MAGIC AND KREMM

Trollworld (known to most of its inhabitants as “Kaball”) is an incredibly magical place. The planet exudes a raw force known as *kremm* that can be used to alter reality. In some places, this *kremm* manifests as gateways between universes. In other places, it causes trees to grow impossibly tall, animals to get impossibly large and to develop strange powers, and other marvelous effects.

Many of the kindred of Trollworld can instinctively control *kremm*. For instance, some beings can fly when the physics of our world would seem to make it impossible. Leprechauns can teleport themselves short distances. Naga can *feel* magic. Dwarves can use magic to sniff out precious metals. Magic is everywhere.

Magic has been coordinated into four Schools of Wizardry, each of which is a separate branch of the Wizards’ Guild:

Combat Magic deals with all spells meant to be used directly against a foe.

Cosmic Magic deals with all “divinatory” magic and with spells that directly manipulate reality or other magic.

Conjuring Magic deals with all spells that summon, banish, or control beings, substances, objects, and energies.

Metabolic Magic deals with all spells that directly affect a being’s health or attributes.

Each spell’s school is listed in [brackets] beside the name of the spell. The spell’s author is listed in (parentheses).

Casting Spells

Wizards in Trollworld don’t need grimoires; when you find such a book, it is usually a mere description of the spell and its effects for the benefit of the non-magical reader. It doesn’t explain the mental pattern needed to make the magic happen.

Once a wizard learns a spell, he or she has it forever imbedded into the subconscious—a psychic pattern held in the mind, ready to be called forth along with the magical energy, *kremm*, that the adept has stored up as if he or she were a human battery. When the wizard uses and releases the energy, charged with the pattern of the spell, the magic happens and reality is changed.

Spell-Casting Cost

Every spell has a base “cost,” a measure of the energy expended in casting that spell at its lowest effective level without any kind of assistance (such as from a magical focus like a wand). To cast a spell at its base level costs a number of points of WIZ equal to its base cost.

Just as wizards may cast spells for fewer WIZ points as they increase in character level, so too can they cast their spells at a higher level of efficacy—but, should they attempt the latter, they may do so only at a greater cost in *kremm*. The cost of casting spells at higher levels increases in a linear fashion, so that the increase in the total cost of the spell is equal to its base cost times the number of levels by which it increases.

Total cost = base cost + (base cost x levels of increase)

However, the *efficacy* of the spell usually doubles from its previous effect with each level of increase; each spell's description includes a "Power Up?" entry that explains whether the spell can be increased in this way, and what effect such an increase brings with it.

Kremm Resistance (Magic Resistance)

The major obstacle in spell-casting is that higher concentrations of kremm effectively resist change by lower concentrations. In effect, this means that a character with a lower Wizardry (WIZ) score can't normally cast spells directly upon beings with higher Wizardry scores. If a wizard wishes to try it, she automatically gets a Bad Feeling (which allows her to abort her casting without penalty and try some other action or target instead); if she casts the spell anyway, she simply loses the WIZ cost and the spell doesn't take effect.

WIZ Recovery

Magic costs WIZ to cast. No means of reduction will allow someone to cast a spell for free: All spells cost a minimum of 1 WIZ.

After casting a spell, on the following turn the spell-caster begins to regain lost WIZ at a rate of 1 point per full turn. WIZ cannot be regained if the spell-caster is doing anything more strenuous than fast walking, however. WIZ cannot be regained during combat, nor if the character is moving at a dead run (in flight or in pursuit). Logic should dictate this for the GM.

However, a mage does not have to rest fully (i.e., sitting or lying down) to be recuperating WIZ; by the same token, lying down or sleeping will not speed the recovery of WIZ.

Buying Spells

All spells are valued at 1,000 gold pieces per level.

Using This Book

The spells listed here are not the only ones available in Trollworld. This tome should be considered as a starting point rather than a complete list. Game Masters should feel free to create spells using the existing lists as inspiration.

Many spell descriptions use Attribute abbreviations (e.g., STR for Strength, DEX for Dexterity, etc.).

FIRST-LEVEL SPELLS

ALARUM [COSMIC]

Level: 1 WIZ Cost: 4 Range: 10 ft.
Duration: 100 hours

Description: The spell is cast across an opening, on an object, or upon an area with an approximate radius of 10 feet. If the area is disturbed or crossed, the caster is immediately alerted by means of a psychic "ping."

Power Up? Yes. Double both duration and range with each level increase.

ARE YOU LISTENING? [COSMIC]

Level: 1 WIZ Cost: 2 Range: 10 ft.
Duration: 1 combat turn

Description: Forces the target to move adjacent to the caster and listen to him for the spell duration. The victim cannot take any other action while influenced by this spell, but if attacked or wounded in any way, it shrugs off the magic compulsion immediately. This spell will not work on a target whose CHR is higher than the INT of the caster.

Power Up? Yes. Extend duration by 1 combat turn with each level increase.

BLANK SCRIPT [COSMIC]

Level: 1 WIZ Cost: 3 + 1 per page affected Range: Touch
Duration: Permanent until dispelled

Description: Creates an illusion covering the words on the pages of a book (or on a parchment or scroll) and replacing them with the image of a blank page. The caster must choose the pages to be affected when casting the spell; the magic covers a number of pages equal to the caster level. The affected pages do not need to be adjacent in the book. Once cast, this spell is permanent until dispelled by higher-level magic.

Power Up? Yes. Double number of pages affected with each level increase.

BUG PLAGUE [CONJURING]

Level: 1 **WIZ Cost:** 1 per point of MR of the bugs **Range:** 15 ft.

Duration: 1 combat turn

Description: This spell conjures a number of small bugs (e.g., beetles, ants, maggots, etc.) with a total MR equal to caster level. The bugs are usually created into the clothes of the victim, forcing him to make a L1-SR on Luck or Dexterity (target's choice) to kill the bugs and/or act normally.

Power Up? Yes. Double duration with each level increase.

CALL ICE [COMBAT]

Level: 1 **WIZ Cost:** 8 **Range:** Touch

Duration: Instantaneous **Area of Effect:** One target

Description: This spell briefly summons an icy blast of frost that does 1D6 cold damage to the target.

Power Up: Deals 1 extra die of damage with each level increase.

CALL OF THE WILD [CONJURING]

Level: 1 **WIZ Cost:** 10 **Range:** 10 ft.

Duration: 2 combat turns

Description: A swarm of insects, spiders, snakes, rodents, and/or other small vermin comes to aid the caster in combat. The MR of this swarm is equal to the CHR + STR of the caster. The swarm fights for the caster for the duration of the spell, starting with the combat turn in which the spell is cast. The swarm takes no actions other than to make a melee attack. In any combat turn in which the swarm does not conduct a melee attack, it disperses and the spell terminates, even if the spell has not run its full course.

It is difficult to imagine that a character could be in a place unreachable by some sort of insect, spider, snake, rat, or other small creature, but if the caster is in such a place, this spell fails.

