WITH SEED IDEAS

## **THE THURINOS RUINS**

The ancient city of Thurinos was leveled ages ago. No one remembers exactly how the destruction came about. The remaining subterranean tunnels are crumbling and extremely hot. Treasure hunters find themselves parched and sweating minutes after entering.

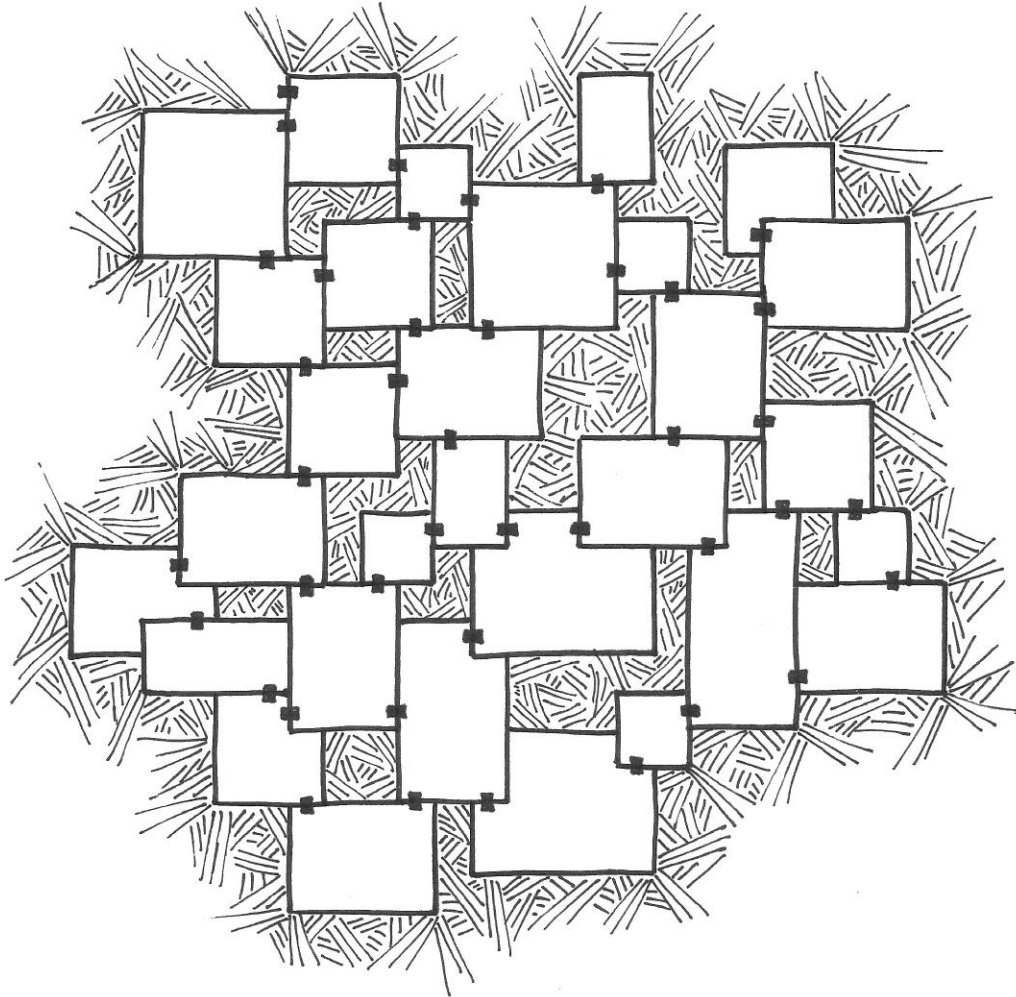

## **THE TEMPLE OF SUUTRAR**

Was Suutrar a god or a goddess? Was it the name of the one who built the temple? All this has faded from memory. What remains are haunted halls that few have dared enter.

