

CODEX: BLOOD ANGELS

Indomitus Version 1.0

These documents collect amendments to the rules and present our responses to players' frequently asked questions. Often these amendments are updates necessitated by new releases or community feedback; these can be identified by the presence of an asterisk before the page reference. At other times, these amendments are errata designed to correct mistakes or add clarity to a rule that is not as clear as it might be.

As they're revised regularly, each of these documents has a version number; where a version number has a letter, e.g. 1.1a, this means it has had a local amendment, only in that language, to clarify a translation issue or other minor correction. When a document is revised, the version number will be incremented and new updates will be highlighted in **blue**, while new errata and FAQs will be highlighted in **magenta**.

FAQs

Q: When a unit with the And They Shall Know No Fear ability takes a Morale test, is the number that is added to the dice roll for the number of models destroyed in that unit for that turn considered to be a modifier (for the purposes of applying re-rolls before modifiers)?

A: No, the number added is not considered to be a modifier.

Q: Can I use a Signum to increase the Ballistic Skill characteristic of a model when it shoots with a ranged weapon before being removed as a casualty as part of the Astartes Banner ability?

A: No.

Q: Can the Killshot Stratagem be used to affect Baal Predators or Deimos Pattern Relic Predators?

A: No. The Killshot Stratagem can only be used to affect models using the Predator datasheet.

Q: If I use the Hellfire Shells or Flakk Missile Stratagem and I hit, do I continue to roll to wound and do damage normally in addition to doing mortal wounds?

A: No, the normal attack sequence ends.

Q: How do the Flakk Missile and Hellfire Shells Stratagems interact with an Armourium Cherub? Are you able to ‘reload’ the weapon and fire again with the benefit of the Stratagem?

A: No.

Q: If an Armourium Cherub has been removed after reloading a weapon, can a model use its Narthecium ability to return it to the unit?

A: No.

Q: Which part of a Drop Pod should I measure distances from and to, especially if the model has been assembled so its doors can be opened or closed?

A: Measure all distances to and from any part of the model, including its doors. If this model has been assembled such that you can lower and raise its doors, then when this model is first set up in the battlefield choose whether the doors will be lowered or raised – you cannot raise or lower the doors thereafter during the battle.

Designer’s Note: *Choosing to set this model up in the ‘raised doors position’ simply represents the doors closing the instant after its passengers have disembarked.*