A caster may not use the Defensive Casting talent with this spell, since it effectively generates combat damage in the combat turn in which it is cast.

Power Up: Yes. Double either the duration or the MR of the swarm with each level increase.

CLOUD O' DUST [COMBAT]

Level: 1 **WIZ Cost:** 4 **Range:** 20 ft.

Duration: 1 turn

Description: This spell raises a 10-foot-wide cloud of dust that reduces visibility by half and causes all those within range to cough and choke. Those affected must make a L2-SR on CON or lose half their effective STR for 1 full turn.

Power Up? No.

COLD DRUNK [METABOLIC]

Level: 1 **WIZ Cost:** 4 + 1 per 10 points of CON of the target (round fractions up)

Range: 15 ft.

Duration: See below

Description: The target becomes completely inebriated, experiencing all the normal consequences of that condition. The effects fade away normally, or can be dispelled by higher-level magic.

Power Up? No.

COMPLETE DRIP [CONJURING]

Level: 1 **WIZ Cost:** 3 **Range:** 50 ft.
Duration: Instantaneous

Description: This spell summons about 20 gallons of water and dumps it atop the target.

Power Up? No.

COPYCAT [COSMIC]

Level: 1 **WIZ Cost:** 4 **Range:** Personal
Duration: 1 combat turn

Description: The caster can perfectly imitate the voice of any speaker, provided that he knows the language spoken. The caster can only imitate the voice of beings he has heard speaking; his audience will probably be fooled if they cannot see the speaker.

Thus, for instance, the caster can speak as if he were Thar the Ogre, but he cannot articulate a single Ogrish word if he doesn't already know that tongue; he can still perfectly imitate the voice of Thar, accent and all, while speaking in the Common Tongue—assuming he has heard Thar speak Common.

Power Up? Yes. Double the duration with each level increase.

DETECT MIRACLE [COSMIC]

Level: 1 **WIZ Cost:** 2 **Range:** 30 ft.

Duration: Instantaneous

Description: As Detect Magic (in the core rules), but this spell applies to spells or powers of divine origin.

Power Up? No.

DETERMINE TOPIC [COSMIC]

Level: 1 **WIZ Cost:** 1 **Range:** One book within 30 ft.
Duration: 1 combat round

Description: This spell detects the basic nature of knowledge contained within a book, effectively providing a mental "snapshot" of the table of contents.

Power Up? No.

DO OVER! [COSMIC]

Level: 1 **WIZ Cost:** 6 **Range:** Personal
Duration: Instantaneous

Description: The Do Over! spell is effective only in solo play. Note that this is a contingency spell, cast in advance of necessity. This spell must be cast in paragraph 1 of any given solo adventure (or introduction, etc.); otherwise it has no effect whatsoever. The caster cannot rest before continuing through the adventure; an attempt to rest at the start of the solo once this spell has been cast automatically summons forth the toughest wandering monster in the adventure.

Should the delver die during solo play, time warps itself slightly; the delver finds himself back at the point where the decision that leads to his death took place. Full memory of the poor choice is intact, and another option can be chosen.

Only one Do Over! spell may be cast per solo adventure.

Power Up? No.

FIND BOOK [COSMIC]

Level: 1

WIZ Cost: 2

Range: Anywhere within attuned library
(see Library Attunement spell)

Duration: 1 combat round

Description: Use this spell to locate any one book by author, subject, title, publication date, date last read, or last reader.

Power Up? No.

GOOD NIGHT [COSMIC]

Level: 1

WIZ Cost: 2

Range: 15-ft. diameter

Duration: 3 turns

Description: This dissipates all light within a 15-foot circle; the caster must be within the area of effect, but it need not be centered on him.

Power Up? Yes. Double the diameter of the effect with each level increase.

GOT A MATCH? [COMBAT]

Level: 1

WIZ Cost: 1

Range: Touch

Duration: Instantaneous

Description: This spell provides a spark of flame that does 1 point of damage in combat; thus, it is mostly suitable merely for lighting a candle or a fire.

Power Up? Yes. Increase range by 5 feet with each level increase.

GROUND RULE DOUBLE [COSMIC]

Level: 1

WIZ Cost: 10

Range: Touch

Duration: Until triggered

Description: GRD is a "contingency" spell: it can be cast well in advance of necessity, and takes effect as soon as the triggering event occurs. When GRD is cast, the caster must specify either Saving Roll or Talent Check. On the next appropriate roll, the die roll is considered to be doubles of the highest number showing, and the DARO rule thus comes into effect. If the result is a natural double, add 6 to the result before continuing with DARO.

Only a single GRD spell can be in place at any given time.

Power Up? No.

HELLO SUNSHINE [CONJURING]

Level: 1

WIZ Cost: 1

Range: Line of sight

Duration: Instantaneous

Description: The caster momentarily emits a ray of pure light from his thumb. If the ray is aimed at a creature, the target must make a L1-SR on DEX; if the roll succeeds, the ray misses; otherwise, it hits the eyes of the target, effectively blinding him for 1 combat turn.

The ray can also be used to light an area with sunlight intensity, but only for a second.

Power Up? No.

HOTFOOT [COMBAT]

Level: 1 **WIZ Cost:** 7 **Range:** 30 ft.
Duration: 2 full turns

Description: This spell causes the target(s) to experience the momentary sensation of having a lit match stuck between the toes. Hotfoot may affect a number of targets, as long as their combined CHR (or MR) does not exceed the caster's INT. The targets of the spell have their CPT reduced by 1 point each and may not score Spite Damage while the spell is in effect.

Power Up? No.

ILLUMINATE WRITING [COSMIC]

Level: 1 **WIZ Cost:** 1 **Range:** Personal
Duration: 5 combat rounds

Description: A simple spell designed to aid reading in the dark, this glamour causes a book's letters to shine in the mind, but only for the caster. Illuminate Writing has proven useful beyond its inventor's wishes, though, for even a blind person may read a book using this spell. The glow is not at all visible on the physical pages of the book.

Power Up? Yes. Double duration with each level increase.

IMPRESS IDEA [COSMIC]

Level: 1 **WIZ Cost:** 6 **Range:** 20 ft.
Duration: 10 minutes

Description: This spell allows the caster to implant a logical-seeming idea into the mind of a single target. The idea may not be a command, nor can it create an illusion for the subject, nor does it alter reality; the caster cannot make the target think he or she looks like someone else, for instance, or that she is invisible. However, it could convey ideas like "I am a friend" or "I am not the creature you are looking for," or perhaps "Yes, my papers are in order" or "No, this cargo is not contraband"—and perhaps even "Yikes! Someone is watching you from around the corner."

If the idea implanted opposes some directive or contradicts the habitual behavior of the target, he or she may make a L1-SR on CHR to avoid being convinced.

Power Up? Yes. Double the number of beings affected with each level increase.

Itch & Scratch [Metabolic]

Level: 1 **WIZ Cost:** 4 **Range:** 3 ft.
Duration: 1 combat turn

Description: The target experiences an exasperating itch over its entire body: Halve its Combat Adds for the spell's duration.

