INTRODUCTION

So, you can talk to the animals. And they can talk back. Does that mean there will be a useful conversation as a result?

Many systems have ways, magical and otherwise, by which a character can speak with animals, but just because a character has the ability to speak with animals does not mean the animal in question will say anything useful or relevant. Or intelligent; the ability to talk to an animal does not make the animal in question smarter.

USING THE LIST

Either roll d100 for a random result or choose appropriate ones manually. Not every answer is suited to every type of animal, so discard any results that do not make sense in context.
