Foreword

Well, with the festive season being almost upon us (or even right now or past us, depending when your reading this) and time for a themed Pointless Classic.

We are fully aware of the use of Elves within the RPG genre, but let us turn our attention to their seldom used seasonal relatives, that being Santa's Elves.

I'm sure that some of you lot out there run a regular Xmas themed adventure or two during the season, so I thought I'd chip in and provide some assistance in generating these diminutive (or not) cousins of the generic RPG elf.

You'll find 100 suggestions for these individuals, complete with charts for equipment, weapons and so on. As with all pointless classics, these are meant with a tongue firmly in cheek and are ideal for novelty purposes.

Have fun coming up with loads of Santa's minions and don't forget to check out our other Pointless Classics range of PDFs (available where you got this one) or indeed our growing range of Digital hobby products.

If you have an idea for a pointless classic that you think would amuse and be at home in the range, get in touch via our website WWW.THEGRINNINGSKULL.COM and lets make it happen! We are always happy to hear from you about your ideas and comments!