Power Up? Yes. Double duration with each level increase.

Library Attunement [Cosmic]

Level: 1 **WIZ Cost:** 4 **Range:** Personal
Duration: Until caster attunes to another library

Description: This spell attunes the caster to a particular library, within which the caster must be located while casting the spell. Such attunement is not a fast process: It takes one full day for the caster to attune to the library's extrasensory vibrations.

Once attuned, the caster may cast any spell with the word "book" or "library" in its title at a reduced cost of 1 per caster level, but only with respect to the library with which he is attuned.

Note: Many "book" or "library" spells work only when the caster is attuned to the target library.

Power Up? No.

Nameless Visage [Metabolic]

Level: 1 **WIZ Cost:** 1 per 10 points of CHR of the target (round fractions up)
Range: Touch
Duration: 10 minutes

Description: The recipient of the spell becomes anonymous even in a crowded place. Those seeing him cannot remember his facial features or body type (but can still recognize his voice or unusual characteristics).

Anyone wanting to observe with particular attention the subject's face may make a L1-SR on INT; if he fails, he cannot distinguish details in the creature's visage (and thus he's unable to identify him afterwards). If the SR succeeds, the Nameless Visage spell is ineffective against that particular observer, who can thereafter recall the enchanted creature normally.

Power Up? Yes. Double duration with each level increase.

Nofeelums [Cosmic]

Level: 1 **WIZ Cost:** 3 **Range:** 20 ft.
Duration: 1 combat turn

Description: While this spell is in effect, the subject is magically rendered much better (or perhaps luckier) when performing acts of subterfuge or thievery. Any creature that is acted on in such a manner by the spell's recipient, such as being the target of his pocket-picking attempt, must make a L1-SR on INT to notice the thief's activities (even if the thief's attempt would otherwise fail).

Power Up? No.

Now That's a Close Shave! [Conjuring]

Level: 1 **WIZ Cost:** 4 **Range:** 20 ft.
Duration: 1 week

Description: The caster points at a target mammalian creature and says, "Now that's a close shave!" The target is magically denuded of all hair, both bodily and facial.

Power Up? No.

Overkill [Cosmic]

Level: 1 **WIZ Cost:** 3 **Range:** 10 ft.
Duration: Instantaneous

Description: This spell melts away any and all remnants of a corpse (bones, viscera, etc.), thus preventing any examination of the corpse... as well as any reanimation or raising of the dead.

Power Up? No.

Power Strike [Combat]

Level: 1 **WIZ Cost:** 5 **Range:** Personal (caster's club, cudgel, or staff)
Duration: 1 combat turn

Description: This spell enchants the wielder's club, cudgel, or quarterstaff. In the caster's hands, the weapon deals 4d6 base damage. The caster may make a normal melee attack with the enchanted weapon in the same combat turn during which this spell is cast.

Power Up? Yes. Either double duration or increase damage dice by 2 with each level increase.

Psychic Compass [Cosmic]

Level: 1 **WIZ Cost:** 1 **Range:** Touch
Duration: Instantaneous

Description: The recipient of this spell can immediately divine true north, even if he cannot see (e.g., in pitch dark or blinded). The subject can thus find his way, roughly, even in underground tunnels or while lost in a fog bank at sea.

Power Up? No.

Scribing Quill [Conjuring]

Level: 1 **WIZ Cost:** 2 per page **Range:** Personal
Duration: 10 minutes

Description: This spell creates a magical quill capable of taking dictation for the caster in the language spoken. The quill is able to record up to one page per minute in a neat and tidy script, requiring no ink.

Power Up? Yes. Double duration with each level increase.

Shimmering Eyes [Metabolic]

Level: 1 **WIZ Cost:** 2 **Range:** Touch
Duration: 1 combat turn

Description: This spell makes the subject's eyes luminous, emitting a pale yellow light. This effect sheds light only out to 5 feet, but it's pretty impressive to see.

Power Up? Yes. Double duration with each level increase.

Skyhole [Conjuring]

Level: 1 **WIZ Cost:** 3 **Range:** See below
Duration: 1 turn

Description: This spell pierces through overcast clouds, creating a hole directly between the caster's position and the sun (or moon, or directly overhead if only starlight is available), illuminating the surroundings in a very impressive manner.

Power Up? No.

Sparkly Ball [Conjuring]

Level: 1 **WIZ Cost:** 3 **Range:** 40 ft.
Duration: 1 turn

Description: This spell creates a sphere of glowing motes roughly 1 yard in diameter. The orb moves about at the caster's direction, traveling at approximately a walking pace. The sphere weakly illuminates a 10-foot radius.

Power Up? Yes. Increase duration by 1 turn with each level increase.

Spit in Your Eyes [Conjuring]

Level: 1 **WIZ Cost:** 2 **Range:** 3 ft.
Duration: Instantaneous

Description: This spell summons a drop of mildly stinging liquid into the eyes of the target creature, blinding it for 1 combat turn. A L1-SR on LK resists this effect.

Power Up? No.

Sun Lotion [Metabolic]

Level: 1 **WIZ Cost:** 3 **Range:** 3 ft.
Duration: 1 hour

Description: The target of this spell is completely protected from sunburn and heatstroke, even in the worst possible natural conditions. This spell does not have sufficient strength to protect the recipient against magical or infernal heat.

Power Up? Yes. Double duration with each level increase.

Take That You Fiends! (TTYFz) [Combat]

Level: 1 **WIZ Cost:** 6 **Range:** 50 ft.
Duration: Instantaneous

Description: This spell functions much like Take That You Fiend! (see the core rules), but the damage may be distributed as the caster desires among any number of foes within range.

Power Up? Yes. Double damage with each level increase.

You Clot [Metabolic]

Level: 1 **WIZ Cost:** 1 **Range:** 10 ft.
Duration: Instantaneous

Description: The spell stems the flow of blood from wounds (including blood drain caused by creatures with special abilities, such as vampires, effectively forcing them to re-establish their "hold" to draw any further blood).

Power Up? No.

Washing Gizmo [Conjuring]

Level: 1 **WIZ Cost:** See below **Range:** 10 ft.
Duration: Instantaneous

Description: This spell removes filth, mud, grime, and stains from all surfaces and creatures in the area of effect (without using water or any other substance, so cannot be used to soak items or extinguish fires and torches).

The spell costs 1 WIZ per cubic foot of material, plus 2 additional WIZ for any creature (including undead and other non-living creatures) in the area of effect. The maximum volume of the effect is 1 cubic foot per caster level.

Power Up? No.

Whisper [Cosmic]

Level: 1 **WIZ Cost:** 5 **Range:** 30 ft.
Duration: Instantaneous

Description: This spell allows the caster to project his voice so that it seems to be coming from a point right next to the target's ear. The spoken message cannot be longer than a number of words equal to the caster's WIZ.

Power Up? Yes. Double range with each level increase.

