11, Cr 5,000, 5 kg.

Sports Flyer: Originally designed for grav racing, the Sports Flyer is the grav powered equivalent of a high performance motorcycle. Capable of extremely rapid acceleration in a standard atmosphere, the Sports Flyer can out-run most other forms of grav vehicle. The enclosed, aerodynamically shaped outer skin accommodates the driver and one pillion passenger. TL 15, Cr 250,000, 0.25 tons.

Surveillance Equipment: The player may select any of the surveillance equipment described on 170–177 *CSC*. Each acquisition of the Surveillance Equipment benefit is worth Cr 5,000 and Surveillance Equipment benefits may be added together to purchase items that cost more than Cr 5,000. Surveillance Equipment benefits may not be converted into cash and, once used to purchase surveillance equipment, any left-over Credits are lost.

Travel Passages: Some of the new careers offer High, Middle or Low Passages as a mustering out benefit. These are detailed on 142 *TMB*.

Vehicle: The Vehicle mustering out benefit provides an appropriate form of personal transport, such as an air/raft, a small aircraft, helicopter, a ground car, a hovercraft, or a small power boat or a sailing ship. Any such vehicle acquired as a mustering out benefit is intended for the character's personal, not commercial, use. Vehicles are detailed on 103, 104 *TMB*.

EXPLORER SHIP

The *Puppeteer* career allows characters to obtain an Explorer class starship. This ship is detailed below.

The *Explorer* ship is multi-functional, intended for individual transport inside inhabited space, or exploration beyond the borders. The *Explorer* is built at Tech Level 15,

Hull: The hull is 200 tons and is streamlined with integral fuel scoops. In addition, the self-sealing hull has a Reflec coating that gives armour protection 3 against incoming laser fire. The hull has 4 Hull Points and 4 Structure Points.

Engineering: The *Explorer's* performance is Jump-3 (C) and 3G acceleration (C). Fuel capacity is sufficient for one Jump-3 (60 tons) and six weeks of continuous Power Plant (C) operation (18 tons). Four tons of fuel processors are included, which allows 78 tons of unrefined fuel to be purified in one day.

Computer/Electronics: The ship's Model/7/fib/bis computer is rated at 35/40. The computer has the following programs available for use:

- Auto Repair/2 (Rating 20)
- Evade/3 (Rating 25)
- Fire Control/1 (Rating 5)
- Intellect (Rating 10)
- Jump Control/3 (Rating 15)
- Library (Rating 0)
- Manoeuvre/0 (Rating 0)

The *Explorer* ship also has Very Advanced Electronics, giving a +2 DM.

Weapons: The ship has one hardpoint and one ton allocated to fire control, but carries no turrets or weaponry.

Crew: The *Explorer* requires a crew of five: a Pilot, a Navigator, two Engineers and a Medic.

Accommodation: There are 15 staterooms and no low berths.

Extras: The ship carries a GCarrier (103, 104 TMB), which is housed in its own hanger/repair bay (19 tons). The hanger/repair bay contains sufficient mechanical and electronic equipment and spares to maintain the GCarrier and make minor repairs.

The Ship's Locker is allocated 0.5 tons within the ship's design.

Cargo capacity is 40 tons.

Design, Build & Cost: The first *Explorer* ship to be designed and built cost MCr 240.8. The designing architect's fee was MCr 2.408, giving a total first Explorer ship design and build cost of MCr 243.208.

Further ships in the *Explorer* class cost or MCr 216.72 after the 10% standard design discount on the cost of the first ship in the class and each ship takes 31 weeks to build.

RELEASE AND ADVANCEMENT

Release: Instead of a Survival roll, prisoners throw for Release. If you fail the release roll, throw on the Mishap table and your character remains in prison for another term. If you pass the Release roll throw for an Event and for Parole and at the end of the term the character is released from prison.

Parole: If a prisoner is successful at their Parole roll, then they are NOT on parole next term. If they fail their Parole roll, then they are on Parole next term and must check in with a Parole Officer (Law Enforcement) every week. This limits their options for future careers for their next term.

Skills: Prisoner characters gain a skill roll each term and another skill for passing their Parole roll.

