Foreword

Run for the hills! the Orcs are coming!

Orcs are a mainstay of fantasy gaming, literature and media, they represent the countless scores of evil minions and foot soldiers of many a game, willing to throw themselves at the average party of PCs, only to get slaughtered willy nilly without second thought for their own safety, by GMs the world over!

It's about time these poor creatures were afforded some care and attention, and given a degree of personalisation with this list of 100 orc inspired names. Perfect for all sorts of situations for your games, for NPC villains, half orc and full orc PCs, or even big bosses.

Go on, show some love to your orcs, and give them an extra dimension with a quick random D100 roll!!

Enjoy!!
