Foreword

We're back again with yet another 100 fantasy settlement names for creating quick off the cuff , villages, towns and hamlets for your chosen fantasy role playing game.

Strangely, most of these names could actually be real places in the world, if you consider the amount of places that exist with either equally strange or weirder titles already!

Anyway, as usual the hope is to inspire and help out the over burdened GM with a quick fix when it comes to winging suchlike during a game session, or while creating a campaign world setting. Either roll a D100 randomly for the hell of it, or simply choose from the myriad of names, it's up to you! Also, you might consider the sister title 100 Fantasy Settlement Names Vol 1, available from our publisher page for 100 more name options.

Have fun and enjoy!!