SECOND-LEVEL SPELLS

Air Bubble [Conjuring]

Level: 2 **WIZ Cost:** 7 **Range:** Touch
Duration: 10 minutes per caster level

Description: This spell creates a magical air bubble around the target's nose and mouth (or any other suitable breathing organ). The subject can thus breathe under water or, for that matter, in any condition without air (e.g., in a poisonous cloud, in a room full of smoke, etc.), even in situations when air is not present at all (such as in a vacuum-sealed chamber or in outer space).

The subject cannot speak (nor cast spells) while under the effect of this spell.

Power Up? Yes. Either double duration *or* add one subject with each level increase.

All-Seeing Codex [Cosmic]

Level: 2 **WIZ Cost:** 7 **Range:** Touch
Duration: 1 combat round

Description: The caster determines the nature of the target book, gaining a basic knowledge of its subject and bibliography. This spell also detects the presence of any one spell cast upon the book and that spell's level. Further castings allow the spell caster to detect multiple spells.

Note: The Game Master must decide how much information beyond the spell's nature and level is gleaned from spells detected using All-Seeing Codex.

Power Up? No.

Antsy [Combat]

Level: 2 **WIZ Cost:** 7 **Range:** 30 ft.
Duration: Instantaneous

Description: This spell gives its target the sensation of ants in the pants, requiring a L2-SR on INT to ignore. If the target fails the Saving Roll, he suffers a 25% reduction to his combat adds for 1 combat turn.

Power Up? No.

Arrow, Arrow, Straight and True [Combat]

Level: 2 **WIZ Cost:** 8 **Range:** Touch
Duration: Until missile is used

Description: This spell enchants an arrow or quarrel so that it cannot miss its intended target when it is next fired, as long as the target is within the weapon's range. Upon striking its target, the missile is consumed by the dissipation of the magical energies.

Note: This spell originally appeared in *Dungeon of the Bear* by Jim Peters. I reduced the number of affected missiles from 1d6 to a single missile and instead introduced a semi-permanent duration.

Power Up? Yes. Affect one more missile with each level increase.

Bat Sight [Cosmic]

Level: 2

WIZ Cost: 7

Range: Personal

Duration: 30 minutes

Description: The caster becomes hyper-attuned to his surroundings, regardless of illumination, by emitting and interpreting high-frequency sounds as if he were a bat.

Power-Up? Yes. Double duration with each level increase.

Bind Book [Cosmic]

Level: 2

WIZ Cost: 6

Range: 10 ft.

Duration: Permanent

Description: By casting this spell, the caster prevents others from accessing a single book. The book cannot be opened by anyone other than the caster.

Power Up? Yes. (Casting at higher levels merely makes dispelling this effect more difficult.)

Chameleon [Metabolic]

Level: 2

WIZ Cost: 5

Range: Touch

Duration: 1 turn (but see below)

Description: The subject of this spell blends into any background and becomes harder to perceive (halve SR levels for hiding) and much harder to target with ranged attacks (treat as being one range category more distant).

In melee, this spell halves the attacker's combat adds but lasts only 1 combat turn.

Power Up? No.

Concealing Cloak [Cosmic]

Level: 2

WIZ Cost: 10

Range: See below

Duration: 3 combat turns

Description: This spell makes the wizard and all companions within a 10-foot radius at the time of casting invisible.

Power Up? No.

Counterfeit [Cosmic]

Level: 2

WIZ Cost: 5 per page

Range: Personal

Duration: 10 minutes

Description: Using this spell, the caster is able to duplicate perfectly any style of handwriting he has seen. If someone examines the forgery who knows the real handwriting intimately, she may attempt a L2-SR on INT to identify the counterfeit; if she fails, she believes the script to be genuine.

The caster cannot write in a language he's not normally able to use (i.e., you cannot write a document in High Elvish if you don't already know how to write that language, but you can imitate the hand of the Elven King in the Common Tongue).

Furthermore, those watching the caster write while the spell is active believe that the handwriting on the sheet is actually that of the writer, unless they also witness (and recognize) the casting of this spell.

Power Up? Yes. Double duration with each level increase.

Curse Book [Cosmic]

Level: 2

WIZ Cost: See below

Range: Touch

Duration: Permanent

Description: This spell punishes those who would read or steal the affected book. A condition trigger may be employed by the caster for selective curses (e.g., failure to return the book on time). Without a specific condition trigger, the cursed book inflicts its curse upon reading the book.

The curse inflicted is a simple penalty modifier to the appropriate attribute, activity, or talent. The maximum modifier to be applied is equal to the level at which this spell is cast.

The base casting cost of the spell is 7 WIZ, plus 1 WIZ for each -1 modifier to be inflicted. Thus, a curse that would impose a -5 penalty has a base cost of 12 WIZ (and would have to be powered up to 5th level).

Power Up? Yes. Increase maximum curse modifier by 1 with each level increase.

Curse You [Cosmic]

Level: 2

WIZ Cost: See below

Range: 50 ft.

Duration: Permanent

Description: This spell reduce any one prime attribute (or MR) of the target creature by any amount up to equal to the caster's level. Thus, a 6th-level caster could reduce the attribute by any amount from 1 to 6, as desired. The cost of the spell equals the amount of this reduction x 2.

This effect lasts until removed by a Dis-Spell or Curses Foiled. If death should occur due to this spell, merely removing the curse does not bring the victim back to life.

Power Up? No.

Delay [Combat]

Level: 2

WIZ Cost: 8

Range: 20 ft.

Duration: 1 combat turn

Description: This spell impedes the movement speed of the victim by half. In combat, this means the caster and his or her companion's get 2 combat rounds to the opponent's one.

Power Up? No.

Double Trouble [Combat]

Level: 2

WIZ Cost: 8

Range: Touch

Duration: 1 combat round

Description: This spell doubles the basic attack die roll for any missile fired from the enchanted bow, crossbow, or sling.

Note: This spell originally appeared in *Dungeon of the Bear* by Jim Peters.

Power Up? Yes. Double duration with each level increase.

Eek! [Metabolic]

Level: 2 **WIZ Cost:** 9 **Range:** 20 ft.
Duration: 1 turn

Description: One target, whose CHR cannot exceed the caster's INT, is convinced that he or she is completely naked.

Power Up? No.

Electric Shock [Combat]

Level: 2 **WIZ Cost:** 8 **Range:** 3 ft.
Duration: Instantaneous

Description: The caster fires a bolt of electricity at one target. A L1-SR on DEX is required to hit the intended target. On a hit, the bolt inflicts 1D6+3 electrical damage. If the target wears or carries ferrous metal weighing 10% or more of its own body weight, this damage is doubled; if it wears or carries at least 40% of its own weight in ferrous metal, it takes triple damage.

Power Up? Yes. Double damage with each level increase.

Slingshot [Combat]

Level: 2

WIZ Cost: 12

Range: 100 ft.

