

CODEX SUPPLEMENT: SALAMANDERS

Indomitus Version 1.1

These documents collect amendments to the rules and present our responses to players' frequently asked questions. Often these amendments are updates necessitated by new releases or community feedback; these can be identified by the presence of an asterisk before the page reference. At other times, these amendments are errata designed to correct mistakes or add clarity to a rule that is not as clear as it might be.

As they're revised regularly, each of these documents has a version number; where a version number has a letter, e.g. 1.1a, this means it has had a local amendment, only in that language, to clarify a translation issue or other minor correction. When a document is revised, the version number will be incremented and new updates will be highlighted in **blue**, while new errata and FAQs will be highlighted in **magenta**.

DESIGNER'S NOTES

CODEX SPACE MARINES – SUPPLEMENT UPDATES

*With the release of the 2020 edition of Codex: Space Marines, it is necessary to update the Codex supplements that were written to work alongside its predecessor. These updates ensure that the rules presented in this supplement work smoothly and 'as intended' with the latest Codex. They involve such things as adding the **CORE** keyword in the appropriate places and attaching appropriate labels and categories to psychic powers and Stratagems. They also include updating certain weapon profiles to match changes in Codex: Space Marines, and readjusting certain other rules to take into account their altered efficacy when used in conjunction with the new units and rules presented in Codex: Space Marines.*
