Foreword

Welcome to another edition of "Grim's Amazing D100 Tables", this time we talk of legendary demonic entities and hell fiends names from the pages of the old tomes. All the names here are taken from world myth, from the Goetia to Ancient Greece, these creatures have been the cause of nightmares and kept naughty children in line for centuries. As ever, they are compiled in D100 table format for quick random results, but intended as a GM's tool to inspire and expand on what lore you may have within your existing game framework.
