Traveller Dossier

What is it?

This dossier is a character sheet for use with Mongoose Traveller 2nd Edition. It allows you to keep track of everything you need for your character ranging from the basic stats to the epic back story you have created.

Features

Layers

In addition to everything you would expect from a character sheet this one includes some customization available through the use of layers in Acrobat. To use this feature you first need to open the layers slide out panel by clicking on the Layers icon on the left. Once you do you will see something that looks like

this:

You can turn each layer on/off by clicking the box to the left. By default the "Traveller Dossier" (title on first page) and "TAS" (logo on page 2, lower left) layers are on.

The "barcode" layers will add a barcode that identifies the document as Confidential for either Imperial Intelligence or SolSec on the bottom of each page.

The "Confidential Imperial Intelligence" layer is a big red stamp on the first page.

The "Vilani Confidential Header" adds the word "Confidential" to each page in Vilani.

The remaining layers are all for the logo box on page 2 in the lower left. You can select the one that represents your career.

Form Fields

Each field has a tool tip that should identify what you are expected to put in that field. You can insert an image of your character from a PDF file on the front page next to the summary.

How to Print

The document is designed to be printed either as 4 US Letter (8.5x11) pages or as a "booklet" on tabloid sized (11x17) paper.

To print the booklet you must select 11x17 as the paper size, double sided, and in the layout section select "booklet." This will print in such a way that you can fold it in the middle and create a 4 page booklet out of it.

Dread Parrot Games

If you have any suggestions of enhancements please feel free to contact us at DreadParrotGames@gmail.com and we will get back to you as soon as possible.

Thank you for your support!

We would like to thank

- Marc Miller for creating Traveller and providing myself and thousands of others with an amazing playground for our imaginations.
- Everyone on the COTI forums, /r/Traveller, and the entire community for providing inspiration and support.
- My gaming group, the Dread Parrot Pirates, for allowing me to repeatedly try to kill off their characters as well as their input, suggestions, and patience as I tortured them with the development of this character sheet.
