

PARTS FRAME 1 OF 1

UPGRADE SET FOR M7 FAST ATTACK VEHICLE: ATGM TURRET/FLOATING BASE: BROWN METALLIC

EBBLES MINIATURES <http://www.ebblesminiatures.com>

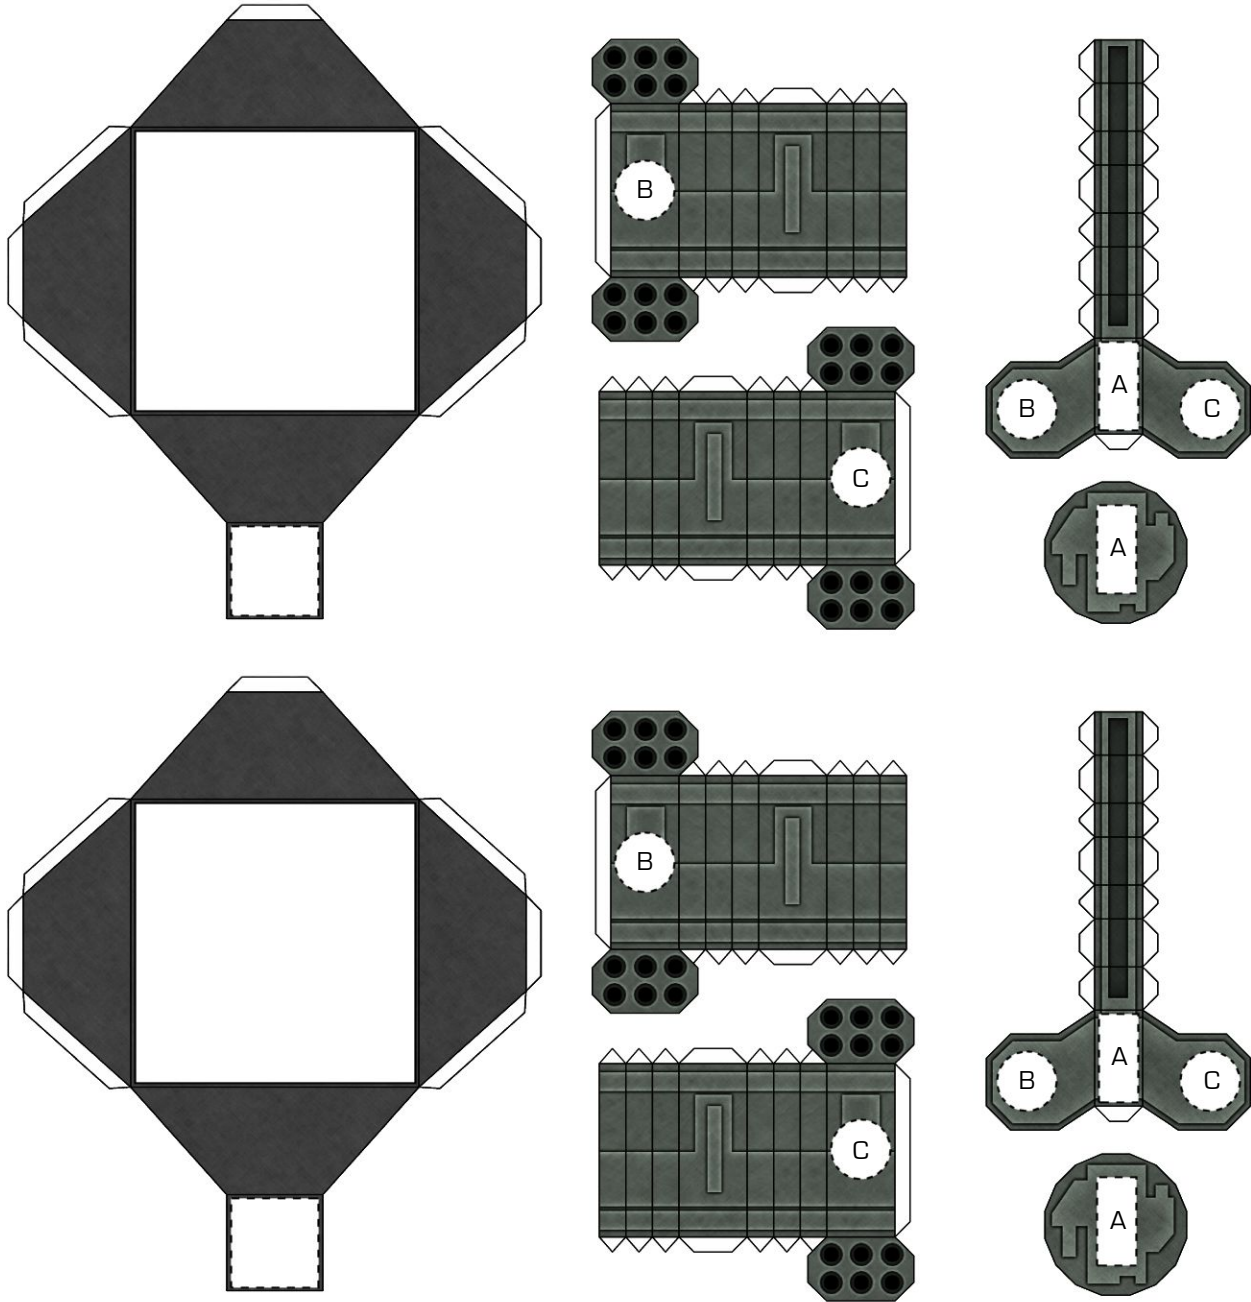

This upgrade set is designed to assemble into two components: the antitank missile pod turret and the floating base unit.

The floating base unit should be glued to the bottom of the vehicle, centered and flush with the edge where the bottom of the hull slopes upwards to the rear.

The missile pod turret is designed to replace the turret, and is glued to the top of the turret ring.