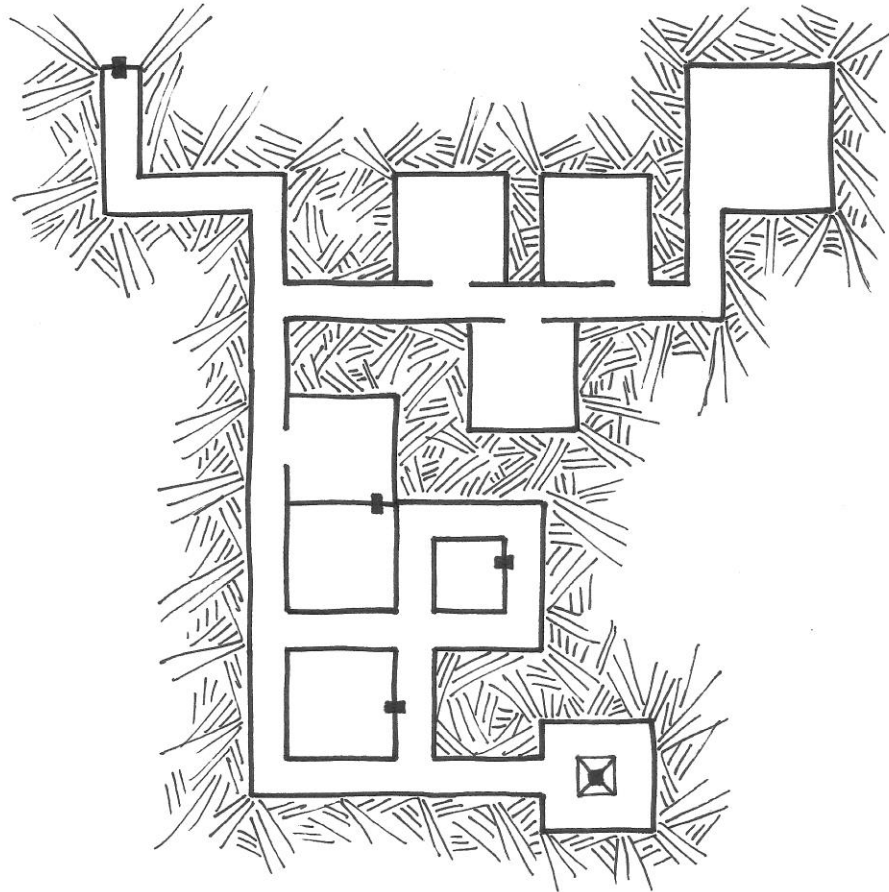

## **RETHANA GATHERING HALL**

An order of wizards would gather here to perform rituals and discuss magical wisdom. They are long gone now, save one. Nearby townsfolk tell of an old wizard who still lights the hall with strange magic.