Duration: Instantaneous

Description: The caster hurls a single small object or projectile, such as a rock, a coin, a dagger, or an arrow, without the need for a projectile launcher. This spell reduces the level of SR normally needed to hit the intended target by 1. If the projectile hits, it inflicts damage equal to the DEX of the caster.

This spell can be used on targets with higher WIZ than the caster, because the spell is cast on the stone, not on the target.

Power Up? No.

**Spell Origin –
Slingshot**

Slingshot is an Urook spell from the barren deserts of the Western Inlands. In a land with very little wood, hunters and fighters needed some sort of missile attack, so they developed this spell from the primitive Urook custom of throwing stones.

Legend has it that Arahk Gnakh, a cultural hero of the Urooks, first devised the spell and taught it to shamans and hunters. The Wizards' Guild records that Khara Khang brought it back to Khazan after one of his many travels.

Snuff [Combat]

Level: 2

WIZ Cost: 10

Range: 30 ft.

Duration: 1 combat turn

Description: This spell can affect any number of targets within range, as long as the total CHR (or MR) does not exceed the wizard's INT; targets are inflicted with a sneezing fit that prevents any action for 1 combat turn.

Power Up? No.

Spatial Curvature [Cosmic]

Level: 2

WIZ Cost: 8

Range: Touch

Duration: 1 combat turn per caster level

Description: Makes an object or creature appear to be about 10 feet away from its actual location. If the subject attacks (or casts offensive spells), the effect ends immediately. All melee and ranged attacks directed against the subject miss unless the attacker makes a L2-SR on INT to ignore the effects of the deceptive magic.

Power Up? No.

Summon Armor [Conjuring]

Level: 2

WIZ Cost: See below

Range: Touch

Duration: Permanent (until used)

Description: This spell is cast on any single suit of armor or shield. For the purpose of this spell, "suit" can mean either an actual full suit of armor or an assortment of individual torso, arm, leg, and head armor (1 piece per type).

The affected armor disappears, and a small clay or wooden token appears in its place. When the token is snapped in half, the enchanted armor materializes immediately at the feet of whoever broke the token.

Casting this spell costs 2 WIZ plus an amount of WIZ equal to the base value of the armor to be enchanted.

Power Up? No

Spell Origin – Summon Armor

The sages of the Vaults of Ironfang attribute this spell to Zargon Runeslayer, a human wizard from Gull. Many of his journals survived him, and it seems that he created this spell quite early in his storied career, having repeatedly found himself in need of better armor than he was able to use effectively. He used the spell quite effectively throughout the years.

Nonetheless, Runeslayer is reported to have moved on to using the Zapparmor spell, rather than this one, later in his career.

Super Glue [Conjuring]

Level: 2

WIZ Cost: See below

Range: Touch

Duration: Permanent

Description: The caster brings any two surfaces into contact with one another while casting this spell. The magic bonds the surfaces together as if their respective items were a singular, unique item. The bond is permanent and can be broken only by magic or by extreme brute force: a SR on STR with a level equal to that of the caster detaches the two items without ruining them.

Only non-living items can be enchanted with this spell; magic items are unaffected. The total combined weight of the two items to be bonded is a maximum of 10 w.u. per caster level. Casting this spell costs 1 WIZ per w.u. of the items glued.

Power Up? Yes. Double maximum total weight of items with each level increase.

Telescope [Metabolic]

Level: 2

WIZ Cost: 6

Range: Touch

Duration: 1 combat turn

Description: This spell enables the subject to see distances more clearly, as if he were only 1/4 as far away as he actually is. The spell does not allow the recipient to see in the dark or through mist, or to see invisible creatures.

This spell is, of course, very useful for reducing the difficulty of Saving Rolls needed to hit a target with ranged attacks.

Power Up? No.

Tongue Twister [Metabolic]

Level: 2

WIZ Cost: 6

Range: 50 ft.

Duration: See below

Description: This spell paralyzes the vocal cords of its target if the sum of the caster's WIZ + LK + INT + CHR exceeds that same sum (or the MR) of the target. The spell lasts for a number of turns equal to the difference between the caster's WIZ + LK + INT + CHR and the target's (or the target's MR, if appropriate).

Note, however, that the caster can become the victim of his own spell if his total is inferior to his opponent's! Of course, being unable to speak makes spell-casting difficult, if not impossible.

Note: The Game Master may well rule that the player of a character who has been "tongue twisted" cannot speak either.

Power Up? No.

Unerring Staff [Combat]

Level: 2

WIZ Cost: 3

Range: Personal (caster's weapon)

Duration: 2 combat turns

Duration: Instantaneous

Description: This spell gives the caster accurate knowledge of the general weather conditions and trends within range for the next 24 hours.

Power Up? No.

Wham Bam [Combat]

Level: 2

WIZ Cost: 8

Range: Touch

Duration: 1 combat turn

Description: This spell doubles the base protection value of all armor worn by the subject. A shield must be targeted separately from a recipient's armor to be affected. (Note: Since the base value is changed, a warrior's Armor Bonus doubles this effect—so he effectively gains four times the usual armor points from his armor.) When the spell ends, however, the enchanted armor permanently loses 1 point from its base armor value.

Wham Bam has no effect on magic armor, nor on armor currently under the effect of another spell.

Power Up? Yes. Either double duration *or* add one target with each level increase.

Play Examples – Wham Bam

Example 1

Gimor is a warrior wearing scale armor (base armor value 13, doubled to 26 due to his warrior's Armor Bonus). His wizard ally casts Wham Bam on his armor, increasing its effective value from 26 to 52. After the spell ends, the armor magically decays to a base value of 12.

Example 2

Alana is a wizard wearing a bronze cuirass (armor 5), a steel cap (armor 1), and a buckler (armor 3) strapped to her left forearm. She casts Wham Bam, increasing it to a 3rd-level spell so that she can affect both her armor (i.e., cuirass plus cap) and her buckler. Her total armor protection increases from 9 to 18 points of protection.

When the spell ends, however, her cuirass drops to armor 4 and her buckler to armor 2, and her steel cap is destroyed by the strain of the magic and falls to pieces (i.e., it is reduced to armor 0).

Wind Whistle [Conjuring]

Level: 2 **WIZ Cost:** 14 **Range:** 100 ft.
Duration: 1 turn

Description: This spell calls up a wind with a speed of 10 mph. The caster specifies the direction upon casting, and cannot change the direction thereafter. The caster can cancel this spell at any time.

Opposing winds of equal velocity cancel each other; a stiffer breeze will be partially negated by a lesser one, but not completely nullified.

Power Up? Yes. Double duration *or* wind speed with each level increase.

Yes, Master [Metabolic]

Level: 2 **WIZ Cost:** See below **Range:** Touch
Duration: 1 year

Description: This spell can be cast only on a sentient creature that has already been subdued. While under the spell's effect, the creature obeys the caster immediately and without question.

To determine the cost of casting this spell, first calculate the victim's STR + INT + CHR (or, for a monster, simply use its MR). This spell costs 10% of that value, rounded up.

Power Up? No.

