## INTRODUCTION

Well, time for some history and a bit of culture for a change! The Ancient Romans brought us some aspects of everyday life that we now take for granted, central heating, aqueducts, blood sports and dozens of other stuff, and while they are no longer around, they have left plenty of legacy behind. What influences they left for us modern types, we should give thanks to, so it was about time we give them some love around here and get round to finally publishing this title. Yes, these are 100 authentic roman names, used in times gone by, and now you can use them in your own games too.

Mind that these names are for males (we will get round to making a female version also, so never fear!) but will be useful in any number of different RPG settings, from ancient history to sci-fi, the choice is up to you.

If you are after more names for your PCs and NPCs, feel free to check out more of our titles, where we have everything from Viking Names, Orcish, Draconic, Native American and many more.

As they say, when in Rome and all that jazz, but as ever with all of our titles, have fun with this booklet, and enjoy!

1. **ACACIUS:** The Latin form of the Greek Akakios, meaning "not evil."

2. **ACTAEON:** The Latin form of the Greek Aktaion, meaning "effulgence." In myth, its the name of a hunter who was torn to pieces by his own dogs. He was then transformed into a deer, thus himself becoming the hunted.

3. **ADRIANUS:** A variant spelling of the Latin Hadrianus, meaning "from Hadria."

4. **AENEAS:** The Latin form of the Greek Aineias, meaning "praiseworthy." In myth, this is the name of a Trojan warrior who founded the Roman state.

5. **AIGIDIUS:** The Latin form of the Greek Aigidios, meaning "kid; or "young goat" or "shield of goatskin."