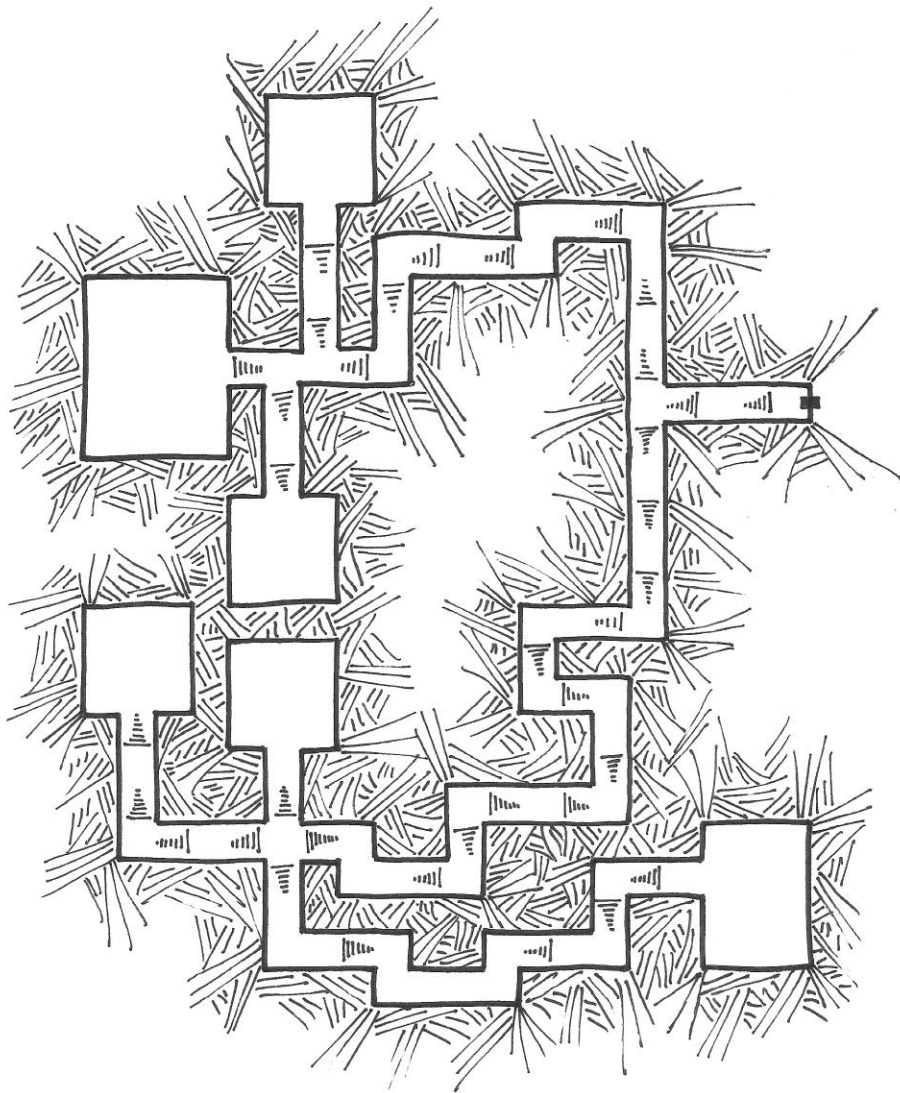

## **THE CHAMBERS OF VUUL**

Vuul the Librarian is said to have gathered the knowledge of a thousand lands. It is also said that he used arcane wisdom to protect his prized volumes. Manuscripts, books, and scrolls now molder in the damp chambers. However, there is knowledge to be gained, though not by the fainthearted.