Level: 3 **WIZ Cost:** 10 **Range:** Touch

The dimensions of the curtain cannot exceed 90 square feet (i.e., nine 10-foot squares).

Power-Up? Yes. Double damage dice with each level increase.

Blood Shower [Metabolic]

Level: 3 **WIZ Cost:** 22 **Range:** Touch
Duration: 1 combat turn

Description: The affected creature begins to bleed from its various orifices, losing a number of CON points equal to the caster's level (treat these wounds as spite damage). If the spell is cast with prolonged duration, the bleeding continues and, at the beginning of each subsequent combat turn, the victim takes the same amount of CON damage.

The bleeding can be countered by a *Poor Baby* spell (though this does not heal any points of CON already lost).

Description: The spell creates a fresh and nutritious meal, which when eaten restores 1 point of CON. Further, any saves against ingested poisons or toxins made by the dining character in the next 24 hours are reduced by one level of difficulty.

Power Up? Yes. Double number of meals with each level increase.

Tower of Will [Metabolic]

Level: 3 WIZ Cost: See below Range: Touch
Duration: 10 minutes

Description: The recipient of this spell is immune to all kinds of mental attack and manipulative illusions, including mind reading, psychic influence, mental control, charms, mind attacks, and the like.

To determine the casting cost (in WIZ), divide the recipient's INT by 10 and round up.

Power Up? Yes. Double duration with each level increase.

True Tongue [Metabolic]

Level: 3

WIZ Cost: 8

Range: Touch

Duration: 1 turn

Description: This spell forces the target to speak the whole truth and nothing but the truth. The target may make a L5-SR on CHR to avoid the spell's effects.

Note: The caster does not know whether the spell is successful or not.

Power Up? No.

Vengeance to Boot [Conjuring]

Level: 3

WIZ Cost: 16

Range: 10 ft.

Duration: Instantaneous

Description: This odd spell creates a gigantic, stinking, ironclad boot near the head of the intended target. The boot immediately tries to kick the victim and then disappears. The caster must succeed at either a L1-SR on DEX or a L3-SR on LK (whichever is more advantageous) to have the boot connect. If the boot hits the target, it deals 3D6 plus the caster's combat adds (and only head armor can be used to absorb this damage), and the victim is stunned for 1D3 combat turns (half movement and combat adds, double SR difficulty, and cannot cast spells).

If the boot misses, it instantly rematerializes adjacent to the caster's head and tries to kick him instead. He must make a L2-SR on DEX to avoid it.

Power Up? No.

Water Washer [Cosmic]

Level: 3

WIZ Cost: 10

Range: Touch

Duration: Instantaneous

Description: This spell purifies a quantity of water or other potable liquid of all contaminants and toxins, magical or otherwise. The maximum amount of water affected is a number of quarts equal to the wizard's level squared; thus, a 3rd-level wizard can purify 9 quarts of liquid.

Power Up? No.

Web [Conjuring]

Level: 3 **WIZ Cost:** 8 **Range:** 50 ft.
Duration: 1 combat round per level

Description: This spell creates a mass of strong, sticky spiderweb-like strands that entangle those in the area unless they make a L3-SR on DEX or LK. The webs created fill an area roughly 20 feet by 40 feet. A creature can cut itself free of the web in a single combat turn using slashing weapons, but doing so requires a L2-SR on DEX to avoid becoming entangled again by loose strands; one such attempt may be made per combat turn. An entangled foe is otherwise helpless, unable to fight or flee.

Power Up? No.

Wraith Mist [Metabolic]

Level: 3 **WIZ Cost:** 10 **Range:** Personal
Duration: 3 turns

Description: This spell causes the caster and everything he carries to become an insubstantial, semi-visible spectral mist. Whilst in this form, the caster can move about as normal, and can even pass through cracks around windows or under doors and through keyholes and the like. However, he can affect nothing physically, nor can he enter an airtight location.

Power Up? No.

FOURTH-LEVEL SPELLS

An Itch to Die For [Metabolic]

Level: 4 **WIZ Cost:** 25 **Range:** 20 ft.
Duration: 3 combat turns

Description: This spell causes an atrocious itching across the entire body of the target creature. While the spell lasts, the victim can do nothing but scratch and takes 1D6 damage per combat turn.

Note, this spell works only on living, thin-skinned opponents: It will not affect the living dead or creatures like dragons, nor birds, serpents, or aquatic creatures.

Power Up? Yes. Either affect one extra target *or* increase duration by 1 combat turn with each level increase.

Arcane Woollies [Metabolic]

Level: 4 **WIZ Cost:** 15 **Range:** 10 ft.
Duration: 1 hour

Description: This spell grants the recipient immunity to cold damage. If the source of the damage is magical, this spell protects the recipient only if the Arcane Woollies caster's INT equals or exceeds that of the enemy source/spell-caster.

Power Up? Yes. Double duration with each level increase.

Beam of Immobility [Combat]

Level: 4 **WIZ Cost:** 22 **Range:** 30 ft.
Duration: Instantaneous

Description: The caster fires a beam of paralyzing energy at a target within range, requiring a successful SR to hit, as with a standard missile attack. If victim is struck, he is immobilized and can take no actions for 1 combat turn.

The beam has no effect against non-living creatures.

Power Up? Yes. Double duration with each level increase.

Beer unt Roasted Pig (BuRP) [Conjuring]

Level: 4 **WIZ Cost:** See below **Range:** 3 ft.
Duration: Permanent

Description: This spell summons a rather rustic but nutritious meal of strong red beer and roasted pork. The food is clean and healthy in every respect, and will spoil normally after a couple of days or so.

The caster can feed a number of human-sized creatures equal to his level; bigger and smaller creatures such as ogres and faries will devour commensurately more or less food, so account properly for size. The casting cost of the spell is equal to 8 WIZ per human-sized creature to be fed.

Power Up? No.

Black Rain [Conjuring]

Level: 4 **WIZ Cost:** 36 **Range:** 300 ft.
Duration: 1 combat turn

Description: This spell creates dense, low-flying black clouds over an area roughly 100 feet by 100 feet. The clouds immediately discharge a torrential rain of black, stinking acid rain. All within the area of effect suffer 2D6 spite damage per combat turn.

Worse still, all exposed items in the area can potentially be destroyed by acid if the spell's duration is extended beyond the basic 1 combat turn, as determined by a D6 die roll, noted below.

Soft items (wood, bone, ivory, cloth, leather, etc.): Roll at the end of the 2nd turn, and again each turn thereafter. These items are destroyed on any result of 1–4.

Hard items (metal, stone, gems, etc.): Roll at the end of the 4th turn, and again each turn thereafter. These items are destroyed on any result of 1–2.

Magical items suffer only half the above chances to be destroyed (i.e., on a 1–2 for soft items and on a 1 for hard items).

Power Up? Yes. Double either duration *or* dimensions of cloud with each level increase.

Blank Book [Cosmic]

Level: 4 **WIZ Cost:** 12 **Range:** Touch
Duration: Permanent

Description: This spell permanently erases any amount of the touched book's contents, as desired by the caster.