Social Standing: For Convict and Gulag prisoner characters, subtract one point of Social Standing for each term of imprisonment. Social Standing cannot be reduced to below zero by this rule. Do not apply this rule to POWs, as Rank and Social Standing remain important factors for POWs and those imprisoning the character.

PRE-GENERATED CHARACTERS

On the following pages are 57 pre-generated characters: one from each assignment of each of the new careers (39 characters), 14 multi-career characters and four young, inexperienced characters. These can be used as player or as non-player characters.

THE CHARACTER PROFILE

Each character's information is presented in a standardised format called the Character Profile.

Number, Career(s): Each character profile shows the number of the character in this list, followed by the character's career title(s).

Characteristic Block: The characteristic block shows the values of each characteristic and associated Characteristic DM, as described on 5, 6 *TMB*.

Psionic Strength (Psi): If a character has psionic powers, the Psi characteristic is shown at the end of the second line of the characteristic block. This value and characteristic DM has been generated by and is used as per the rules in the Psionics chapter (152 *TMB*).

Basic Information: The next line of the profile shows the character's age in standard years and the total number of terms served. If present, the next line or lines shows the careers and speciality assignments for the character. Characters that have only had one career will not have anything under the first line of the basic information block.

The character's Credit balance on mustering out and any Retirement Pay due (see below) is shown on the next line.

Retirement Pay: The character's retirement pay (in Credits per year) is also shown on this line if the character has served five or more terms in a career that qualifies for retirement pay, as per 36 *TMB*.

Note that the following careers do not qualify for retirement pay due to the nature of the careers:

- *Chancer*
- *Companion*
- *Enforcer*
- *Insurgent*
- *Prisoner*
- *Slave*

Skills: Skills for each character are listed in alphabetical order.

Wherever a skill has a speciality, this is shown as (any) after the skill name (e.g. Engineer (any)). This allows Referees and players to adjust the pre-generated character's skills to suit the game more readily with the minimum of effort.

Where a character has a skill of Level 2 or more (such as Gun Combat (any) 2) the Referee or player can split the skill levels into separate skills (such as Gun Combat (Slug Rifle) 1 and Gun Combat (Slug Pistol) 1) to suit the needs of the situation.

Note that character **51** (49 *CB2*) has three Language 0 skills. The player or Referee should decide which languages the character can speak.

The new skill speciality of Social Science (Theology) (32 *CB1*) is described below.

Psionic Talents: If a character possess psionic powers, their psionic talents are listed in alphabetical order on a separate line, underneath the list of normal skills.

Equipment: The equipment for each character is listed in alphabetical order in the Equipment section. Equipment can include vehicles, Travellers' Aid Society membership (shown as "TAS"), travel passages (Low, Middle or High Passage), body armour, and starships.

If a character has more than one weapon or ship share as part of their equipment, the number of each is shown (for example: 3 Ship Shares, 2 Weapons). Weapons are assumed to be of a type that the character already has a skill in.

Allies, Contacts, Enemies and Rivals: Allies, Contacts, Enemies and Rivals are shown in the Equipment section of the character profile. Some have a clarification in parenthesis after them, such as Contact (Criminal) or Ally (Alien). This indicates what types of ally, contact, enemy, or rival the character has.

Where a character has more than one Ally, Contact, Enemy or Rival listed in the Equipment section each is shown. For example: Ally, 2 Rivals, Rival (Alien) indicates that the character has one Ally and a total of three Rivals, two of which are indeterminate and one of which is an Alien.

NEW SKILL SPECIALITY

The Social Science (Theology) skill speciality is new. The *Clergy* (20 *CB1*) and *Militant Religious* (26 *CB1*) careers have this skill speciality pre-selected.

Social Science (Theology): The character has extensive knowledge of their chosen religion and has the ability to practically apply the tenets, values and beliefs of that religion to everyday life.

This includes being able to justify their actions by quoting references from religious texts, and using parables, stories and examples to provide illustrations of their chosen religion being superior to any other.

Higher levels of Social Science (Theology) skill indicate a deeper and more complex understanding of the religion.

Explaining the benefits of your chosen religion to a hostile crowd:

Intelligence or Education, 1–6 hours, Difficult (–2).

Creating religious fervour in an already converted congregation:

Intelligence or Education, 10–60 minutes, Average (+0).