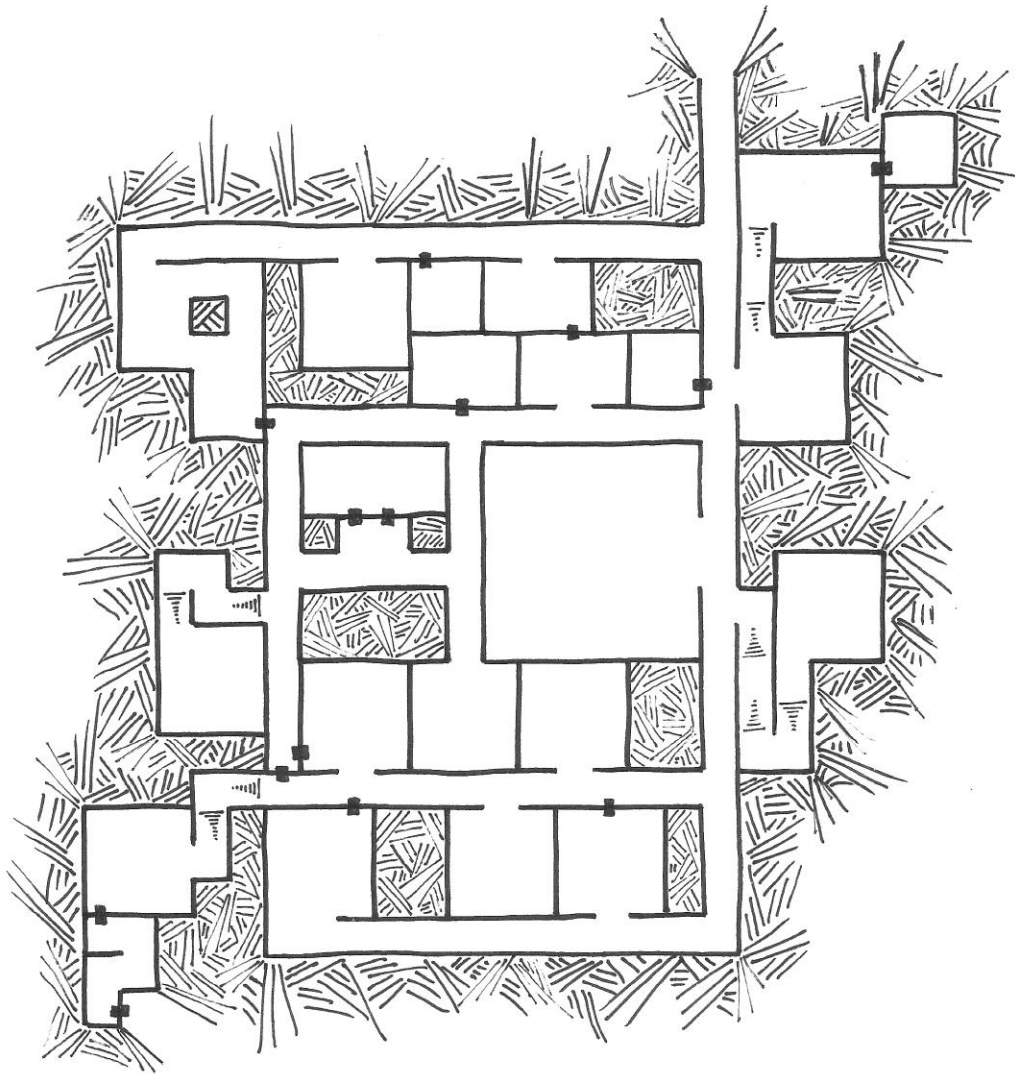

## **THE SHRINE OF BRUVUMON**

Few remember the rites performed to honor one of the old gods, Buvumon. Tales whisper of a bottomless pit and the wicked blades the priests used to protect their shrine.