Power Up? Yes. (Casting at higher levels allows this spell to affect books protected by spells of a higher level.)

Book Sight [Cosmic]

Level: 4 **WIZ Cost:** 11 **Range:** See below
Duration: 1 turn per caster level

Description: The caster determines where any one book is located and may scry upon it and its immediate vicinity (i.e., in a 10-foot radius) for the spell's duration. Book Sight affects only a book within an attuned library (see Library Attunement spell).

Power Up? No.

Buffoon [Metabolic]

Level: 4 **WIZ Cost:** 8 **Range:** 20 ft.
Duration: 2 turns

Description: This spell reduces the victim's DEX score to 1 for the spell's duration. Characters with such low DEX scores have difficulty not walking into things; they tend to fumble held items and generally stagger around like drunkards.

If this spell fails for any reason, the caster's DEX is affected instead.

Power Up? No.

Dart of Discombobulation [Cosmic]

Level: 4 **WIZ Cost:** See below **Range:** 75 ft.
Duration: 1 combat turn

Description: This spell throws a shard of magical energy at one target within range; the caster must succeed at an SR to hit, as with a normal missile weapon. If the dart hits, the target is unable to cast spells for the duration.

The base casting cost is equal to 4 x the target's level (or half its MR, if applicable). If the caster pays double this initial casting cost, the dart automatically hits the target.

Power Up? Yes. Increase duration by 1 combat turn with each level increase.

Ding-a-Ling [Cosmic]

Level: 4 **WIZ Cost:** 18 **Range:** 50 ft.
Duration: Instantaneous

Description: This counterspell negates a Rock-a-Bye spell (see the core rules), regardless of the caster's level.

Power Up? No.

Drain Power [Cosmic]

Level: 4 **WIZ Cost:** 22 (but see below) **Range:** Touch
Duration: See below

Description: With this spell, the caster can drain WIZ from another creature and add it to his own WIZ score. As long as he maintains contact with the victim, he can "steal" 1D6+1 WIZ per combat turn from the target in this way (but note the "casting cost" explained below). When the target's WIZ reaches 0 or once the physical contact between caster and victim is interrupted, the spell ends.

The drained WIZ restores WIZ points spent by caster and can even augment his usual maximum, but when this surplus WIZ is spent, it cannot be regained. The victim regains drained WIZ at the normal rate.

The base casting cost of this spell is 22 WIZ, but it also costs 1 WIZ per combat turn to maintain the drain.

Power Up? No.

Flame Out [Conjuring]

Level: 4 WIZ Cost: 10 Range: 50 ft.
Duration: Instantaneous

Description: This spell extinguishes any nonmagical fire up to the size of a large bonfire (or a number of smaller blazes of equivalent total size within range, such as about two dozen torches).

Power Up? Yes. Double the maximum size of the fire with each level increase.

Going the Extra Mile [Metabolic]

Spell Level: 4 WIZ Cost: 8 Range: Touch
Duration: 1 hour

Description: The target of this spell may travel overland 1 mile per hour faster than his normal speed. As well, the target's SPD is increased by 1 for the duration.

This spell affects only living or undead creatures; it has no effect on a target that already has its speed enhanced by another spell or magical effect.

Power Up? Yes. Double duration with each level increase.

Spell Origin – Going the Extra Mile

This spell was invented by the half-crazed half-elf wizard Wynstyn to give his racers an edge in the "Khazan 80-Mile Trek-a-thon," in which non-offensive spells up to 4th level are allowed. Unfortunately, Wynstyn's secret soon got out, and virtually everyone that participates in the race now uses this spell. Wynstyn is back to the drawing board, looking to invent another spell to give his racers an edge over those of his competitors.

Hungry Hunting Horde [Conjuring]

Level: 4 WIZ Cost: See below Range: 150 ft.
Duration: 1 combat round

Description: The caster summons a pack of faintly luminescent canines of his choice (wolves, wild dogs, jackals, etc.). The pack has a maximum MR of up to caster's CHR x 2; the wizard can choose the exact amount when casting the spell. For example, Blubbo Formigone has CHR 32 and can summon a pack with a MR of up to $2 \times 32 = 64$. The pack follows caster's commands to the best of its ability, as long as they are relatively simple (attack, return, stop, etc.).

The casting cost for this spell is equal to the MR of the hunting pack.

Power Up? No.

Instant Buried Treasure [Conjuring]

Level: 4 **WIZ Cost:** 50 **Range:** 5 ft.
Duration: 1 year and 1 day

Description: This spell is cast upon a collection of loot not exceeding 10 x the caster's INT in pounds; the goods sink without a trace into the ground beneath, and remain there, safe from water, worms, and other natural hazards (but not necessarily from discovery by other beings armed with spades).

The caster may recall the treasure to the surface at any time, but after a year and a day, the spell dissolves and the treasure reappears.

Power Up? No.

Killer Mist [Conjuring]

Level: 4 **WIZ Cost:** See below **Range:** 10 ft.
Duration: 1 combat round per level

Description: This spell conjures a vaguely humanoid creature of animate fog, with a maximum MR equal to the sum of the caster's LK + INT + CHR. The killer mist obeys the caster's commands to the letter. The mist can be damaged only by spells due to its incorporeal nature; however, it can increase its density to manipulate solid objects and can fly at will. It can pass through holes and small openings, but cannot go through solid items or pass into a vacuum.

If the killer mist creature survives at the end of the spell, the caster must make a L4-SR on CHR. If he succeeds, the creature is dispersed again into nothingness, but if he fails, the killer mist attacks him with furious rage.

The casting cost of this spell is equal to MR of the creature evoked.

Power Up? No.

Mutable Stone [Conjuring]

Power Up? Yes. Double range *or* duration with each level increase.

Net of Suffocation [Conjuring]

Level: 4 **WIZ Cost:** 40 **Range:** 30 ft.
Duration: 1 combat turn per level

Description: This spell creates a 20-foot-diameter net of magical energy that spurts from the caster's hands to engulf all creatures in the area. Affected creatures can try to dodge the net with a L4-SR on DEX. Those who fail are entrapped and unable to take any action while the spell lasts. Moreover, they suffer 1D6 points of spite damage per combat turn as the net begins to shrink, threatening to suffocate them.

Each entrapped creature must make a SR on CON each combat round after the first, with a difficulty equal to the number of combat turns for which they have been trapped (i.e., a L1-SR on the second combat turn, a L2-SR on the 3rd, and so on). If any SR fails, the victim begins to asphyxiate and will die at the end of the combat turn if the net is not broken or dispelled before then.

The net can be ripped with brute force, requiring a L4-SR on STR (entangled victims can try this SR, but at L6), or it can be slashed with edged weapons (L2-SR on DEX, or entangled victims can try a L4-SR for same effect).

Power Up? No.

Nightmare [Cosmic]

Level: 4 **WIZ Cost:** 30 **Range:** 50 ft.