## **THE VAULT OF HIBLISS**

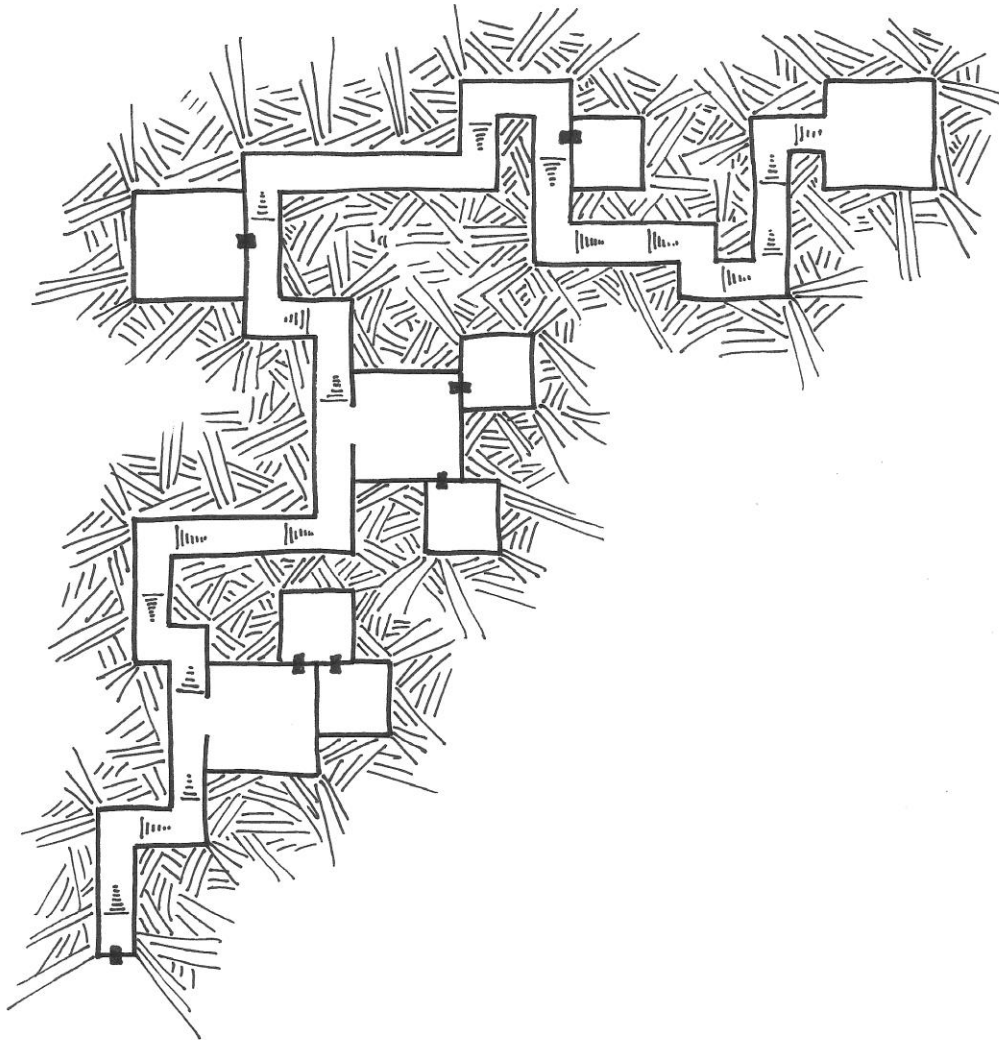

Who or what Hibliss was is no longer known. The dank, dripping halls are now home to mosses, slime, and a horrid band of goblins.

## **THE SARRIA ARALUU**

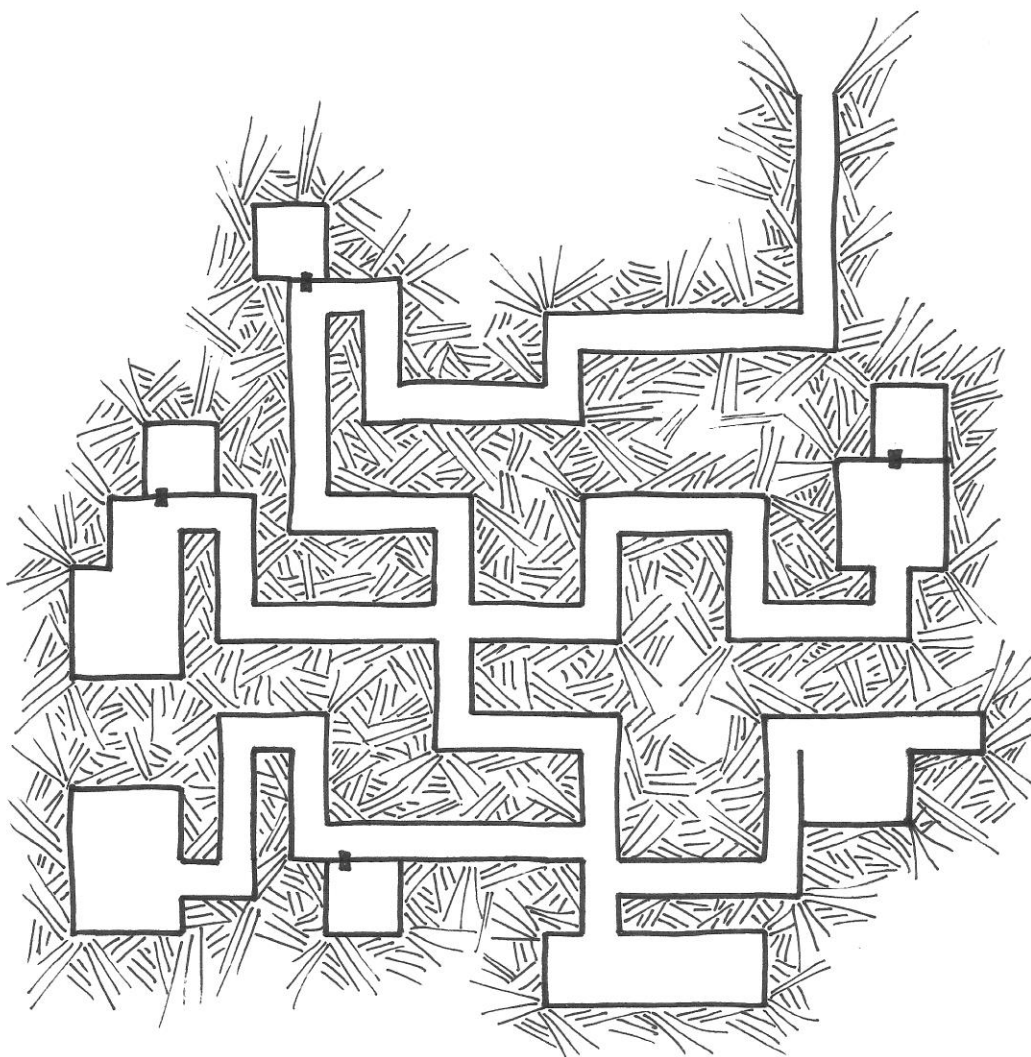

The Sarría Araluu was to be the crowning achievement of Queen Maris. Her dream died with her long ago. The once ornate walls are now soiled with age and defaced by looting. Some claim treasures remain in the old rooms. Others claim a new evil lurks in the dark.

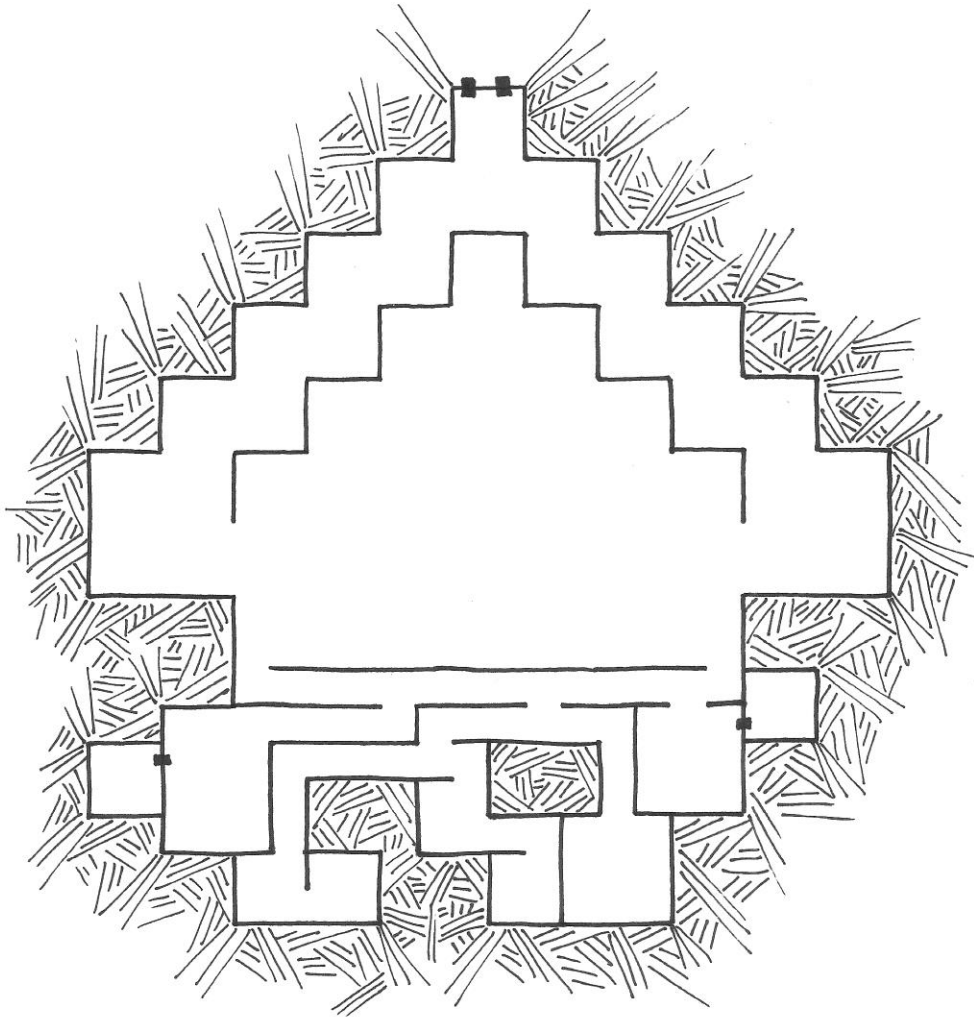

## LEVEDRU'S OUBLIETTE

This prison was made for one man. Levedru was the terror of the ten kingdoms for decades. He was finally imprisoned with extreme cunning and skill. Centuries later the prison lies in ruins. However, there are those who claim Levedru's ghost is still imprisoned within.

## **THE TOMB OF VIADO APHAX**

The resting place of the King of the Highwaymen, Viado Aphax, was looted long ago. However, his personal vault has never been found. Many still dream of finding his most valuable prize, the Star of Naria -- a diamond the size of a man's fist.

## **THE YVANOS CATHEDRAL**

The painted and gilded walls have long faded. The god or goddess worshipped here long forgotten. However, the great sanctuary now makes an excellent home for an ogre who has been terrorizing the nearby countryside for several years.