Duration: 1 combat turn per level

Description: This spell causes an illusion of the target's worst nightmare to appear, be it a tiger, a shark, a giant spider, a mouse, a mother-in-law, a lawyer, etc. The target's reactions will vary, ranging from immediate flight to immediate attack.

Power Up? Yes. Add one additional target with each level increase.

One Shot, One Kill [Combat]

Level: 4 **WIZ Cost:** See below **Range:** Touch

Duration: 1 combat turn

Description: One weapon held or fired by the target inflicts maximum damage (but without any spite damage) for 1 combat turn. The spell's casting cost is 4 WIZ per die of damage normally dealt by the weapon, plus 1 extra WIZ for every 2 adds (round fractions up); thus, casting this spell on a normal broadsword—which deals 3D6+4 damage—costs 14 points of WIZ.

One Shot, One Kill can be cast on enchanted or magical weapons, but the casting cost is doubled.

Power Up? No.

Sixth Sense [Cosmic]

Snooze Alarm [Cosmic]**Level:** 4 **WIZ Cost:** 12**Range:** 10 ft.**Duration:** 12 hours

Description: This simple warding spell, placed on a container or an opening or portal (of no larger than 10 square feet per caster level), instantly awakens and alerts the caster when any creature touches or crosses over the warded area.

The Doctor Is In [Metabolic]**Level:** 4 **WIZ Cost:** 50 **Range:** Touch**Duration:** Instantaneous

Before the spell is cast, all broken bones in the subject must be set, foreign objects (arrows, glass shards, gravel, etc.) removed, and the subject himself must stay still for the entire turn. Failure to properly prepare the patient may result in, at best, no healing, and at worst improper healing (e.g., a broken bone knitting at a right angle, skin growing over an embedded arrow, etc.).

Power Up? No.

Under a Blazing Sun [Conjuring]

Level: 4

WIZ Cost: 17

Range: 100 ft.

Duration: 1 combat turn

Description: This spell makes the air extremely hot and dry in a maximum volume of 100,000 cubic feet (100 ft. x 100 ft. x 10 ft., for instance) within range. All creatures in the area take 1D6 points of heat damage, plus an additional amount equal to the armor value of all metal armor worn (excluding shields). Magical armor is treated as non-magical for the purposes of this calculation.

For example, if a delver wears a magical suit of chainmail (armor value 32), he takes additional damage as if he were wearing a normal suit of chain mail (armor value 12), for a total of 1D6+12 points of damage.

All creatures caught in the area must also make a L4-SR on STR or be severely dehydrated, losing half their Strength due to extreme heat; this condition lasts until the creature drinks at least 2 quarts of water (assuming a human-sized creature) and rests for 1 full hour.

Fire-resistant and animate non-living monsters are immune to this spell; undead creatures are immune only to the dehydration effect. Ice- and water-based creatures suffer double damage.

This spell does not work underground or after sunset, but does function normally on rainy or overcast days.

Arrowstorm [Conjuring]

Level: 5 **WIZ Cost:** 34 **Range:** 100 ft.

The victim also must succeed at a SR on CON each round or take a number of points of CON damage equal to the caster's level and pass out due to overwhelming pain and shock: The Saving Roll starts at L1 and increases by one level for each subsequent combat turn after the first (i.e., a L2-SR in the second combat turn, a L3-SR in the third, and so on). If he saves, he takes half damage and remains conscious.

Range: Personal

Duration: Instantaneous

Description: All creatures within 100 feet of the caster (but not the caster himself) suffer heat damage equal to 5D6 + the caster's combat adds. Undead take double normal damage.

This spell can be cast only outdoors and under moonlight.

Power Up? No.

Shooting Star [Conjuring]

Level: 5

WIZ Cost: 31

Range: 40 ft.

Duration: Instantaneous

Description: This spell hurls a blazing shooting star at one target within range. The caster must make an SR to hit as normal with missile attacks, but the difficulty is halved due to magical nature of the attack. If the shooting star hits, the target suffers a number of damage dice equal to the caster's level, plus the caster's combat adds; all creatures within 10 feet of the target take one-half of that amount of damage. If the attack misses, the primary target takes half damage and the secondary targets take none.

Power Up? No.

Stone You! [Combat]

Level: 5

WIZ Cost: 20

Range: 70 ft.

Duration: Instantaneous

Description: Rocks and rubble (roughly fist-sized and smaller) within 50 feet of the target leap off the ground and hurtle toward him. The target takes 6D6 damage + the caster's combat adds; the GM may reduce or increase the base damage by up to 4D6 depending on the surrounding terrain (rough terrain or many broken bits of hard/sharp material would deal more damage, while relatively clear terrain or bare floors would deal less).

Power Up? No.

Think Link [Cosmic]

Level: 5

WIZ Cost: 20

Range: 70 ft.

Duration: 1 turn

Description: This spell allows the caster to converse telepathically with one creature in range. The target must be known to the caster or else be in line of sight.

Power Up? Yes. Double either range *or* duration with each level increase.

Transgender [Metabolic]

Level: 5

WIZ Cost: See below

Range: Touch

Duration: Permanent (until dismissed)

Description: The target creature changes its gender permanently (i.e., men become women, and vice versa). The target retains all abilities, memories, capabilities, kindred, type, possessions, etc. The caster can reverse this spell at will by touching the target again. Otherwise, the spell can be reversed only by another casting of Transgender or by dispelling it.

Casting this spell costs an amount of WIZ equal to the sum of the target's Attributes.

Power Up? No.

Trust Me [Metabolic]

Level: 5 WIZ Cost: 30 Range: 10 ft.
Duration: See below

Description: This spell causes its target to happily believe whatever the caster says while the spell lasts. However, if the target's INT + LK + CHR (or its MR, if it's a monster) is equal to or greater than the caster's INT + LK + CHR + WIZ, the spell fails automatically and the intended target is aware that an unfriendly spell was cast against him (and will likely seek redress against the caster with a large, knobby club).

This spell lasts a random 1D6 hours, making any reliance on it somewhat risky after extended periods.

Power Up? No.

Untap the Life Force [Metabolic]

Level: 5 WIZ Cost: See below Range: 10 ft.
Duration: Instantaneous

Description: This powerful spell enables the caster to fully heal himself or another creature within range, with a small catch. The target's CON is immediately restored to its maximum value, less 1D6 points; however, these remaining 1D6 points are permanently subtracted from the target's CON (so, in effect, his currently healed CON value becomes his new maximum).

Further, each time the caster uses this spell on another creature, he takes damage equal to the WIZ cost of the spell (although this damage can be healed normally).

The casting cost of this spell is an amount of WIZ equal to the target's starting maximum CON.

Power Up? No.

Wiz-Speak [Cosmic]

Level: 5 WIZ Cost: 30 Range: Personal
Duration: 1 hour

Description: This spell allows the caster to understand and to be understood by any listener within speaking range—the Universal Translator!

Power Up? Yes. Double duration with each level increase.
